TABLE OF CONTENTS

ELECTRICAL	1
All electrical parts and accessories including headlight and taillight brackets, license plate holders, and horns.	
FRAME AND BODY	2
Custom frames, hardtails, struts, fenders, shocks, motor mounts	
FRONT END	3
Custom and stock replacement front ends, and all the parts you need with the above from top tree to, but not including, axle.	
HANDLEBAR/CONTROL	4
Handlebars, risers, hand and foot controls for clutch, brake levers, shifters, throttles, mirrors, all gauges, fittings, and housings, controls, speedometer, tachometer, cables and hoses.	
TIRES, WHEELS & BRAKES	5
Tires, tubes, rim strips, stock and custom wheels, axles, brakes and all parts you need for the above.	
ENGINE	6
All parts on and in engine except electrical, ignition and transmission.	
ENGINE BIG BOOK	E
Comprehensive engine reference book with exploded views and replacement parts for all Ultima® Engines plus H-D®, S&S®, Rev Tech® & Merch®	
DRIVE	7
Everything from the engine to the rear wheels, including transmission, shifter, kickstarter, clutch, drive chain, chain adjuster, sprockets, belt drives, chain covers, chain guards, belt guards, and all the related parts.	
GAS / AIR / OIL	8
All parts from, and including, tanks or air cleaners to the engine. Including gas tanks & all attached parts, carburetor parts, rebuild kits, manifolds, air filters, oil tanks & all attached parts, oil filters, oil lines, oil pressure gauges, oil temperature gauges and oil coolers.	
IGNITION	9
All ignition parts and accessories including magnetos, coils, contact points, condensers, tune up kits, distributors, and spark plugs.	
EXHAUST	10
All exhaust system parts from the engine out, O2 Sensors	
SEATS / SISSY BARS / TOURING	11
All seats and related items, Luggage Racks & Saddle Bags.	
CHEMICAL / SHOP / ENGINE OIL / TOOL	12
Cleaners, polishes, lubricants, paints, sealants, engine & gear oil & essential tools.	
HARDWARE / MISCELLANEOUS	13
All dress and custom items, including decorative nuts, bolts, and fasteners.

We are not a representative of any motorcycle manufacturer and the parts we sell are not necessarily recommended by any motorcycle manufacturer.

All words used in this catalog denoting any motorcycle manufacturer, models or motorcycle, or part numbers are intended for use as reference only. Although our replacement parts are not original factory equipment, our intention is to provide quality replacement parts that meet or exceed standards set by the manufacturer.

Harley-Davidson® Parts: Harley® and Harley-Davidson® and other model names of Harley motorcycles are used as a reference only. Some H-D® part numbers are also used as reference only. We are not an authorized Harley® dealer and in no way do we have, or intend to imply any kind of business relationship with Harley-Davidson Motor Company®. Our intention is to provide products that can be used on a Harley-Davidson® motorcycle.

Names and words that are registered trademarks of Harley-Davidson® Inc. Milwaukee, WI, such as Buddy Seat®, Buell®, Disc Glide®, Duo Glide®, Dyna Glide®, Electra Glide®, Evolution®, Harley-Davidson®, Harley®, H-D®, HD®, Heritage Softail®, Hugger®, Fat Boy®, Fat Bob®, Low Glide®, Low Rider®, Road King®, Roadster®, Softail®, Sport Glide®, Sportster®, Sturgis®, Super Glide®, Tour-Pak®, Tour Glide®, Twin Cam 88™, Ultra Classic®, and Wide Glide® are not intended to imply that they are Harley-Davidson® original equipment by their use in connection with Harley-Davidson® factory part numbers.

The following model designations for Harley-Davidson® motorcycles are used in this catalog for reference only: EL, FL, FLH, FLHR, FLHS, FLHT, FLHTC, FLHTC-I, FLHTC Ultra Classic, FLHX, FLST, FLSTC, FLSTF, FLSTN, FLSTS, FLT, FLTC, FLTC Ultra Classic, FXB, FXD, FXDB, FXDC, FXDG, FXDL, FXDS, FXDS-Conv., FXDWG, FXE, FXEF, FXLR, FXR, FXRC, FXRD, FXRDG, FXRP, FXRS, FXRSE, FXRS-Conv., FXRS-SP, FXRT, FXS, FXSB, FXST, FXSTC, FXSTS, FXSTSB, FXWG, GE, K, KH, WL, WLA, XL, XLCH, XLCR, XLH, XLH 883, XLH 1100, XLH 1200, XLR, XLS, XLT, XLX AND XR-1000.

The words: Ultima®, Ultima Saddle®, Midwest Motorcycle Supply Distributors Corp.®, Fat Bastard®, Thundervolt®, Big Growl®, Thunder Fire®, Kool Kat®, King Spoke®, Silver Horse®, Fatso™ & Fatso Motor Parts™ are trademarks of Midwest Motorcycle Supply, Inc., Pevely, Missouri, U.S.A. All other trademarks, registered trademarks and brand names used in this catalog are the property of their respective holders.

WARNING

Serious injury, death and property damage can result from the improper use, control, alteration, or maintenance of motorcycles. The dealer and dealers customers must exercise good judgement in the use, control, alteration, part selection and installation, and maintenance of motorcycles. Midwest has no control over the judgement of others and assumes no responsibility or liability of any nature for the failure of others to use good judgement.

PLEASE NOTE:

MOTORCYCLES MODIFIED WITH SOME AFTERMARKET PARTS, ACCESSORIES AND PERFORMANCE PARTS MAY BE RESTRICTED FROM USE ON PUBLIC ROADS AND/OR LIMITED TO CLOSED COURSES. PLEASE SEE U.S. EPA AND YOUR RESPECTIVE STATE REGULATIONS.

THUNDERVOLT® AGM BATTERIES

Ultima®'s AGM Thundervolt® batteries are the highest performance batteries we offer today! These are an industry first, with a direct fit aftermarket replacement for OEM# 65989-97A. These batteries provide some of the highest power ratings available in the aftermarket.

FEATURES:

- Patented post design reduces internal battery resistance by replacing 3 internal connections with 1.
- Flush mount, threaded terminals allow for easy connection to bike terminals.
- Nonspillable, sealed AGM Valve Regulated Lead Acid (VRLA) design is maintenance free and meets all requirements for shipment via air carrier.
- Rugged construction has been lab tested and field tested to ensure long life, even in demanding V-Twin applications.
- Higher AH capacity than OEM means more starting capacity before wearing battery down, particularly useful for those stubborn steeds.
- Manufactured by an ISO 9001:2000 registered factory
- Patented Cast-On-Stip (COS) manufacturing technology ensures consistent long battery life.

Ultima® Part No.	OEM Part No.	CCA	Applications
1-140	65989-97B	310	Softail® 1997/later, XL 1997/2003, Dyna® 1997/later, VROD (except VRSCR) 2007/later

SEE SECTION 9

A

A. **ULTIMA® PLUS ELECTRONIC WIRING SYSTEM**

The newest version of Ultima®'s complete wiring systems. This one is even smaller & more advanced, includes everything needed for installation. Measures 1-13/16 x 3-7/8 x 1. Instructions included and available online @ www.ultimaproducts.com.

18-533 Complete kit.

SOLD AS KIT

B. **ULTIMA® SIMPLE WIRING MODULE**

Ultima®'s simple wiring module was designed to help simplify wiring when only the bare necessities are needed. No larger than a standard starter relay, the module provides 30 amps secondary protection to the motorcycle's electrical system. Has a built-in starter relay. Allows usage of a low amperage ignition switch. Has diagnostic L.E.D.s for ignition and start circuit. Compatible with electronic compression releases. Instructions included and available online @ www.ultimaproducts.com.

18-536 Ultima® Simple Wiring Module.

SOLD EACH

B

C. **ULTIMA® COMPLETE ELECTRONIC WIRING SYSTEM**

This wiring system uses all the latest high tech electronics to make wiring your bike easier. All flasher, relay & circuit interrupters are included in one small package that can be mounted in a wide variety of locations. This module and its plugs are waterproof and LED's are used to troubleshoot problems. Kit includes all wires, connectors, module & heat shrink tubing. Instructions included and available online @ www.ultimaproducts.com.

18-530 Ultima® wire harness kit.

SOLD AS KIT

18-531 Indicator light harness for above part No. **18-530** wiring system. 6 Ft. long; can be cut to desired length.

18-535 Replacement starter/headlight relay.

SOLD EACH
SOLD EACH

C

D. **ULTIMA® CUSTOM WIRING HARNESS FOR BIG TWIN CUSTOMS**

This wiring harness is perfect for custom motorcycles using 1985 thru 1995 or 1996 & later handlebar controls. Harness is a complete main wiring harness and installs easily for a clean, custom look. Harness is complete to include starter relay, turn signal flasher, circuit breakers and all necessary pin connectors to install with either 1985 thru 1995 or 1996 & later handlebar controls. Use this kit with handlebar wiring harness part No. **18-230**, **18-231**, **18-332** and **18-331**.

18-346 Complete custom main wiring harness. Fits custom FX models 1985 & later.

SOLD AS KIT

The installation of this box and a new wire harness is a must when restoring the electrical system on Big Twins and 45", 1948-1969.

- 17-99 Terminal box assembly. SOLD AS KIT

A. CIRCUIT BREAKERS TYPE 1 CYCLING - AUTOMATIC RESET

NOTES: PLASTIC VS METAL

Vibration...Plastic housings with mounting brackets are one-piece molded designs and are less prone to vibration. Metal housings with brackets are two-piece designs. The bracket is attached by spot welding and can be loosened by vibration.

Shorting Out...If a wire should loosen from a terminal on a plastic housing version, it will not short out against the housing as it may do with a metal housing.

Weight...The plastic housing is also lighter than the metal housing.

The following part numbers include single **U.S.A. MADE** circuit breaker with mounting bracket.

METAL		PLASTIC
PART NO.	DESCRIPTION	PART NO.
17-78	Circuit breaker; 15 amp.	17-120
17-63	Circuit breaker; 20 amp.	17-121

8-439 Lamp unit, plain.

E. CONVERSION HEADLIGHTS

Headlight Conversions are exact replacements for sealed beam used on most big bikes. They provide substantially improved lighting with little or no modifying, at a modest cost. A dual filament bulb allows high or low beam operation. Quartz iodide/350,000 candlepower.

7-45* Quartz unit 12V, 7" dia., flat. **SOLD EACH**

8-480* Quartz unit 12V, 7" dia., round.

7-46* Quartz unit 12V, 5-3/4" dia., flat.

*For 6V applications — order 12V conversion kit and replace bulb with H4 bulb.

DUAL FIRE & HIGH PERFORMANCE STOCK REPLACEMENT COILS

ULTIMA® THUNDER FIRE™ HEAVY DUTY STARTERS

89'-06' BIG TWINS

Ultima® is setting the standard in Starter performance and value with the Heavy Duty series Thunder Fire starters for 1989 thru 2006 model Big Twins, except 2006 Dynas®. These Starters are built with all new tooling and all parts are new, not Re-manufactured like some of our competitors. We have made improvements to the key components in these starters to insure long life and exceptional performance. We are sure you will agree these are a best value product.

Black Wrinkle finish

TOP POST STARTERS

- 70-220** 1.4 Kw Chrome Plated
70-221 1.4 Kw Wrinkle Black
70-224 1.75 Kw Chrome Plated
70-226 2.0 Kw Chrome Plated
70-228 2.4 Kw Chrome Plated

ANGLED POST STARTERS

- 70-222** 1.4Kw Chrome Plated
70-223 1.4Kw Wrinkle Black
70-225 1.75 Kw Chrome Plated
70-227 2.0 Kw Chrome Plated
70-229 2.4 Kw Chrome Plated

STARTER BOLTS

- 70-218** Starter Bolt; 1/4"-20 x 5-1/4"
70-219 Starter Bolt; 10-32" x 6"

1.4 KW SERIES

- Available in Black or Chrome
- 6.375" L x 3.5" H x 5.25" W
- Fits all 89/05 model Big Twins with no clearance issues
- Works with OEM battery
- Each Starter is individually tested with data sheet included

1.75KW SERIES

- Great upgrade for stock and 1.4 Kw starters. Made for trouble free starting of most small strokers
- 6.875" L x 3.5" H x 5.25" W
- Fits some stock applications on Big Twins where 3/4" longer body is not a problem.
- Includes manual push button cap on solenoid
- Works with OEM battery
- Each Starter is individually tested with data sheet included

2.0 KW SERIES

- Made for Big Inch engines
- Heavier Clutch Gears
- 8" L x 3.5" H x 5.625" W
- Fits some stock applications on Big Twins where 7/8" longer body is not a problem.
- Fits FLT and Dyna® when used with 89-14 oil filler spacer
- Includes manual push button cap on solenoid
- Requires a 300 amp Battery and good cables for best results
- Each Starter is individually tested with data sheet included

2.4 KW SERIES

- Made to Start anything Big Inch
- Heavier Clutch Gears
- 8.25" L x 3.5" H x 5.625" W
- Includes manual push button cap on solenoid
- Requires a 300 Amp Battery and good cables for best results
- Each Starter is individually tested with data sheet included

ULTIMA® THUNDER FIRE™ HEAVY DUTY STARTERS

2006 & 2017 DYNAS®, 2007 & 2017 SOFTAIL® & 2007 - 2016 TOURING

1

Thunderfire

Ultima® has continued the standard in Starter performance and value with the Heavy Duty series Thunder Fire starters for 2007 & later model Softail® & Touring models, and 2006 & later Dyna®. These Starters are built with all new parts & tooling. Not Re-manufactured like some of our competitors. Works with OEM battery & individually tested w/data sheet included. We are sure you will agree these are a best value product.

ULTIMA® THUNDER FIRE™ HEAVY DUTY STARTERS FOR 1965 THRU 1988 MODEL BIG TWINS

Thunderfire

Our Starters are designed to replace the obsolete designs of the Prestolite and Hitachi starters used on 1965 thru 1986 model Big Twins. Based on all new tooling some of these models will offer over two times as much cranking power over their older designed counterparts. These starters boast a 1.4 + KW rating and will turn over Stockers and Stokers with ease. These are a highly recommended upgrade for older models.

- 70-231** 1980/1985 FLT, FLHT, FXR models rubber mounted engine, 5 speed transmission and exposed rear chain.
- 70-230** All Big Twin models 1986 thru 1988.
- 70-232** 1979/Early '84 models with 4 speed transmission and rear chain drive.
- 70-233** All Big Twin models 1967/ Early 1979 with solid mount engine.

A

A. ULTIMA® THUNDER FIRE™ PRESTOLITE-TYPE STARTER MOTORS

Fits FL 1966 thru 1981, FLT 1980 thru 1982, FXR 1982, XL 1967 thru 1973, and XL 1977 thru 1980.

A fine restoration item, this reproduction of the H-D® OEM Prestolite electric starter motor is available in chrome or black. We also offer many of the replacements parts for this starter motor.

70-130 Complete black starter motor assembly. OEM 31458-66A.

19-272 13" Wide smooth Sabre fender.

19-270 13" fender, 16 gauge, 300 tire.

19-273 13" fender blank, 16 gauge, 300 tire.

B. HIGH-STYLE FRONT FENDER

Pure custom High-Style! This fender is drawn from 1 piece of metal. Mounting holes must be determined by the builder. Matches our High-Style rear fenders part No. **19-156, 19-160**

19-157 High-Style front fender; measures 6-3/8" wide at fender mount surface. **SOLD EACH**

C. CUSTOM STEEL REAR FENDERS

These fenders are manufactured in .078" steel; they are a one-piece formed construction for added strength. Unlike the more usual "two halves welded together," these fenders won't flex and split. The steel fenders have been Phosphate etched to help prevent corrosion and to give a good surface for primers to adhere to. They come in either 9", 11" or 13" widths and a choice of several styles. All fenders are supplied raw and undrilled for custom applications.

SMOOTH SILVER HORSE® gives approximately 135° wheel coverage.

19-152 9" Wide smooth Silver Horse® fender. **SOLD EACH**

A. TOP MOTOR MOUNT FOR SPORTSTER®

5-226 Fits XL models 1986-1994. OEM #16278-86A. SOLD AS KIT

5-227 Fits XL models 1995-2003. OEM #16278-95B.

B. TOP MOTOR MOUNT FOR TWIN CAM®

5-225 Fits Softail® & FLT carb models 2000-2005. SOLD AS KIT

C. URETHANE MOTOR MOUNTS

These Urethane motor mounts replace the stock mount in all Big Twins fitted with rubber mounted engines. The special urethane formulated compound has enhanced compression & rebound dampening properties which gives a 20% reduction in transmitted vibration. Available in chrome or black powdercoat finish.

5-198 Black Big Twin urethane motor mount kit. SOLD AS KIT

D. EXTENDED TOP MOTOR MOUNT

Mount is 1/3 thicker than stock mount for extra strength. The bracket is 1" longer so you can use FXR Type coil mounts for motors with larger cylinders and heads. Kit also includes additional bracket for mounting an ignition switch. Fits '84 and up Softails®.

5-150 Extended heavy duty motor mount and hardware kit.

SOLD AS KIT

E. HEAVY DUTY MOTOR / COIL MOUNT

This 1/4" thick, chrome steel adjustable mount will bolt-up to Big Twin V2-type motors. Can be used with tall cylinders. Mount is designed to be used with any 1999 & earlier type coil (bolt holes). Provides a convenient spot to locate your coil between the cylinders on the left side of the motorcycle. Ignition switch cover 17-25 is designed to compliment this motor mount (section 1).

5-218 Heavy duty motor/coil mount for V2 type motors. SOLD EACH

F. MOTOR MOUNT STABILIZER

Fits FXR and FLT, 1984 thru 1994. OEM 16219-79A.

5-193 Chrome steel Imported.

SOLD EACH

G. MOTOR MOUNT HARDWARE KITS

Complete stock motor mount kit for Harley® O.H.V.'s. Features heat treated bolts, castle nuts, cotter pins, and heavy duty washers.

5-164 Fits Shovel 1970 thru 1984.

SOLD AS KIT

41-150 Front motor mount for Dyna® 1991 & later.

SOLD AS KIT

41-149 Trans-to-motor mount for TC88® 1999 & later.

41-137 Complete stock motor mount kit for

rubber mount FLT, FLHT, FXR, & FXRS, 1985 & later.

5-240 Complete lower motor mount kit for

SOLD AS KIT

2000 & later Softail®.

H. MOTOR MOUNT HARDWARE KIT FOR FXST

Chrome plated smooth allen head motor mount kit. Includes all hardware for top front and rear mount.

5-185 Fits FXST 1984 & later and FX 1985.

SOLD AS KIT

5-186 Fits FXST 1984-later, FX 1985 & for use with Ultima® Rigid frames.

A. XL KICKSTAND

This high strength steel kickstand has a brilliant chrome finish. Replaces OEM kickstands perfectly. Includes safety switch tab.

- 87-50** Chrome stock length 8" XL 04-19 kickstand
- 87-51** Black stock length 8" XL 04-19 kickstand

B. CUSTOM KICKSTANDS 10" & 11"

Chrome steel kickstand kit with cover & mounting bolts.

- 87-10** 10" Kickstand kit for '99 & earlier.
- 87-11** 11" Kickstand kit for '99 & earlier.
- 87-12** 11" Kickstand kit for '00 - '06 Softail® models.

C. FL STYLE KICKSTANDS

FL style kickstands are made from high strength steel, the black version is E-coated with primer and finished in a gloss black powder coat for durability. Also available in a beautiful show chrome finish. Kickstand has black bump rubber included. Fits: 1999-2006 FLHT / FLHR / FLHX / FLTR models. Sold each

- 87-200** Chrome '99-'06 FL kickstand stock length 11" OEM 50075-83/50075-91A
 - 87-201** Chrome '99-'06 FL kickstand 10"
 - 87-202** Chrome '99-'06 FL Kickstand 12"

D. CENTER STAND FOR TOURING MODELS

This stand features a heavy duty steel construction, chrome plated, easy to install & comes with all necessary mounting hardware & brackets. This stand lifts the bike upright & off the side stand, ideal for cleaning & servicing & reduces parking space.

Attaches directly to frame and does not reduce lean angle. Designed to work with all OE suspension configurations & with profile suspension lowering kits. Adjustable feet can be set to lift rear tire clear off pavement. Replaces OEM# 91573-06. SOLD AS KIT

- 87-120** Chrome center stand for '99-'08 Touring models.
- 87-121** Chrome center stand for '09-Later Touring models.

E. KICKSTAND EXTENTION KIT FOR SOFTAIL®

This kickstand extension is machined from billet aluminum and ergonomically designed to allow better grip and contact with your boot which aids in swinging the kickstand in & out of position. Mounts to the OE kickstand and includes all mounting hardware needed. Fits 07-'17' Softail models.

- 87-150** Solo chrome kickstand extension kit 07-'17' Softail models

F. KICKSTAND COASTER **NEW!**

This kickstand coaster prevents your bike from digging into soft surfaces such as hot asphalt, grass and dirt. The coaster spreads out the weight over a large area, and fully supports the bike's weight on soft surfaces. It fits all motorcycles equipped with a side stand.

- 87-207** Kickstand Coaster, OEM# 94647-98

HARD CHROME 41MM FORK TUBES & FORK TUBE ASSEMBLIES

1984 & LATER MODELS

1984 & Later 41mm fork tubes are all the same with the exception of total length. The maximum difference of any of the below listed fork tubes is 5/8". This difference will not matter when replacing fork tubes. In order to help ease the stocking of multiple fork length tubes, look at the chart, find your bike and then determine what fork tube you need for your particular application. If you require the exact length for your bike, please see our show chrome fork tube chart which are cut to exact lengths.

COMPARISON CHART

MODEL	YEAR	STOCK LENGTH
FLT	1984 / 1996	20-7/8"
FLT	1997 & Later	20-1/4"
FLSTC/N/F	1986 / 1999	22-7/8"
FLSTC/N/F	2000 & Later	22-1/4"
FXWG, FXST/C, FXDWG	1984 / 1999	24-1/2"
FXST/C, FXDWG	2000 & Later	24-1/4"

NOTE 1: Special Edition models may vary from this chart. In those cases, measure your fork tube.

NOTE 2: Some FLT models 2002 & later use cartridge damper on the left side. These fork tube assemblies below **WON'T WORK**.

HARD CHROME - SEAMLESS TUBING - CENTERLESS GROUND SOLD AS PAIR

FORK TUBES	LENGTH	FORK TUBE ASSY.*

D. CHROME PLATED FORK TUBE BOLTS AND STEM NUT

Our chrome plated fork tube bolts and stem nut offer a smooth contour design on top to enhance the appearance of your motorcycle.

- 27-162** Contoured stem nut. Fits XL and FX models with narrow glide forks, our Chrome Horse® billet triple trees, as well as most custom billet triple trees. Replaces OEM 45716-71. SOLD EACH
- 27-163** Contoured fork tube bolts. Fits Wide Glide® style forks late 1977 & later with non-vented fork stem nuts. Replaces OEM 45839-77. SOLD EACH
- 27-62** STEM NUT. COLONY (OEM 45716-71)

To protect the finish of your chrome triple tree we suggest using Colony chrome fork tube bolt washers.

- 41-103** Fork tube bolt washers for FL, FXWG, & Softail® 1978 & later. OEM 5710. SOLD AS PAIR

A

A. STEERING DAMPER KIT

These stabilizer kits cut down high speed wobble. For use on high performance racing applications. Seven adjustments on damper. Mounting hardware included. Satin finish aluminum body.

- 27-122** Fits FXSTC Softail® 41mm tubes. SOLD AS KIT
Bikes with fork tins cannot use this —tins interfere with mounting. Body length: 7-9/16".
Slide shaft & swivel joint: 14-3/4" long.

B. FORK GASKETS AND SEAL KITS

- 95-360** Fits H-D® 74" & 80" late 1977 & later SOLD AS KIT
(includes 6 pieces). OEM 45849-77.
- 95-177** Fits H-D® 74" 1949 thru early 1977 using Glide front end (includes 10 pieces). OEM 45849-49.
- 95-440** Fits FLT, FLHT, FXWG and FXST, 1984 & later (includes 8 pieces). OEM 45849-84.
- 95-438** Fits FX 1973 thru 1977 and Sportster® 1973 & 1974, with Kayaba 35mm forks (includes 8 pieces). OEM 45849-73.
- 95-439** Fits FX 1976 thru 1983 and Sportster® 1975 thru 1983, with Showa 35mm forks (includes 8 pieces). OEM 45849-75.
- 95-441** Fits FX, FXR and Sportster®, 1984 thru 1987, with Showa 35mm forks (includes 8 pieces). OEM 45849-84A.
- 95-442** Fits FXR, Dyna Glide® and Sportster®, 1987 & later, with Showa 39mm forks (includes 10 pieces). OEM 45849-87.

1-1/4" CHROME & BLACK SWEDGED HANDLEBARS

These swedged handlebars have a unique smooth taper transition from the 1-1/4" diameter to the 1" area for mounting the stock OEM style 1" handlebar controls or any 1" custom controls. Also this taper allows you to rotate the master cylinder to any position to clear the bars with any brake line. These bars are made with CNC bender for a smooth radius at each bend. Each handlebar comes with a fishing wire already installed for easy access of pulling your wire harness through the bars. Notched bar end for fly-by-wire applications. Can also be used w/standard throttle cable applications

- 35-68** Plain end cap grips for 2008-later FLT.

B. FLAME GRIP SET

Flame design grip set fit a 1" bar, 5" long. SOLD AS SET

- 35-127** Chrome billet aluminum with black rubber insert.
- 35-128** Same as #35-127, fits 2008-later FLT.

C. KNURLED GRIPS

These billet aluminum grips are available in three colors & fit 1" diameter bars.

- 35-112** Bronze grip set. SOLD AS PAIR
- 35-113** Black grip set. SOLD AS PAIR

D. CHROME HORSE GRIPS

Chrome Grips with wide bands for all 1" diameter handlebars. The throttle sleeve is set up for push/pull cable system.

- 35-96** Chrome Horse wide band grips. SOLD AS PAIR

E. GENUINE LEATHER GRIPS

Genuine black leather covers over foam comfort grips with bright chrome plated ends.

- 35-55** Leather grips for 1" handlebars. 5" long. SOLD AS PAIR

F. CHROME END SOFT GRIPS

Extra soft neoprene foam cover absorbs vibration. Chrome end caps.

- 35-44** Fits 1" handlebars. SOLD AS PAIR

G. DIAMOND STYLE HAND GRIPS

Die cast chrome plated grips with diamond rubber inserts.

- 35-73** Grips for 1" handlebars. 5" Long. SOLD AS PAIR
- 35-85** Same as part No. 35-73 above except with Eagle end cap.

See Sec. 2 for Rail foot pegs, shifter peg & "popsicle" kick pedal.
See this section for Rail brake pedal pad.

A. PEBBLE GRAIN GRIPS

This is a different type grip — not to be confused with a foam grip. This style has the same “cushy” feeling to knock out vibration but not the porosity found in the foam grip, resulting in a longer lasting grip that won’t absorb moisture or have dirt build-up. Bright chrome ends with black grip.

35-53 Grips for 1” bars, 5” long. SOLD AS PAIR

B. VINTAGE STYLE GRIPS

Black vintage style grip sets with chromed accent band.

35-108 Fits 96’ & up (OEM#56275-96) SOLD AS SET

35-109 Fits 82’ thru 95’ (OEM#56276-96)

35-4 Fits 08’ FLT

C. “BARREL” GRIPS

Die cast, chrome plated “barrel” style grips with Rail or Twist style rubber inserts. For 1” handlebars. Includes sleeve.

35-90 Rail style “barrel” grips. SOLD AS PAIR

35-91 Twist style “barrel” grips.

D. REPLACEMENT FOAM GRIP COVERS

Replacement foam covers for 1” handlebar grips. Super looking and extra soft to the feel for comfort. SOLD AS PAIR

35-40 Replacement foam covers

E. THROTTLE GRIPS WITH SLEEVE

Handlebar grip set with nylon dual cable throttle sleeve.

35-42 For all models 1981 thru 1995. Replaces OEM 56220-81B. SOLD AS SET

35-87 For all models 1996 & later. Replaces OEM 56206-96 & 56220-94A.

F. THROTTLE SLEEVES

Replacement throttle sleeves for H-D®. Single or dual cable styles.

35-1 Single cable. Fits 1973 thru 1980. SOLD EACH

35-2 Dual cable. Fits 1981 thru 1995.

35-3 Dual cable. Fits 1996 & later.

G. TORNADO II HAND GRIPS

The Tornado II grip sets are CNC machined from billet aluminum and are available in a beautiful chrome or black anodized finish. They also feature non-slip hard wearing black rubber for fail safe operation.

Fits 1” dia. handle bars, all HD models, twin cable throttle applications.

35-14 Chrome, Tornado II grip set. SOLD AS SET

HD 08”-up touring models with electronic throttle.

35-16 Chrome, Tornado II grip set. SOLD AS SET

35-17 Black anodized, Tornado II grip set.

A

A. STOCK H-D® STYLE GRIPS

Black grip, OEM 56205-62A, fits Big Twin & Sportster®, 1962 thru 1980.

- 35-47 Grip. SOLD AS PAIR
- 35-51 Grip plug fits hole in grip on 1960 thru 1983 Harleys®. OEM 56238-62. SOLD AS PAIR

B. ELECTRIC THROTTLE HEATED GRIPS FOR 1" HANDLEBARS

OE Style heated grips with innovative thumb switch design which enables riders to easily scroll through temperature levels without taking a hand off the handlebars. Features soft to the touch rubber comfortable for short or long rides. Fits HD® electronic throttle & fly by wire.

Specifications:

- Integrated temperature level thumb switch
- Universal fitment designed to fit most H-D® models
- 5 Temperature levels to choose from
- 5 color LED indicator to display temperature setting in use
- Low battery cut-off protection
- Internal memory allows the grip to stay at previous warmth level

- 35-56 Apollo-X heated hand grips, Black
- 35-57 Titan-X heated hand grips, Chrome.

C. IMPORTED THROTTLE ASSEMBLY & GRIPS

Assembly with chrome plated end comes with black rubber grips. Has anchor to hold throttle cable.

- 35-6 Assembly for 1" handlebar. SOLD AS SET

D. GRIPS FOR 1996 & LATER

Chrome plated with rubber inserts for super grip & comfort. Comes with throttle sleeve.

- 35-86 Fits 1" dia. handlebars 1996 & later. SOLD AS PAIR

E. THROTTLE ASSEMBLIES FOR SINGLE/DUAL CABLE

Single cable assemblies with adjuster knobs for 1973 thru 1980 H-D® models (OEM 56500-79).

- 35-36 Throttle assembly only. SOLD EACH

- 90-425 .687 — 11/16" BORE (OEM 45013-85) USES 12MM BANJO BOLTS

* A Little bit about bore size:

Large bore: Less line pressure, more squeeze to work caliper, less travel, giving a more solid feeling to the brake. Moves more fluid.

Small bore: Higher line pressure, less squeeze to work caliper. More travel on lever with small bore; moves less fluid.

Recommend: larger bore for dual disc, small bore for single disc, but ultimately it is your choice of feel.

MECHANICAL BRAKE CONTROL PARTS FOR H-D® 61", 74", & 80" TWINS 1936 THRU 1957

ALL PARTS CHROME PLATED EXCEPT 90-68. ALL PARTS SOLD EACH EXCEPT AS NOTED

TRANSMISSION
PICKUP

KOSO GAUGES W/ 2 COLOR CHANGEABLE LCD DISPLAY

Our R&D department worked very hard to create something new and modern for Harleys. The engineers came up with a complete plug & play solution to replace the stock meters. No need to drill holes or to rewire the meters, they will all fit directly on the OEM dash and connectors. Both silver and black bezel kits feature a 2 color changeable LCD display (red and blue) for a custom look. The 6 piece kit includes a 4" multifunction speedometer, 4" tachometer with gear position, 2" oil pressure meter, 2" fuel level meter, 2" volt meter, and the choice between a 2" oil temperature meter or a 2" ambient temperature meter.

- 57-150** Koso BA050901, Digital Gauge Cluster w/ Ambient Temp Meter, Silver Bezel for Harley Touring 2004-2013 (Fits: Harley Davidson FLHT, FLHX, FLTR from 2004-2013)
- 57-151** Koso BA050905, Digital Gauge Cluster w/ Oil Temp Meter, Silver Bezel for Harley Touring 2004-2013 (Fits: Harley Davidson FLHT, FLHX, FLTR from 2004-2013)

UNIVERSAL BRAKE LINE PROGRAM

Midwest offers a complete custom brake line program for the builder that wants to fabricate his own lines. **Midwest brake line meets D.O.T. specification FMVSS-106 — approved for street use — 50 state legal.**

High performance #3 stainless steel braided hose gives you the custom look you want with the performance feel you demand. Lines incorporate an inner liner and chrome plated or black female swivel fitting to be used with the listed reusable adapter fittings. All Midwest brake hoses are **clear covered** to keep braid from scratching finishes. Top quality hose and fittings are attractively packaged to make these parts fly off the shelf. And a budget price tops off the complete program! Available in stainless steel or black stainless.

BRAIDED STEEL BRAKE HOSE

Make your own custom brake hose for H-D® with these braided steel hose and hose ends. The stiffness of the liner, combined with the resistance of the stainless steel braided outer cover, dramatically reduces line expansion under pressure, resulting in firmer brake lever or pedal pressure.

48-372 Braided steel brake hose.

B. TAPER TOP ALLEN BRAKE LINE BANJO BOLTS

Polished banjo bolts are U.S.A. MADE.

SOLD EACH

- 90-264** Rear brake wheel cylinder, 1958 thru 1972. 3/8 x 24.

C. CHROME STEEL BRAKE LINE TEES

Chrome steel brake tees. Mounting hole size: 5/16".

- 90-627** Center hole inverted flare 3/8"-24 UNF and side tubes 3/8"-24 UNF. SOLD EACH
- 90-628** Center hole 1/8"-27 NPT, side tubes 3/8"-24 UNF.
- 90-629** Center hole and side tubes 1/8"-27 NPT.

D. REPLACEMENT CRUSH WASHERS

- 90-305** 10mm. SOLD AS PKG OF 6
- 90-345** 12mm. SOLD AS PKG OF 6

E. CUSTOM BRAKE LINE TEES

Chrome plated custom brake tees with groove design.

- 90-446** Front. Three inverted flare ends. Replaces OEM 44310-77 and 44311-80. SOLD EACH
- 90-447** Rear. Two side inverted flares and one 1/8" NPT in center. Replaces OEM 43308-78 and 42318-72.
- 90-448** Universal. Three 1/8" NPT ends.

F. HANDLEBAR MASTER CYLINDER FITTINGS

- 90-329** 90° Right angle inverted flare, male end 1/8 pipe thread. Fits 1971 thru 1981. OEM 43307-78. SOLD EACH
- 90-353** Straight. Inverted flare, male end 1/8 pipe thread. OEM 63609-72.

G. BRAKE LINE CLAMP

Clamp for all models with a 1/4 - 20 threaded hole in the bottom of fork stem.

- 90-805** Brake line clamp. SOLD EACH

H. BILLET FORK TUBE BRAKE HOSE CLAMP

Billet clamp snaps on 41mm fork tubes and holds hose in place for a clean look. Use one or two depending on fork length.

- 45-1** Brake hose clamp. SOLD EACH

A

A. STAINLESS STEEL CUSHIONED CLAMPS FOR HOSE OR CABLE

U.S.A. MADE loom clamps are made of stainless steel with a removable rubber cushion which protects the loom or cable. The mounting hole is 1-7/64" for 1/4" screws or bolts. A premium clamp. **SOLD EACH**

PART NO.	SIZE CLOSED I.D.	RECOMMENDED FOR MOUNTING LINES WITH FOLLOWING O.D.'S

Breathe New Life Into Your Tired Engine

Twin Cam® A Rebuild

Includes but is not limited to:

- ◆ All bearings replaced.
- ◆ Crankshaft rebuilt with new crank pin, connecting rods, rod bearings and rebalanced.
- ◆ Cam chest upgrade as described below.
- ◆ Cylinders Diamond Honed to appropriate size for new pistons and rings.
- ◆ Cylinder heads rebuilt using Ultima Beehive springs.
- ◆ Assembled with all new gaskets and seals.
- ◆ Engine is pre run under power to verify oil pressure and compression before shipping.
- ◆ Upgraded to hydraulic cam support plate & hydraulic cam tensioners
- ◆ Late style high volume oil pump
- ◆ Stock grind replacement camshafts (cams must be changed to hydraulic cam plate style)

Cam shaft upgrades are available at additional charge.

At the time of rebuild customer has the option of upgrading from 88 cid to 95 cid, 96 cid to 103 cid, etc.

ALL REBUILT MOTORS CARRY A 6 MONTH 6,000 MILE GUARANTEE ON PARTS & LABOR.

EVO Rebuild

All Ultima® motors will be upgraded to the latest production specifications including but not limited to:

- ◆ BeeHive valve springs.
- ◆ Ultima® High Output oil pump.
- ◆ Heavy duty Ultima® lifters.
- ◆ 4140 Adjustable steel pushrods.
- ◆ Mahle forged pistons when applicable.

Standard services performed :

- ◆ All bearings, bushings & hardware will be replaced as necessary.
- ◆ New pistons, gaskets & seals.
- ◆ 5 piece crankshaft assemblies will be rebuilt & trued as necessary.
- ◆ 3 Piece crankshaft assemblies will be rebuilt as needed or replaced at additional cost.
- ◆ Cylinders will be Diamond honed to the appropriate size for your new pistons & rings.
- ◆ Oil pumps will be rebuilt or replaced as necessary.

Not Just Engines...

- ◆ Crankshaft Rebuilds
- ◆ Cylinder Boring & Honing
- ◆ Engine Case Boring
- ◆ Cylinder Head Services

- 90-610 Rotor, 11.5" front, 84'- 99' & 00'-later (w/speedo notch)
- 90-613 Rotor, 11.5" rear, 84'- 99' & 00'-later
- 90-615 Rotor, 11.8" front, 08'- 13' Touring & 06'- 09' Dyna
- 90-619 Rotor, 11.8" Rear, 08'- 13' Touring & 06'- 09' Dyna

D. KING SPOKE BLACK ROTORS

- 90-635 Rotor, 11.5" front, 84'- 99' & 00'-later (w/speedo notch)
- 90-636 Rotor, 11.5" rear, 84'- 99' & 00'-later
- 90-637 Rotor, 11.8" front, 08'- 13' Touring & 06'- 09' Dyna
- 90-638 Rotor, 11.8" Rear, 08'- 13' Touring & 06'- 09' Dyna

E. REVOLVER ROTORS (POLISHED STAINLESS STEEL)

- 90-971 Rotor, 11.5" Front, 84'- 99' & 00'-later (w/speedo notch)
- 90-972 Rotor, 11.5" Rear, 84'- 99' & 00'-later
- 90-973 Rotor, 11.8" Front, 08'- 13' Touring & 06'- 09' Dyna
- 90-974 Rotor, 11.8" Rear, 08'- 13' Touring & 06'- 09' Dyna

F. VORTEX® ROTORS (POLISHED STAINLESS STEEL)

- 90-650 Rotor, 11.5" Right Rotate, 84'- 99' & 00'-later (w/speedo notch)
- 90-651 Rotor, 11.5" Left Rotate, 84'- 99' & 00'-later (w/speedo notch)
- 90-652 Rotor, 11.5" Rear, 84'- 99' & 00'-later
- 90-653 Rotor, 11.8" Right Rotate, 08'- 13' Touring & 06'- 09' Dyna
- 90-654 Rotor, 11.8" Left Rotate, 08'- 13' Touring & 06'- 09' Dyna
- 90-655 Rotor, 11.8" Rear, 08'- 13' Touring & 06'- 09' Dyna

G. KOOL KAT® ROTORS (POLISHED STAINLESS STEEL)

- 90-770 Rotor, 11.5" Front, 84'- 99' & 00'-later (w/speedo notch)
- 90-771 Rotor, 11.5" Rear, 84'- 99' & 00'-later
- 90-790 Rotor, 11.8" Front, 08'- 13' Touring & 06'- 09' Dyna
- 90-791 Rotor, 11.8" Rear, 08'- 13' Touring & 06'- 09' Dyna

H. MANHATTAN ROTORS (POLISHED STAINLESS STEEL)

- 90-950 Rotor, 11.5" Front, 84'- 99' & 00'-later (w/speedo notch)
- 90-951 Rotor, 11.5" Rear, 84'- 99' & 00'-later
- 90-952 Rotor, 11.8" Front, 08'- 13' Touring & 06'- 09' Dyna
- 90-953 Rotor, 11.8" Rear, 08'- 13' Touring & 06'- 09' Dyna

Rotors utilize reducer spacers to achieve multi-year applications.
Rotors have 2.220" center hole. Reducer spacer has 1.975" center hole.

KENDA TIRES

A. CATACLYSM

The Cataclysm tire's dual-compound technology provides higher mileage in the center and increased grip on the edges for optimal stability in cornering. The tread grooves were designed to more efficiently disburse water and minimize uneven wear. And the K6702's casing will handle the highest load-carrying capacity bikes on the market. With an H-speed rating (130 miles per hour or less), for long rides and heavy loads.

A. CHROME FRONT CALIPERS

Fits Big Twin & Sportster® 1984 thru 1999. Includes Brake Pads.

90-436 Right caliper assembly. OEM 44023-83C. **SOLD EACH**

90-437 Left caliper assembly. OEM 44046-84C.

B. CHROME REAR CALIPER

“Hayes Type” rear caliper for Big Twin 1987 thru 1994 (except FLT, FLHT & FLHS) and Sportster® all models 1987 thru 1999.

90-434 Caliper assembly. OEM 44050-87. **SOLD EACH**

NOTE: Brake pads must be purchased separately.

C. OVERSIZE CALIPER MOUNTING PIN REBUILD KIT

This **U.S.A. MADE** kit replaces stock mounting pin by boring caliper holes oversize, giving longer life to the caliper housing before replacement. Poly bagged with instructions.

90-301 **SOLD AS KIT**

D. FRONT CALIPERS 1984 THRU 1999

Chrome plated caliper assemblies include mounting hardware and brake pads. Replaces late style calipers.

90-566 Chrome dual front caliper kit. Fits all models with dual disc 1984 thru 1999, also 1983 XR1000. **SOLD AS KIT**

90-562 Chrome single front (left) caliper kit. Fits all single disc models 1984 thru 1999. OEM 44046-84C.

90-561 Chrome replacement (right) caliper only. OEM 44023-83C.

E. 2000 & LATER CALIPERS & BRACKETS

High quality, chrome, OEM replacement calipers and brackets for 2000 and later Harley Davidsons. All calipers come complete with brake pads. **SOLD EACH**

FRONT

90-836 Front right. Fits 04'-08' XL, OEM 44119-04.

REAR

90-839 Rear caliper bracket. Fits 06'-07' Softail®, OEM 42895-06.

90-842 Rear caliper bracket. Fits 08'-up Dyna®, OEM 42062-08.

90-844 Rear caliper. Fits 06'-07' Dyna®, OEM 44017-06.

90-846 Rear caliper & bracket. Fits 04' XL, OEM 40968-04.

90-848 Rear caliper & bracket. Fits 08'-up XL, OEM 40968-08.

G. CALIPER MOUNTING STUD KIT

U.S.A. MADE kit includes mounting stud, lock nut and washer, two brake pad pins (part No. **90-128**) and two steel caliper mount bracket bushings (part No. **90-129** & **90-130**).

90-127 Caliper mounting stud kit for FL, FLH, FLH-80 & Classic, 1973 thru 1983. Replaces OEM 44331-73. SOLD AS KIT

A. FRONT DUAL DISC CALIPERS

Brake caliper units for all H-D® models with dual disc front end 1977 thru 1983 (except FLT). Includes XLCR 1977 & 1978, XL 1979 thru 1983, FX 1977 thru 1983, and FXWG 1980 thru 1983.

90-369 Chrome plated left & right calipers. SOLD AS PAIR
Replaces OEM 44025-80 & 44026-80.

90-302 Front caliper bushings. Replaces dual front, lower leg caliper bushings. One kit needed per caliper. SOLD AS KIT
OEM 46019-77 and 46018-77.

90-346 Brake pad pin. OEM 44162-77. SOLD EACH

NOTE: Brake pads must be purchased separately.

B. MIDWEST REAR DISC BRAKE CALIPERS

Rear brake calipers for 4 speed Big Twins 1973 thru 1983. Caliper will work with boomerang type mounting bracket (OEM equipment thru 1980) or "Y" bracket used 1980 thru 1983. Contains everything needed to mount to either type mounting bracket, as well as bushings, pads, spring caliper support, rotor spacers, mounting pins and chrome plugs for unused mounting holes.

90-360 Chrome plated dual piston rear caliper. An internal crossover is used for brake fluid passage eliminating unsightly and troublesome external lines. This caliper increases stopping power, extends pad life and balances rotor wear. Seals are square section type, use our part No. **90-238** (2 required) for rebuilding.

C. BRAKE CALIPER ASSEMBLIES

A complete replacement brake caliper for FL 1973 thru 1980 rear, FL 1972 thru 1983 front, and FX 1973 thru 1980 rear. Replaces OEM 44001-78B. Fits the boomerang style mounting bracket part No. **90-231**.

90-281 Chrome brake caliper assembly. SOLD EACH

90-291 Black brake caliper assembly.

NOTE: Brake pads must be purchased separately.

D. REPLACEMENT BRAKE PADS FOR JAYBRAKE CALIPERS

90-570 EBC brake pads (2). Fits 2 and 4 piston Jaybrake calipers. SOLD AS SET

E. REAR BRAKE CALIPER ANCHOR ARM BOLT KIT

These stock replacement bolts, nuts, washers and cotter pins fit 1973 thru 1983 FL & FX.

83-11 Kit, chrome plated. SOLD AS KIT

F. REPAIR KIT FOR STRIPPED BRAKE CALIPERS

Until now a stripped brake caliper bleeder screw meant riders were faced with the very high cost of replacing an entire brake caliper assembly. With this unique American made precision machined two-piece repair kit, a fast, safe, inexpensive and reliable fix is now available for most calipers in use today.

90-234 SOLD EACH

A. CALIPER SEAL KITS

An essential kit which is not available from any OEM Harley® parts catalog. Each kit contains the necessary seal and dust boots.

- 90-212** For XL 1974 thru 1977 and FX 1974 thru 1977 front caliper single disc. OEM 44277-74 & 44278-74. SOLD AS KIT

5

A

A. BLEEDER SCREW

These Accel bleeder screws are precision machined and are a must if the original bleeders become rusted or their hex portion becomes rounded during service making it impossible to loosen or tighten properly.

90-280 Bleeder screws fit above cylinders, also all disc brake calipers on FL 1972 thru 1979 and XL 1973 thru 1977.

B

ULTIMA® BRAKE PADS

Ultima® Brake Pads are a line of high quality pads available in two different material compositions. The sintered material pads offer a high friction level with superior heat transfer for increased fade free stopping power. The kevlar pads offer a smooth responsive feel that is gentler for polished or chrome rotors.

Fits XL and FX models 1974-1977. Front single disc (comes w/rivets). OEM 44281-74.

90-10 Sintered brake pad set.

90-11 Kevlar brake pad set.

Fits FL rear 1972-1980, FX rear 1972-1983, FL front 1973-1984, and FX/XL front 1973. OEM 44005-78 & 44135-74.

90-12 Sintered brake pad set.

90-13 Kevlar brake pad set.

Fits XL, FX and FXR 1977-1983 front dual disc. OEM 44098-77.

90-14 Sintered brake pad set.

90-15 Kevlar brake pad set.

Fits XL rear 1977-1981 & FLT front 1980-1983. OEM 44099-77.

90-17 Sintered brake pad set.

90-18 Kevlar brake pad set.

Fits FL, FLT, FLHT 1980-1985 rear. OEM 43957-80.

90-20 Sintered brake pad set.

90-22 Kevlar brake pad set.

Fits all models 1984-1999 front w/either single or dual disc. All Springer models 1988-2007 front. OEM 44063-83.

90-23 Sintered brake pad set.

90-24 Kevlar brake pad set.

Fits all models 1982-1987 rear (except FLT/FLHT). OEM 44209-82.

90-25 Sintered brake pad set.

90-26 Kevlar brake pad set.

Fits all models 1987-1999 rear (except FLHS/FLT/FLHT).

OEM 44209-87A & 44213-87.

90-27 Sintered brake pad set.

90-28 Kevlar brake pad set.

ULTIMA® BRAKE PADS

- 90-48** Kevlar brake pad set.

Fits Softail® & Dyna® 2018-up rear.

- 90-49** Sintered brake pad set.
- 90-52** Kevlar brake pad set.

EBC BRAKE PADS FOR H-D®

EBC brake pads contain Aramid fibers, these are man-made high performance fibers, used widely for their light weight, high strength, abrasion resistance and thermal stability. They are used as reinforcements in ballistic protection (bullet-proof helmets and vests, vehicle armor), cut-resistant gloves, aircraft and marine structural parts, power transmission belts and of course friction products where their high strength to weight, thermal stability and abrasion resistance provide advantages over cheaper steel fiber based products.

DISC BRAKE PAD QUICK REFERENCE — CUSTOM CALIPERS

ALL MEASUREMENTS GIVEN IN MILLIMETERS DISC BRAKE PADS SOLD AS PAIR

Fits Performance Machine caliper #0056-1600 (2 piston).

A. Dimensions: 57.8mm x 65.3mm x 11mm.

90-712 EBC brake pads.

SOLD AS PAIR

Fits GMA caliper Model B (small, 2 piston) and JayBrake (large, 2 piston). Dimensions: 49mm x 59mm x 6mm.

B. Dimensions: 49mm x 59mm x 6mm.

90-716 EBC brake pads.

SOLD AS PAIR

Fits RevTech/Wilwood caliper #59-110 and Brembo (single pin, 4 piston). Dimensions: 69.2mm x 47mm x 8.2mm.

C. Dimensions: 69.2mm x 47mm x 8.2mm.

90-720 EBC brake pads.

SOLD AS PAIR

Fits GMA caliper Model A (large, 2 piston). Dimensions: 57.6mm x 52.8mm x 9mm.

D. Dimensions: 57.6mm x 52.8mm x 9mm.

90-713 EBC brake pads.

SOLD AS PAIR

Fits Chrome Horse® (2 or 4 piston), GMA caliper Model F (4 piston), JayBrake (small, 2 piston), Performance Machine #0052-1601 (small, 2 or 4 piston), and Iron Pegasus (small). Dimensions: 36mm x 45mm x 6mm.

E. Dimensions: 36mm x 45mm x 6mm.

90-570 EBC brake pads.

SOLD AS PAIR

F. **90-706** EBC brake pads for Thunderheart and Chrome Horse® II. Dimensions: 68.4mm x 48.8mm x 8.3mm.

SOLD AS PAIR

90-707 EBC brake pads for Performance Machine (race oversize) and EBC (4 piston). Dimensions: 69.4mm x 48.8mm x 10.5mm.

90-708 EBC brake pads for Performance Machine (street, 4 piston) and Nova/Legends. Dimensions: 69.4mm x 48.8mm x 7.8mm.

G. Fits Performance Machine #0053-1604 & Buell front 94'-97'.

90-705 Brake pads.

SOLD AS PAIR

AXLE & HARDWARE KITS SOLD AS KIT, AXLES SOLD EACH AND HARDWARE SOLD AS SET

SPACER & NUT KITS

FRONT AXLE

- A.** Includes chrome plated axle nut, machined washer, lock-washer and spacer (OEM 40910-84A/B). **SOLD AS KIT**
32-248 Kit fits Softail® FXST, FXSTC & FXDB 1984 thru 1996, Dynas®, FXWG 1984 thru 1994 and all FLT 1984 & later except FLHR & FLHRCI.
41-113 Kit fits FXST 2000 & later.
- B.** Includes chrome plated nylon insert locknut, machined washer, and spacer (OEM 40910-84A). **SOLD AS KIT**
32-247 Kit fits FXSTS 1988 thru 1996.
- C.** Includes chrome plated axle nut, machined washer, lock-washer and spacers (OEM 43657-89 & 43674-95). **SOLD AS KIT**
32-249 Kit fits FLSTF 1996 thru 1999.

REAR AXLE

- D.** Includes chrome plated slotted nut and spacers.
32-245 Kit fits Softail® 1984 thru 1999. Includes spacers to replace OEM 47577-86, 47577-94 & 41591-90. Grooved.

E. FRONT AXLE NUT & WASHER KIT

Chrome plated machined steel washer, hex nut & stainless steel lock-washer.

- 32-190** Fits FX & Sportster®, 1973 & later. **SOLD AS KIT**
32-170 Fits Wide Glide® 1972 & later.

F. FRONT AXLE CAP KIT

Chrome plated die cast axle cap kit. Fits FL 1973 thru 1984, FLT, FLHT, FLHS, 1980 thru 1999, Softail® models (except FXSTS) 1984 & later, FXWG 1980 thru 1986, Dyna Glide® 1991 & later, and Sportster® and FXR, 1987 & later. **SOLD AS KIT**

- 32-230** Axle cap kit. Small o.d. 1.18". Replaces OEM 43899-86. Also fits Twin Cam 88® "B" front motor mount bolts.

G. REAR AXLE NUT & LOCK KIT

Quality reproduction rear axle kit made to original H-D® specifications. Contains one each of the following: sleeve nut, sleeve collar, axle nut and axle nut lockwasher. **SOLD AS KIT**

- 32-119** Fits Big Twins 1930 thru 1972.

H. CENTER WHEEL SPACERS

Center wheel spacers for use with Ultima® King Spoke, Kool Kat®, Manhattan, solid billet & billet hub spoke wheels. Can also be cut to size for custom applications.

- 33-300** Spacer, wheel center, 1" x 4.846"
 Fits all front wheels & 3.5" rear wheels.
- 33-301** Spacer, wheel center, 1" x 5.906"
 Fits all 5.5" rear wheels.
- 33-302** Spacer, wheel center, 1" x 7.134"
 Fits all 8.5" rear wheels.
- 33-303** Spacer, wheel center, 1" x 9.134"
 Fits all 10.5" rear wheels.
- 33-304** Spacer, wheel center, 3/4" x 4.846"
 Fits all front wheels & 3.5" rear wheels.
- 33-305** Spacer, wheel center, 3/4" x 5.906"
 Fits all 5.5" rear wheels.

ULTIMA® COMPETITION SERIES ENGINES FOR TWIN CAM® REPLACEMENT

BLACK

TWIN CAM® REPLACEMENT

6

Ultima® is now offering a complete competition series hydraulic chain tensioner engine for Twin Cam®. Our 113" Twin Cam is a direct bolt in engine for 99-06 "A" motor Twin Cam bikes.

Just like Ultima's® EVO® style engines this engine features high quality components at an affordable price. These cases utilize Timken sprocket shaft bearings. The crankshaft assembly is the same crank assemblies Ultima® has been building for years. Dynamically balanced and featuring forged H-beam rods makes for a rock solid foundation for these engines. Pistons are forged aluminum from Mahle Motorsports®. The heads feature conical valve springs, chromoly retainers, manganese bronze guides, compression releases and stainless steel valves.

Valve train components include an Andrews® 67H set of cams. Ultima's® 4140 steel adjustable pushrods and topped off with 4140 forged steel roller rockers. The cam chest components include a billet oil pump, billet cam support plate with late model hydraulic chain tensioners for peace of mind. Choices of finish include black, polished or silver. With plenty of power these engines make a great replacement for a tired stock motor or a custom build.

*NON EPA COMPLIANT

124 C.I. Twin Cam 6 MONTH WARRANTY

- 298-470 Ultima 124" Polished competition series engine for Twin Cam® replacement.

SILVER

Our 100" Twin Cam is a direct bolt in engine for 99-06 "A" motor Twin Cam bikes.

Ultima is now offering our Twin Cam 99-06 "A" engines in 100 C.I. Just like our 100" Evo engine this is a great replacement for worn out stock engines. These are built using a milder camshaft and lower compression than our 113" twin cam. These engines offer easier starting, extremely smooth cruising but still make great power. They come in black, silver, blackout and polished finishes. All 100 C.I. Twin Cam engines come with a 2 YEAR WARRANTY!

100 C.I. Twin Cam 2 YEAR WARRANTY

- 9.5:1 compression 100 HP*

CASES

Ultima® cases for Twin Cam utilize Timken® sprocket shaft bearings, late model cam and pinion bearings. Counterbored stainless allen head case bolts. Made from prime A360-T6 aluminum for excellent tappet bore wear resistance.

CRANKSHAFT

Our crankshaft incorporates a massive 1.670 diameter pin that is pressed into the one piece, heat treated, 4140 steel flywheel half. Crank pins are installed with .008" press fit. These crankshafts feature light weight 7.67" long H-Beam rods with 0.927 diameter wrist pins. These are also balanced using our exclusive methods making these some of the smoothest engines in the industry.

ULTIMA® COMPLETE COMPETITION SERIES ENGINES FOR EVOLUTION® REPLACEMENT

100 C.I. W/ Mild CAM & 2 YEAR WARRANTY

6

Ultima® has made a change to our line of competition series 100" motors. If you are in the need of a new motor and you don't need a monster, we have what you are looking for. Our 100" motors are a great replacement for a tired stock motor but still have great performance. We went with a milder cam and lowered the compression. They start very easy making for less wear on your starter and battery. The milder cam makes for an extremely quiet motor. Here is the biggest feature: They will come with a **2 YEAR WARRANTY.**

100 C.I.*

ULTIMA® COMPLETE COMPETITION SERIES ENGINES FOR EVOLUTION® REPLACEMENT

Emphasizing longevity, Ultima® El Bruto engines combine high quality components with affordable prices giving you the best value available. Our proven combinations deliver more horsepower and due to our exclusive balancing methods, we feel they are the smoothest engines on the market today. All castings are made from C356 aluminum. The engine components are machined on state of the art CNC equipment for guaranteed dimensional accuracy and repeatability. Our customers agree these engines are the best value anywhere.

Diamond Cut® Ultima® motors are ready to add that extra shine to your motorcycle. In the past, consumers looking for a Diamond Cut® motor from Ultima® either had to buy an unassembled Ultima® motor or dis-assemble their complete motor before sending the parts to be Diamond Cut® & then re-assembling. Not anymore!!!! Now you can get a Diamond Cut® factory assembled Ultima® engine for very little additional cost. These Diamond Cut® engines are available in black, natural, polished and **now in the "Blackout" finish** in displacements ranging from 100ci to 140 ci. We have proven that performance should not cost a lot so why should it be any different when choosing your finish?

ULTIMA® POWER PACKAGES

92-405

100"-107" EVO POWER PACKAGE

Convert and freshen up your older existing Ultima® 100" to a 107" with this simple bolt on kit.

- 92-403 Natural, 107" Ultima® EVO power package
- 92-404 Black, 107" Ultima® EVO power package
- 92-405 Polished, 107" Ultima® EVO power package

NOTE: Power packages include parts shown. Head and base gaskets included but not shown. Must order supporting parts separately.

SUPPORTING PARTS

ROCKER BOX GASKETS

- 77-109 Ultima® solid top rocker box
- 77-111 Ultima® cast top rocker box w/hole in center
- 77-443 Zodiac (hole in center) rocker box
- 77-414 84'-91' EVO (3 piece rocker box)
- 77-413 91'-99' EVO (3 piece rocker box)

ULTIMA® POWER PACKAGES

TWIN CAM®-A MOTOR PERFORMANCE HEAD KIT

Ultima®'s Twin Cam® performance head kits offer easy bolt on power. Ultima®'s high flow heads offer increased horsepower and torque just by replacing your stock Twin Cam® heads and rocker boxes.

- 92-412 Black, Twin Cam® performance head kit
- 92-413 Silver, Twin Cam® performance head kit

NOTE: Power packages include parts shown. Must order supporting parts separately.

SUPPORTING PARTS

- 77-475 Head gasket, .035, recommended thickness
- 77-476 Head gasket, .046
- 77-477 Head gasket, .054

92-413

100" TWIN CAM®-A MOTOR POWER PACKAGE

Ultima®'s 100 C.I. Twin Cam® power package turns your stock 88 cubic inch motor into a 100 C.I. stroker. The kit combines Ultima®'s high flow head with a 4.25" stroker crank. New cylinders are available as an add-on or you can bore your stock 96" cylinders to accommodate the 3.875" bore pistons.

- 92-414 Black, 100" Ultima® Twin Cam® power package
- 92-415 Silver, 100" Ultima® Twin Cam® power package

NOTE: Power packages include parts shown. Must order supporting or add-on parts separately.

ADD-ONS

- 93-878 Front 3.875" Twin Cam® black cylinder
- 93-879 Rear 3.875" Twin Cam® black cylinder
- 93-876 Front 3.875" Twin Cam® silver cylinder
- 93-877 Rear 3.875" Twin Cam® silver cylinder
- 114-206 Chain drive cam, Softails®

92-414

113" TWIN CAM®-A MOTOR POWER PACKAGE

Ultima®'s 113 C.I. Twin Cam® power package turns your stock motor into a 113 C.I. monster. Everything is included in the kit except the cam that suits your particular motor. Case machining will be required to fit the 4" bore cylinders.

- 92-416 Black, 113" Ultima® Twin Cam® power package
- 92-417 Silver, 113" Ultima® Twin Cam® power package

NOTE: Power packages include parts shown. Must order supporting or add-on parts separately.

NOTE: FUEL INJECTED MODELS WILL NEED A FUEL INJECTION TUNER WITH ALL OF THESE KITS.

92-416

ULTIMA® COMPLETE UNASSEMBLED GEN II FATSO™ SHORT BLOCKS

Ultima® Gen II Fatso™ case kit: Natural or black finish. Includes cam chest small parts, Timken bearing, sprocket shaft spacer & sprocket shaft seal. *NOT EPA COMPLIANT

Gen II Fatso™ Short Block

- 4.25 stroke 8.25 diameter 3 piece crankshaft
- requires MWM#98-570 pinion gear conversion kit.
- Accepts Twin Cam® pistons with minor modifications - Piston skirts must be notched for bottom dead center.
- Accepts Twin Cam® cylinders with minor modifications - Cylinders must have .060 chamfer on base gasket surface added between cylinders.
- Accepts Twin Cam® cylinder heads with modifications - Intake push rod tube locations must be relocated to Evolution V-twin positions and angle.
- Must use .250 offset lifter blocks, MWM #91-697 - corrects lower end of push rod tube angle
- Use 92'/later cam cover for head breather

RECOMMENDED PARTS

(ORDER SEPERATELY)

- 98-517** 92'-Later HO polished oil pump
- 98-520** 92'-Later HO black oil pump
- 98-359** Oil pump drive gear
- 98-358** Oil pump driven gear
- 88-53** 84'/90' cam cover for bottom breather (chrome)

12 MONTH MATERIAL & WORKMANSHIP
WARRANTY FORM DATE OF PURCHASE.
*NOT EPA COMPLIANT

ULTIMA'S® ENGINE REBUILD PROGRAM

MIDWEST MOTORCYCLE SUPPLY'S ENGINE REBUILD PROGRAM IS AN INCREDIBLE VALUE!

Breathe new life into your tired V-Twin. Ultima® Motorworks/Midwest is offering their motor rebuilding service to Midwest dealers Worldwide. By offering this service, your customer gets a quality rebuild complete with a 6 month, 6,000 mile warranty. But Wait!!! This rebuild service also includes S&S® & Harley-Davidson® Evo V-Twins as well! Now you have another option to get that motor rebuilt correctly & at an unbeatable price. Arranging the rebuild is a simple process of having the authorized dealer remove your motor & pack it in a manner so that it will not be damaged in transit whereupon they will contact their Midwest Sales Rep to arrange an agreed upon pick-up date. Once received by the trained staff at Ultima®, your engine will be inspected for any obvious cosmetic flaws or damage. Once the engine has been checked in, the dealer will then be contacted before dis-assembly of the motor begins. Your motor will then be completely disassembled, cleaned & thoroughly inspected. This service is offered to all Ultima® motors 80" thru 140" & select Big Twin Evolution style engines.

6

All Ultima® motors will be upgraded to the latest production specifications including but not limited to:

- BeeHive valve springs.
- Ultima® High Output oil pump.
- Heavy duty Ultima® lifters.
- 4140 Adjustable steel pushrods.
- Mahle forged pistons when applicable.

***NOTE:** ENGINES THAT ARE CATASTROPHICALLY DAMAGED OR HAVE OBVIOUS FAULTY COMPONENTS WILL NOT BE ELIGIBLE FOR A STANDARD ENGINE REBUILD. ADDITIONAL COSTS WILL BE DETERMINED BY ULTIMA® & APPROVED BY THE CUSTOMER BEFORE ANY WORK WILL BE PERFORMED.
THIS OFFER IS FOR COMPLETE MOTOR REBUILDS ONLY.

Standard services performed :

- All bearings, bushings & hardware will be replaced as necessary.
- New pistons, gaskets & seals.
- 5 piece crankshaft assemblies will be rebuilt & trued as necessary.
- 3 Piece crankshaft assemblies will be rebuilt as needed or replaced at additional cost.
- Cylinders will be Diamond honed to the appropriate size for your new pistons & rings.
- Oil pumps will be rebuilt or replaced as necessary.

ALL REBUILT MOTORS CARRY A 6 MONTH 6,000 MILE GUARANTEE ON PARTS & LABOR.

For 1999 to 2005 Twin Cam A engines, original equipment in FL touring bikes and the Dyna line.

By offering this service, your customer gets a quality rebuild complete with a 6 month, 6,000 mile warranty.

But Wait!!! This rebuild also includes upgrading to hydraulic cam tensioners, eliminating the troublesome spring tensioners and rear cam bearing failures!

6

The standard Ultima® Twin Cam® rebuild includes but is not limited to:

- ◆ All bearings replaced.
- ◆ Crankshaft rebuilt with new crank pin, connecting rods, rod bearings and rebalanced.
- ◆ Cam chest upgrade as described below.
- ◆ Cylinders Diamond Honed to appropriate size for new pistons and rings.
- ◆ Cylinder heads rebuilt using Ultima Beehive springs.
- ◆ Assembled with all new gaskets and seals.
- ◆ Engine is pre run under power to verify oil pressure and compression before shipping.
- ◆ Upgraded to hydraulic cam support plate & hydraulic cam tensioners
- ◆ Late style high volume oil pump
- ◆ Stock grind replacement camshafts (cams must be changed to hydraulic cam plate style)
- ◆ Rebuilt TC engines carry a 6 month 6000 mile warranty on parts and labor

Cam shaft upgrades are available at additional charge. At the time of rebuild customer has the option of upgrading from 88 cid to 95 cid, 96 cid to 103 cid, etc.

Arranging the rebuild is a simple process of removing your customer's engine and packing it in a manner so that it will not be damaged in transit whereupon they will contact Ultima® to arrange an agreed upon pick-up date. Once received by the trained staff at Ultima your engine will be inspected for any obvious cosmetic flaws or damage. Once the engine has been checked in, the dealer will then be contacted before dis-assembly of the engine begins. Your motor will then be completely disassembled, cleaned & thoroughly inspected.

ULTIMA® ENGINE GASKETS

A. INDIVIDUAL GASKETS & SEALS FOR ULTIMA® ENGINES

PART#	QTY. NEEDED PER MOTOR	DESCRIPTION
77-111	1	Rocker box gasket kit, Ultima® die cast rocker box with center hole
6 77-109	1	Rocker box gasket kit, Ultima® die cast rocker box (no hole)
77-443	1	Rocker box gasket kit, old style w/hole in middle
78-700	1	Shovelhead rocker box
95-133	2	Intake manifold to head seals
42-302	1	Carb to manifold spigot seal, 42mm
42-303	1	Carb to manifold spigot seal, 45mm
42-305	1	Carb to manifold spigot seal, 48mm
91-770	4	Valve stem seals, EVO
91-779	4	Valve stem seals, Shovelhead
78-683	2	Head gasket, 130/140 C.I., Front or Rear
78-680	2	Head gasket, 120/127 C.I., Front or Rear, .054
78-678	2	Head gasket, 100/107/113 C.I., Front or Rear, .035
78-686	1	Head gasket, 120/127 C.I., Front or Rear, .035
78-685	1	Head gasket, 100/107/113 C.I., Front or Rear, .054
78-703	1	Head gasket, 96 C.I. Shovelhead, Front or Rear
78-681	1	Base gasket, 130/140 C.I., Front, MLS
78-682	1	Base gasket, 130/140 C.I., Rear, MLS
78-712	1	Base gasket, 120/127 C.I., Front, MLS
78-713	1	Base gasket, 120/127 C.I., Rear, MLS
78-710	1	Base gasket, 100/107/113 C.I., Front, Paper
78-711	1	Base gasket, 100/107/113 C.I., Rear, Paper
78-702	1	Base gasket, 96 C.I. Shovelhead, Front or Rear
78-673	4	Pushrod tube, middle o-ring
78-674	4	Pushrod tube, bottom o-ring
78-675	4	Pushrod tube, upper o-ring
77-712	1	Rear tappet guide gasket
77-713	1	Front tappet guide gasket
77-715	1	Ultima® Cam Cover gasket standard
95-777	1	Camshaft seal / Package of 5
95-777A	1	Camshaft seal / Each
98-625	1	Ultima® H.O. oil pump gasket, base
98-627	1	Ultima® H.O. oil pump gasket, cover
95-805	1	Crankshaft main seal

B. GASKET KITS FOR ULTIMA® ENGINES

- 77-436 Engine gasket kit for 80 C.I. Ultima® engines.
- 77-438 Head & base gasket kit for 96 C.I. Ultima® engines.
- 77-439 Engine gasket kit for 96 C.I. Ultima® engines.
- 77-440 Engine gasket kit for Ultima® engines 100 C.I., 107 C.I. & 113 C.I.
- 77-441 Head & base gasket kit for Ultima® engines 100 C.I., 107 C.I. & 113 C.I.
- 77-442 Engine gasket kit for Ultima® engines 120 C.I. & 127 C.I.
- 77-444 Head & base gasket kit for Ultima® engines 120 C.I. & 127 C.I. .035
- 77-470 Engine gasket kit for Ultima® engines 130 C.I. & 140 C.I.
- 77-471 Head & base gasket kit for Ultima® engines 130 C.I. & 140 C.I.
- 77-110 Head gasket kit for Ultima® engines 130 C.I. & 140 C.I.
- 77-445 Complete gasket kit for Ultima® Shovelhead engines 96 C.I.

ULTIMA® GASKET SERIES FOR HD® ENGINES

Go to end of section 6 for Ultima® & Cometic® Gaskets for HD® Engines

C. ULTIMA® MOTOR BOX

- 97-315 Replacement Ultima® carboard motor box. No stand or foam included.

ULTIMA® ENGINE CASES

These case kits include: main bearings, cam bearing, installed chromoly cylinder studs, main seal, main seal spacer, chrome timing hole plug, case counterbores for socket head bolts, stainless socket head casebolts, alignment dowels for true line bore, top end feed screen with spring and the oil pressure gauge. These cases are cast from prime C356-T6 aluminum and are a professional engine builder's choice for your next high performance engine.

- All 5 PC fly wheel designs have their pinion race sized to 1.751" and utilize the 'white' pinion bearing.

206-21

SHOVELHEAD 70'-84'

Large bore breather for increased crank case vacuum and less blow by.

5 PC FLYWHEEL DESIGN

- 206-25 Stock bore case, Natural finish. 74 C.I. and 80 C.I. Uses 1984-1991 EVO oil pump.
- 206-29 Stock bore case, Black finish. 74 C.I. and 80 C.I. Uses 1984-1991 EVO oil pump.
- 206-30 Stock bore case, Polish finish. 74 C.I. and 80 C.I. Uses 1984-1991 EVO oil pump.
- 206-21 3.625" bore case, Natural finish. 96" big bore case uses 1992 & later oil pump.
- 206-22 3.625" bore case, Black finish. 96" big bore case uses 1992 & later oil pump.
- 206-23 3.625" bore case, Polish finish. 96" big bore case uses 1992 & later oil pump.

3 PC FLYWHEEL DESIGN

- 206-26 1992 & Later oil pump, 3.625" bore, Ultima® 96 C.I., Natural finish
- 206-27 1992 & Later oil pump, 3.625" bore, Ultima® 96 C.I., Black finish
- 206-28 1992 & Later oil pump, 3.625" bore, Ultima® 96 C.I., Polish finish

206-45

EVOLUTION STYLE 84'-99'

Machined for both bottom, case, and top, cylinder head, breathing systems.

5 PC FLYWHEEL DESIGN

- 206-54 1984 Thru 1991, 3.500" bore Natural finish.
- 206-55 1984 Thru 1991, 3.500" bore Black finish.
- 206-52 1984 Thru 1991, 3.625" bore Natural finish case kit.
- 206-53 1984 Thru 1991, 3.625" bore Black finish.
- 206-56 1992 & Later, 3.500" bore Natural finish.
- 206-57 1992 & Later, 3.500" bore Black finish.
- 206-50 1992 & Later, 3.625" bore Natural finish.
- 206-51 1992 & Later, 3.625" bore Black finish.
- 206-40 Fatso™ Gen I case, Twin Cam® top Evo lower, Natural finish.
- 206-41 Fatso™ Gen I case, Twin Cam® top Evo lower, Black finish.
- 206-42 1992 & Later 3.875" & 4.000" bores, S&S® bolt pattern, Natural.
- 206-43 1992 & Later 3.875" & 4.000" bores, S&S® bolt pattern, Black.
- 206-72 1992 & Later 3.875" & 4.000" bores, S&S® bolt pattern, Polished.

3 PC FLYWHEEL DESIGN

- 206-70 1992 & Later 3.875" & 4.000" bores, Ultima® 100/107/113 C.I., Natural finish.
- 206-71 1992 & Later 3.875" & 4.000" bores, Ultima® 100/107/113 C.I., Black finish.
- 206-73 1992 & Later 3.875" & 4.000" bores, Ultima® 100/107/113 C.I., Polished finish.
- 206-48 1992 & Later 4.250" bore, Ultima® 120 & 127 C.I., Natural finish.
- 206-49 1992 & Later 4.250" bore, Ultima® 120 & 127 C.I., Black finish.
- 206-78 1992 & Later 4.250" bore, Ultima® 120 & 127 C.I., Polished finish.
- 206-44 1992 & Later 4.400" bore, Ultima® 140 C.I., Natural finish.
- 206-45 1992 & Later 4.400" bore, Ultima® 140 C.I., Black finish.
- 206-74 1992 & Later 4.400" bore, Ultima® 140 C.I., Polished finish.

ULTIMA® ENGINE CASES

These case kits include: main bearings, full compliment cam bearings, installed chromoly cylinder studs, main seal, chrome timing hole plug, case counterbores for socket head bolts, stainless socket head case bolts and alignment dowels for true line bore. These cases are cast from prime A360-T6 aluminium for excellent tappet bore wear resistance.

TWIN CAM A 99'-06'

Equipped with the Timken® sprocket shaft bearing (OEM 9028) and late model pinion bearing (OEM 24605-07).

SMALL CAM BEARING, (OEM #9198 BEARING)

- 206-103 Ultima® standard bore, 4.065 spigot, Black finish (stock replacement)
- 206-104 Ultima® standard bore, 4.065 spigot, Silver finish (stock replacement)

LARGE CAM BEARING, (OEM #9215 BEARING)

- 206-105 Ultima® standard bore, 4.065 spigot, Polish finish (Ultima® 100 C.I.)
- 206-106 Ultima® standard bore, 4.065 spigot, Black finish (Ultima® 100 C.I.)
- 206-107 Ultima® standard bore, 4.065 spigot, Silver finish (Ultima® 100 C.I.)
- 206-100 Ultima® 4.000 bore, 4.255 spigot, Black finish (Ultima® 113 C.I.)
- 206-101 Ultima® 4.000 bore, 4.255 spigot, Polish finish (Ultima® 113 C.I.)
- 206-102 Ultima® 4.000 bore, 4.255 spigot, Silver finish (Ultima® 113 C.I.)
- 206-108 Ultima® 4.125 bore, 4.320 spigot, Black finish (Ultima® 124 C.I.)
- 206-109 Ultima® 4.125 bore, 4.320 spigot, Polish finish (Ultima® 124 C.I.)
- 206-110 Ultima® 4.125 bore, 4.320 spigot, Silver finish (Ultima® 124 C.I.)

206-100

Case design change, summer 2013.
Replacement parts for previous models found in Engine Big Book (located after sec. 6 in catalog) based on case code.

ULTIMA® 5-PIECE CRANKSHAFTS

Tired of shaking your teeth out on a 100-mile ride? Replace your old crankshaft with an Ultima® dynamic balanced crankshaft. Lightweight racing connecting rods and our exclusive balancing system makes these an exceptional value. This is the core of your engine and can make or break your ride quality. These crankshafts are 8.500" diameter and utilize cage roller style pinion bearings & 7.440" H-Beam rods. Both replacement and high performance match balanced piston kits are available in standard and oversizes for 80", 89", 96", 100", 107" & 113" engines. Using 0.792 pins.

- 98-550** 4.625" stroke, 1984 thru 1999 model Evolution style stroker engines. The standard length pinion shaft fits most 89", 96", and 106" engines. See **NOTE 1** below.
- 98-552** 4.250" stroke, 1984 thru 1999 model Evolution style engines & will replace shaker cranks on most 88" & 97" engines. Standard length pinion shaft. See **NOTE 1** below.
- 98-553** 4.500" stroke, 1984 thru 1999 model Evolution style engines with the 1/4" longer pinion shaft. Great replacement for S&S® 113" cranks.
- 98-554** 4.250" stroke, incorporates the 1/4" longer pinion shaft. Great replacement for S&S® 107" cranks.
- 98-524** 4.625" stroke, Shovelhead, used in our Ultima® 96" Shovelhead motor. Has a standard length pinion shaft and features heavy counter weights to allow for balancing for a wide variety of piston weights.

Note 1: This shaft has a long bushing end allowing it to be used on 1990 & later model engines with the stronger 1984 thru 1999 style pinion shaft gear components. You must order Midwest part No. **98-570** pinion conversion package if using on 1990 & later engines.

ULTIMA® 3-PIECE CRANKSHAFTS

Made exclusively for Ultima® big bore engines. These dynamically balanced crankshafts use lightweight racing H-Beam connecting rods making them an exceptional value. This is the core of your engine and can make or break your ride quality. These crankshafts have a 8.250" dia. counterweight. Replacement OEM piston kits are available for service sizes & do not require rebalance.

Rods are 7.700" with 0.927" pins.

- 98-559** 4.000 stroke.
- 98-555** 4.250 stroke, used in our Ultima® 120".
- 98-522** 4.375 stroke, used in our Ultima® 124".
- 98-556** 4.500 stroke, used in our Ultima® 127".
- 98-599** 4.625 stroke, used to make a 131".

Rods are 8.000" with 0.927" pins.

- 98-579** 4.250 stroke, used in our Ultima® 130".
- 98-557** 4.625 stroke, used in our Ultima® 140".

Rods are 7.440" with 0.927" pins.

- 98-631** 4.250 stroke used in our Ultima® 100/107".
- 98-521** 4.500 stroke used in our Ultima® 113".
- 98-567** 4.625 stroke, used to make a 117".
- 98-576** 4.625 stroke used in our Ultima® Shovelhead.

98-557

Custom balancing available. Contact your sales rep for details.

ULTIMA® TWIN CAM® CRANKSHAFT ASSEMBLY UPGRADES FOR PRE-2006 & 2007 AND LATER “A” MODEL ENGINES.

These crankshafts are dynamically balanced and feature 7.670” H-beam connecting rods. These rods DO NOT have tapered wrist pin ends. --- Our sprocket shaft was independently lab tested at 40% stronger than a stock crankshaft-- Custom balancing can be done upon request.

6

10 Spline Shaft for 2006 and Earlier

- 98-597 4.00 stroke (stock)
- 98-596 4.25 stroke, Ultima® 100 C.I.
- 98-568 4.375 stroke
- 98-558 4.50 stroke, Ultima® 113 C.I.
- 98-569 4.625 stroke, Ultima® 124 C.I., 120 H-D¹
- 98-635 No stroke, Pinion/Sprocket Halves²

24 Spline Shaft for 2007 and Later

- 98-690 4.00 stroke
- 98-691 4.250 stroke
- 98-692 4.375 stroke (stock)
- 98-693 4.50 stroke
- 98-694 4.625 stroke
- 98-656 No stroke, Pinion/Sprocket Halves²

NOTE 1: Must use SE 7.575 rod set or stock rod length & +0.100” cylinders

NOTE 2: No stroke hole machined wheel sets - customer must also finish the pinion side oil feed hole

ULTIMA® COMPLETE CYLINDER HEADS FOR 3.875", 4.000" & 4.250" BORE ENGINES

COMPLETE HEAD SETS

These cylinder heads offer builders great value and excellent performance. If you're trying to improve the performance of an older engine these heads will provide a great place to start.

Our heads feature:

- 30% More fin area for cooler running engines.
- Compression release valves included.
- Intake valve @ 25° angle.
- Exhaust valve @ 28° angle.
- High silicon valve springs with chromoly retainers.
- Manganese bronze guides.
- 14mm spark plug.
- Includes Valves, Springs, Collars, & Compression Release

93-900 Complete Head Set 4" Bore Bolt Pattern. Natural F

93-907 Complete Head Set 4" Bore Bolt Pattern. Black Finish.

COMPLETE ASSEMBLED CYLINDER HEADS	NATURAL FRONT	NATURAL REAR	BLACK FRONT	BLACK REAR	POLISHED FRONT	POLISHED REAR

4.250" Bore complete assembled heads.	93-930	93-931	93-932	93-933	93-30	93-31
4.400" Bore complete assembled heads.	93-952	93-953	93-954	93-955	93-52	93-53

6 **NOTE 1:** Ultima® cylinder heads require a special length intake manifold which are approximately 0.175" shorter per leg than a stock length manifold. These heads also have a larger intake opening requiring a 1.780"- 1.820" I.D. manifold. Ultima® manifolds are available to fit with a S&S® 'G' pattern only and will fit both our 100 CI and 113 CI engines.

NOTE 2: On most stock Softail® frames these heads with their larger cooling fin area can interfere with the stock mounted coil and spacing may be required.

NOTE 3: These cylinder heads measure 3.812" tall and are approximately 0.062" thicker than a stock casting to correct valve train geometry.

ULTIMA® DIE CAST ROCKER BOX

89-538
PATENT PENDING

PVC REED ASSEMBLY PATENT # US 6,883,505 BI

6

89-539

The Ultima® rocker box is the perfect way to set your engine apart from others. With a unique design and chrome plated aluminum or black finish, this box will enhance the look of any engine. The Ultima® box uses a patented reed assembly to vent all 1992 & later Evolution® engines. Unlike other designs that can degrade in performance with time, our reed assembly is made from fatigue-resistant stainless steel that will give you consistent, trouble-free performance for as long as you ride your bike.

Ultima® offers two versions of this box. The standard box offers classic looks with the versatility to fit on any stock Evolution® or custom engine. Our compression release box comes with all the features the standard box does, plus the added feature of being compatible with the S&S® electric compression release system. Both box sets come with all required mounting hardware and gaskets.

Fits 1992 thru 1999 Evolution® engines.

89-538 Compression release compatible Ultima® Chrome die cast rocker box set.

89-539 Compression release compatible Ultima® **BLACK** die cast rocker box set.

SOLD AS SET

Recommended items not included in kits

- 91-699** Roller Rocker Arms
- 91-666** Rocker Arm Shaft (OEM 17611-83)

A. DIE CAST ROCKER COVER SET

Die cast rocker covers give the custom looks of the high priced models without the expense. Unique breather valve flap is built into the O-ring that seals top and bottom covers for 1993 & later models. Internal rocker arm clearance accepts cams to .800" Set includes top & bottom covers, rocker shaft bases, gaskets, O-rings and hardware. Show chrome finish.

- 89-496** Use on Big Twin & Sportster® V2 models. SOLD AS SET
- 77-443** Gasket set for above rocker cover set part No. **89-496**. Includes two kits. SOLD AS KIT
- 89-436** Copper crush washers SOLD EACH

B. TWIN CAM® ROCKER BOXES

Die cast two-piece aluminum rocker box kit. Includes top cover, lower cover, inner rocker arm carrier, gaskets & hardware. Fits Twin Cam® models 1999-up. SOLD AS KIT

- 89-335** Chrome rocker box kit.
- 89-336** Polished rocker box kit.
- 77-446** Replacement gasket kit for **89-335** & **89-336**.

C. SPORTSTER® OEM STYLE INDIVIDUAL ROCKER BOX SET

Chrome OEM style individual rocker box sets. Include gaskets and hardware. MUST ORDER TWO SETS PER MOTOR.

SOLD AS SET

- 89-332** Chrome rocker boxes, fits XL models 1991-2003.
- 89-331** Chrome rocker boxes, fits XL models 2004-2006.
- 89-330** Chrome rocker boxes, fits XL models 2007-up.

D. ULTIMA® ROCKER ARM COVERS FOR ALL SHOVEL

With the use of included stud spacers, these covers can be used on both 1966 thru 1981 and 1982 & later models. Replaces OEM 17516-77B, 17517-77B, 17518-80, 17519-80, 17550-80 and 17552-80.

- 89-344** Chrome plated rocker arm covers and pair of chrome plated stud spacers. SOLD AS SET
- 89-389** Polished rocker arm covers.

Hardware kit includes 18 hex nuts & 18 flat washers. Replaces OEM 7753 and 6016.

- 40-318** Colony kit. Chrome plated. SOLD AS KIT

E. ROLLER ROCKER ARMS FOR EVOLUTION®, TWIN CAM® & ULTIMA® ENGINES

Made from 4140 steel forgings, our rocker arms are the strongest on the market today. These arms incorporate a 1.675 ratio for increased lift and will match our Ultima® heads perfectly. A best value product. Uses OE rocker shafts. SOLD AS SET OF FOUR

- 91-699** Fits Ultima® engines & 1984-later Evolution® Big Twin & XL engines. Also fits 1999-later Twin Cam® engines. 1.675 ratio.

ULTIMA® 'STANDARD VOLUME' & 'HIGH OUTPUT' OIL PUMPS

6

ULTIMA® OIL PUMPS

Ultima® now has its own line of oil pumps including the Ultima® Standard Volume (S.V.) Oil Pump, and the Ultima® High Output (H.O.) Oil Pump. Ultima®'s main focus on the development of the oil pumps was consistency. Ultima® pumps are checked on a Coordinate Measuring Machine, and flow tested on a test stand to insure the oil pumps are consistent from one pump to the next, and the motor is getting adequate oil. Ultima®'s S.V. pump performs with similar characteristics of the stock pump for volume and pressure. The H.O. pump has a much greater potential for pressures and volume. Unlike stock oil pumps which won't start feeding the bottom end oil until 2000+ RPM, tests show the H.O. Pump will feed the bottom end at idle speeds, and keep a consistent flow throughout the R.P.M range to keep from floating bottom end bearings. Bottom line, you are getting a precise pump that you can be confident in. Check fitting for Baggers due to master cylinder.

C. HIGH PERFORMANCE OVATE WIRE VALVE SPRING KITS FOR HD® MILWAUKEE-EIGHT

KPMI® has developed ovate wire Beehive style springs that will live and Perform at a high level in Harley Davidson® applications. KPMI® Beehive Springs are progressively wound and are heat treated and shot peened. The hardened steel base washers included in these kits are designed to locate the spring and control lateral movement. KPMI® made OEM replacement seals are included for a more complete performance valvetrain solution. SOLD AS KIT

91-801 Beehive Spring Kit, HT Steel, 0.465" lift
 91-803 Beehive Spring Kit, HT Steel, 0.550" lift
 91-804 Beehive Spring Kit, HT Steel, 0.625" lift

A

91-363

A. ANDREWS VALVE SPRINGS, UPPER & LOWER COLLARS FOR 74" & 80" SHOVEL

Andrews' springs & collars are designed for easy installation and maximum reliability.

High lift springs will provide correct spring force for any of Andrews' performance cams. Installation does not require complicated machining.

91-363 Four high lift valve springs.

SOLD AS SET

These high lift upper spring collars, for use with high lift springs above, can easily accommodate cams with .600 lift. Made from T6 aluminum, collars are light weight, hard coated and very strong.

91-538 Four high lift upper spring collars.

SOLD AS KIT

These medium lift upper spring collars are intended for stock and will add approximately .060" spring travel with no other modifications. This is the easy way to install Andrews' B or No. 2 cams with stock Shovel heads.

91-539 Four medium lift upper collars.

SOLD AS KIT

Low profile lower spring collars are similar to stock 1980 style parts but are lower profile for easier installation of higher lift cams. They are required parts if you are using 1980 style valve guides which utilize "K" line stem seals. Material is heat treated steel.

91-540 Four low profile lower collars.

SOLD AS KIT

C. HIGH PERFORMANCE PUSHRODS FOR SHOVEL

This is a new style **U.S.A. MADE** pushrod for the 1966 & later Shovels. The adjuster is put into the lifter body with a design to increase the stability of the pushrod at greater angles. A tapered split lock nut is used for the best possible way to lock the adjusting bolt into the lifter body. A 5/16 - 32 extra fine thread is used for easier and close adjustments. All pushrods are long enough to accommodate engines with stroker cylinders. All wear surfaces are hardened for maximum wear and durability.

- 91-513** Rods & lifters with instructions. SOLD AS KIT
91-514 Same kit as above **91-513** except using SOLD AS KIT
 7/16" O.D. 4130 aircraft tubing.
91-517 Additional lock nuts. 5/16 - 32. SOLD EACH

D. QUICK CHANGE PUSHRODS FOR EVOLUTION® BIG TWIN

U.S.A. MADE — Rocker box or tappet guide removal is not necessary with Quick Change pushrods — making cam installation a much faster and easier job. Manufactured of **4130 chrome moly** steel with heat treat hardened ends and adjusters. Pushrod tube diameter is 7/16".

- 91-752** For Evolution® Big Twin 1984 thru 1999. SOLD AS KIT
91-860 For Twin Cam 88™.

E. EZ-INSTALL PUSHRODS

EZ-Install pushrods are available in either aluminum (6061T6) or steel (4130 moly). Kits include 4 adjustable steel or aluminum pushrods which will install without removing tanks or rocker boxes.

SOLD AS KIT

FOR EVOLUTION® 80

- 91-754** 4 Aluminum pushrods; purple anodized finish.
91-755 4 Chrome moly steel pushrods.

FOR TWIN CAM 88™

- 91-761** 4 Aluminum pushrods; bronze anodized finish.
91-762 4 Chrome moly steel pushrods.

**A. ANDREWS PUSHRODS FOR EVOLUTION®
BIG TWIN & SPORTSTER®**

This kit of fully adjustable pushrods is a must for any cam change since the stock pushrods are not adjustable and therefore more difficult to reinstall.

91-411 4 Stock diameter aluminum pushrods and adjusters for Evolution® Big Twin 1984 & later. Replaces OEM 17900-84. **SOLD AS KIT**

This kit of fully adjustable pushrods have extra rigid high strength construction for all out performance applications.

91-612 4 Chrome moly pushrods and adjusters for Evolution® Big Twin 1984 & later. **SOLD AS KIT**

These kits of super light aluminum pushrods for Evolution® Sportster® are stock diameter so there is no cover tube interference.

91-541 4 Stock diameter aluminum pushrods and adjusters for Evolution® Sportster® 1984 thru 1990. **SOLD AS KIT**

91-692 4 Stock diameter, adjustable chrome moly steel pushrods for maximum strength, for 1984 thru 1990 Evolution® Sportster® (not shown). Extra rigid high strength construction for all out performance applications.

91-883 Hy Lift Johnson hydraulic lifters for use on 883cc & 1200 Sportster® 1989 thru 1998. OEM 18526-89A, 18521-92A.

91-884 Hy Lift Johnson hydraulic lifters for use on Twin Cam® 1450cc 1999 & later, 4-cam Sportster® 883cc, 1200cc XL 2000 & later

91-898* Hy Lift Johnson stock lifters for M8 Twin Cam® 1999 & later, inc Mil rpls, OEM 18538-99

D. HYDRAULIC UNITS FOR '53-'84 BIG TWINS

Hydraulic roller tappet assemblies are precision manufactured for original equipment performance & durability. Fits Pan & Shovel engines 1953 thru 1984. Replaces OEM 17920-53A.

91-991 Midwest hydraulic unit. SOLD EACH

E. HYDRAULIC LIFTER CONVERTERS

These **U.S.A. MADE** converters eliminate hydraulic units on 1953 & later Big Twins. SOLD AS KIT

91-315 For use with stock H-D® or Midwest push rods part No. 91-280 or 91-262.

F. HYDRAULIC UNITS FOR BIG TWINS

Hydraulic roller tappet inserts are precision manufactured for original equipment performance & durability. Fits Pan & Shovel engines 1953 thru 1984. Replaces OEM 17920-53A.

91-605 Midwest hydraulic unit. SOLD EACH

G. LIFTER ALIGNMENT PIN FOR TWIN CAM®

91-896 SLifter alignment pin for Twin Cam®

H. HY-REV™ HYDRAULIC LIFTERS

Patented hydraulic lifters feature a unique anti-pump up race retainer designed to replace the stock spring retaining clip which precisely limits plunger travel. The roller and axle are manufactured of bearing quality carbon/chromium steel. The pushrod seat is carbo-nitrided for severe service applications. High performance at a budget price.

91-837 For Evolution® Sportster® 1991 thru 1999. SOLD EACH

91-838 For Evolution® Sportster® 1991 / 1999. SOLD AS KIT
OF FOUR

For Twin Cam 88® 1999 thru 2004 and XL 2000 thru 20004.

91-590 High Energy™ lifters (street). SOLD EACH

91-591 Pro Magnum™ (race).

A. EVOLUTION® TAPPET BLOCKS

These tappet blocks (front & rear) for Evolution® Big Twin 1984 & later are sold with eight chrome plated allen bolts. Replaces OEM 18542-83A and 18540-83A.

- 91-613** Chrome tappet blocks SOLD AS SET
- 91-614** Black tappet blocks.
- 91-697** Chrome tappet blocks for 4"+ bore motor case, used on all Ultima® Engines 100 C.I. and larger.

A

B. TAPPET BLOCK COVER SETS

These chrome plated covers are made to match the shape of and cover the stock painted tappet blocks. Removal of pushrods is not necessary. SOLD AS SET

- 89-395** Fits Pan & Shovel, 1948 & later.
- 89-457** Fits Big Twin 1984 & later. (Die cast.)

C. TAPPET LIFTER BLOCK COVER SET FOR TWIN CAM® '99-'17

- 91-970** Tappet lifter block cover set for Twin Cam® SOLD AS PAIR

D. TAPPET BLOCK COVER SET FOR M8 NEW!

Chrome plated covers fit 17'-20' M8 models. Gaskets & bolts included. SOLD AS SET

- 91-828** M8 tappet block covers, OEM 25700410.

6

B

E. COLONY CYLINDER BASE NUTS FOR BIG BORE

High torque cylinder base nuts for all big bore cylinders. Also fits stock 74" & 80" cylinders.

- 41-943** Chrome plated cylinder base nuts for big bore cylinders. SOLD AS KIT
- 41-944** Black oxide cylinder base nuts for big bore cylinders.
- 41-766** 12 Point head bolt & washer kit for big bore Pan & Shovel, 1948 & later. SOLD AS KIT

HASTINGS PISTON RINGS

Hastings motorcycle rings are the very finest **U.S.A. MADE** motorcycle rings made today. These piston ring sets are suitable replacement sets for our pistons, OEM pistons and many more. Always check your ring grooves to determine which set of rings to use. All compression rings are cast, unless otherwise specified.

SOLD AS PAIR FOR 2 PISTONS

TOTAL SEAL - GAPLESS RING(Patented)

"THE ULTIMATE IN HIGH PERFORMANCE"

The Total Seal Gapless® ring has no gap to wear open. Instead, its patented design incorporates a two-part interlocking ring to close off the gap and provide a more perfect seal between piston and cylinder. As the Total Seal ring wears, the gap stays sealed, even after dozens of grueling races.

Easy to install. No unusual tools or piston groove modifications are necessary. Specific instructions are provided with each set.

The Complete Set. Total Seal provides complete sets of rings, consisting of top (fire) ring, one or more combustion rings (including the Gapless® Ring), and one or more oil rings. All rings are selected and matched for the individual application.

NOTE: Although these are both high performance rings, select the best top ring for your application. Street — For economy, particularly in street-type applications, cast iron rings are the rings of choice. Cast iron is highly compatible with cylinder surfaces and provides a long-wearing, quick seating low-cost top ring. For longer wear, chrome or moly faces are provided. Cast iron rings are not recommended for applications encountering high temperatures, high compression, or detonation conditions. Racing — Stronger materials such as ductile (nodular) iron or stainless steel are recommended for more demanding applications such as high performance engines. Unfortunately, ductile, and to some extent, stainless steel, although nearly unbreakable, are not wholly compatible with most cylinder surfaces. Therefore, it is most common to inlay the sealing surface of the ring with either chrome or moly.

1000cc 1972 & later with 3.188" bore.

With experience from original equipment to NASCAR and even Formula 1, MAHLE the largest piston manufacturer in the world brings true technology to the V-twin market. MAHLE's piston kits start with forgings from low expansion 4032 alloy aluminum, for superior operating performance and durability. The pistons are deburred and performance coated. The performance coatings include a dry phosphate lubricant to protect against ring micro-welding as well as pin galling at initial start-up and MAHLE's proprietary Grafal® anti-friction skirt coating. All pistons have CNC precision finished pin bores (no honing required). These kits come with high quality steel pins, round wire locks and low drag performance rings (unless noted). Trust your motor to the experts with over 80 years of piston building technology, trust MAHLE.

PISTON KITS INCLUDE PINS & CLIPS.

KEITH BLACK "KB" PERFORMANCE PISTONS

KB Performance Motorcycle pistons are offered in Cast Hypereutectic 390 alloy and Forged 4032 low expansion alloy. Our 4032 alloy is preferred for high performance or high compression applications and offers offset wrist pins for a quiet engine operation. All applications now come equipped with coated skirts for reduced friction between the piston and cylinder wall. The low expansion alloys allow for a tighter piston to wall running clearance, which aids in reducing piston rock and engine noise.

ANDREWS CAMS FOR EVOLUTION® BIG TWIN

Performance cams mean extra power for Evolution® engines. Hydraulic lifters are capable of 6000+ rpm with stock springs and no valve float. Aluminum (T7) or chrome moly steel pushrods (both fully adjustable) are available to match any of Andrews' camshafts. Aluminum pushrods are lighter while the chrome moly steel pushrods are more rigid for high performance.

Also available are titanium upper valve spring collars to fit stock EV keepers & springs.

PART NO.	GRIND	TIMING	DURATION @.53	@.020	LIFT	LIFT @ TDC	SPRINGS	APPLICATION
114-46	EV13	15/31 45/13	226 238	270 280	.485 .495	.161 .148	Stock	Bolt-in street/touring cam for heavy bikes. Much more mid-range and upper power than either stock cam.
114-52	EV27	20/36 44/16	236 240	270 274	.495 .495	.182 .166	Stock	Bolt-in street cam with fast open and close ramps. Similar timing to EV3 but designed to produce a very broad torque band. Pulls - 1500 to 6000 rpm.
114-27	EV3	21/37 43/15	238 238	280 280	.495 .495	.197 .159	Stock	Bolt-in street cam for light bikes (FXRS, etc.). Lots more mid-range and upper end power. Smooth idle, 6000 rpm cam with stock heads & springs.
114-48	EV46	25/41 49/17	246 246	283 283	.495 .495	.207 .197	Stock	Bolt-in performance cam with fast open & close ramps. Longer duration than EV3 but higher static compression pressure for 6000+ rpm.
114-56	EV23	10/30 40/8	220 228		.498 .498	.134 .121	Stock	NEW. Bolt-in intended for use in 80" Big Twin. Crisp throttle response and strong pulling power from 1500 to 6000 rpm. Excellent cam for heavy touring bikes and high geared bikes. Also works well in higher altitudes.
114-55	EV51	28/44 54/22	252 256	286 290	.510 .510	.233 .195	Stock	Easy installation with longer duration for modified street engines with hyd. lifters. Power range from 3000 - 6500 rpm.
114-53	EV59	26/46 56/24	256 260	290 394	.560 .560	.236 .208	Hi - Lift	Fast ramps for modified 80 to 88 inch motors. Use AP springs & collars. Very broad power band; 6000 rpm. OK for hyd. lifters.
114-54	EV72	30/54 60/28	264 268	298 302	.560 .560	.246 .230	Hi - Lift	For 92 in. + street motors. Use AP springs & titanium collars. Very broad power band; 2800 - 6000 rpm. OK for hyd. lifters.
114-81	EV81	32/60 66/30	272 276	306 310	.610 .610	.262 .244	Hi - Lift 160 Lbs.	For 80 - 88 in. , 10.5+ CR, head work, Broad nose quick ramps for wide torque band. 6500+RPM

(* Timing listed at .053 cam lift.

ANDREWS CAMS FOR SPORTSTERS®

PART NO.	YEAR	GRIND	TIMING	DURATION @.050	VALVE LIFT	APPLICATION
114-24	1971/1980	Y	35/47	262	.425	Street 900/1000: Biggest cam available for no headwork installation. (Some 1982 engines may require spring spacing). Stock springs OK.

NOTE 1: 1981 Thru 1984 cam gear kits differ only on the No. 4 cam which does **NOT** have a tachometer gear.

NOTE 2: Late 1984 & 1985 cam gear kits must be used on **ALL** engines **WITH** alternators.

ANDREWS CAMS FOR SHOVEL, PAN & KNUCKLE

Whether you want a better street cam for a stock motor, a big lift cam for a dragster or something in between, Andrews Products can supply it. All of their H-D® cams are computer designed and precision ground from alloy steel billets. In 1988 Andrews continued the cams which are intended to be used with lower compression pistons. They are designed with a combination of shorter durations and higher lifts which offer the advantages of a broad torque output through the rpm range.

PART NO.	YEAR	GRIND	TIMING	DURATION		VALVE LIFT	APPLICATION	
				@ .053	@ .020			
KNUCKLE ENGINE CAMS & "61" PAN CAMS								
114-26	1936/1947	N	14/42 42/14	236 236	270 270	.355 .355	New by popular demand. Stock replacement for Knuckle cam. For stock motors or restorations, this is the cam.	
114-1	1936/1947	S	27/55 55/27	262 262	308 308	.370 .370	Bolt-in Knuckle performance cam for stock motors. Smooth idle, strong pull to 6000 rpm. This is the Knuckle equivalent of a "B" cam.	
CAMS FOR STREET & DRAG APPLICATIONS								
114-14	1948/1969	J	21/41	242	292	.405	Mild street: Pans & Shovels, smooth idle, more power through rpm range. Bolts in with no head work	
114-13 114-4	1970/1977 1978/1984		41/21	242	292	.405		
114-5 114-2	1970/1977 Late 1977/1984	A	21/43 43/21	244 244	296 296	.450 .450	Street/drags: Bolts into Shovels (except 1980 & 1981) with no head work. More mid range & high end power. Idle smoothness unaffected.	
114-49 114-50 114-51	1948/1969 1970/1977 1978/1984	AB	21/43 50/26	244 256	286 300	.450 .450	"A" Intake and a long duration exhaust for cooler running & more high end power. Bolt in street cam (except 1980 & 1981). OK for hydraulic lifters.	
114-8	1948/1969	B	26/50	256	298	.485	.507	Street/drags: Much more mid range & high end power. Idle smoothness unaffected. THE cam for modified 74/80 inchers & small stokers. Spring spacing required.
114-17 114-15 114-16	1948/1969 1970/1977 1978/1984	BH	24/52 52/24	256 256	302 302	.450 .450	.470 .156	Hydraulic version of a "B" cam. Usually a bolt-in, but spring spacing may be required on 1980.
114-38	1978/1984	6	32/56 59/27	262 266	303 325	.510 .510	.535 .535	Upgrade of old #6. Great street cam for 84/88 inch stokers. Maximum torque comes on from 2200 to 6500 rpm.
114-9 114-10 114-18	1948/1969 1970/1977 1978/1984	7	29/53 61/37	278 278	318 318	.525 .525	.550 .550	Best production cam made for big street engines. Stokers from 84 to 96 inches will really turn on with this cam. Broad torque range pulls from 2000-7000+ rpm.
CAMS FOR LOW COMPRESSION PAN & SHOVEL ENGINES (LESS THAN 8:1)								
114-154	1978/1984	1	16/36 36/16	232 232	.427 SH/.450 PH .427 SH .427 SH		This is the low compression piston version of an "A" grind cam for 74 & 80 engines with low compression pistons.	
114-156	1970/1977	2	15/35 35/15	230 230	.490 SH/.512 PH .490 SH		This is the low compression version of a "B" grind cam. More power thru rpm range for engines with low compression pistons.	

NOTE: For identification purposes, the following descriptions apply to years:
 1983 & later: Evolution® engine.
 1978 thru 1984: New Shovel & 1977 Low Rider.
 1970 thru 1977: Alternator Shovel.
 1966 thru 1969: Early Shovel.
 1948 thru 1965: Pan.
 1936 thru 1947: Knuckle.

Knuckle cam. The two grinds made for this engine are described above.

Cam for a 61 C.I. Pan engine. Because of the unusual cam design these engines don't run well with a "74" Pan cam so Andrews makes stock replacement "61" cams.

PERFORMANCE CAMS (2007 - UP) TWIN CAMS AND '06 DYNAGLIDE

Part#	Grind	Timing(*)	CL	Duration		Valve Lift	Lift @ TDC	Springs	Application

		58/22	108	260	297	.570	.1871		

(*) Timing and duration listed for .053 cam lift.

ANDREWS CAMS FOR EVOLUTION® SPORTSTER®

Andrews Products makes high performance cams for all EV Sportster® engines. All of the cams listed below will run to 6500 rpm with stock hydraulic lifters. Stock H-D® hydraulic lifters are such proven units, Andrews continues to recommend that they not be changed to solids. Andrews Products EV Sportster® cams have stock base circle sizes so stock (non-adjustable) pushrods can be used (except V9 or BV grinds). Adjustable aluminum or chrome moly steel pushrods are also available. NOTE: The #2 cam drive gear used in 2000 & later model year EV Sportster® cams uses 46 teeth; the 1991 thru 1999 #2 cam gear has 36 teeth. Andrews pushrods and Andrews' titanium upper valve spring collars will fit ALL Evolution® 80 engines and ALL Evolution® Sportsters®. They will provide .050 more spring travel over stock collars and will install with stock keepers.

114-45	1986/1990	V8	32/44	256	296	.490	.226	Modified 1100 - 1200, stroked 883's with stock springs & hyd. lifters. Same intake cam as N4 but more exhaust cam duration. Great mid-range power: 2500 - 6500 rpm.
114-91	1991/1999 2000 & Later ²	N8	56/28	264	302	.500	.121	
—	1986/1990	V6	34/50	264	302	.500	.241	Modified 1200s to 80" and/or high comp. pistons. Stock springs & hyd. lifters recommended. RPM range: 2500-6800.
114-165	1991/1999	N6	56/28	264	302	.500	.212	

NOTE 1: Timing listed for .053 lift figures.

NOTE 2: Model year 2000 & later Sportster® engines require a different #2 drive gear than 1991 thru 1999 engines.

ANDREWS CAMS FOR CHAIN DRIVE TWIN CAM 88™ ENGINES

1999-2006 TWIN CAMS®, EXCEPT 2006 DYNA®

Want more power from your new 88 engine? Andrews Products has seven proven Twin Cam 88™ grinds for 2002 to get you there. More HP and torque for stock or modified engines is within easy reach. All cam grinds listed are designed for use with stock H-D® hydraulic lifters. Cam kits include one roller bearing. For any bolt-in cam grind, EZ-Install pushrods do not require removal of gas tanks or rocker boxes for installation. **SOLD AS SET**

(*) Timing and duration listed for .053 cam lift.

CAMS FOR GEAR DRIVE TWIN CAM 88™ ENGINES

1999-2006 TWIN CAMS®, EXCEPT 2006 DYNA®

Andrews Twin Cam 88™ camshafts are available with S&S® gear drives. Gear driven cams use less engine power than stock chains. If less power is needed to run the camshafts, more power gets to the rear wheel.

WHAT YOU NEED TO ORDER

If updating from the stock chain drive system, order: one set cams, w/inner gears and part Outer Cam Drive Gears. Refer to chart for cam part number. If installing a gear drive style cam set from another cam manufacturer, and the kit does not include inner cam gears. For either above installation we recommend part No. **114-221** Cam Installation Kit.

(*) Timing and duration listed for .053 cam lift.

CAMSHAFTS FOR CONVERTING '99-'06 ENGINES TO 2007 STYLE CAM CHAIN DRIVES

Camshafts on all 1999-2006 H/D 88 engines (except 2006 Dyna) can be updated to new style roller chain drives. Cam grinds listed below are designed for stock H/D hydraulic lifters. The '07 style chain drives are much more efficient and durable than old style chain tensioners. EZ-install pushrods are available from Andrews Products. EZ-install pushrods do not require removal of gas tanks or rocker boxes when installing bolt-in camshafts.

Part#	Grind	Duration Timing(*)	Valve CL	Lift @ .053	.020	Lift	TDC	Springs	Application
Stock 88 Carburetors	(A) 42/-03	-02/38 112.5	110 219	216 259	255 474	.473 .110	.072	Stock	Stock cam data listed for '99-'06 carbureted engines. (Stock engine output is approximately 62 HP).
Stock 88 Injectors	(B) 42/-03	02/34 112.5	106 219	216 259	255 474	.473 .110	.087	Stock	Stock cam data listed for '99-'06 fuel injected engines. (Stock engine output is approximately 62 HP).

114-343	67N	24/48 58/22	102 108	252 260	287 297	.570 .187	.209	Hi-lift	Performance cams for 95-107+ inches, 10.0 to 10.8 C.R. with high flow head setup. (2600-6400+ RPM).

(*) Timing and duration listed for .053 cam lift.

TWIN 88 CAM DRIVE SPROCKET KIT

Andrews now offers heat treated steel cam drive sprockets with involute splines (All 2000 Twin Cam 88™ engines use splined drive cam sprockets.) Three spacer shims are included along with a grade 8 bolt and hardened washer.

New sprockets can be set up to the same length specs as original stock sprockets. If you are into performance, steel sprockets are a must even with stock camshafts. New splined 34T cam sprockets will fit all stock model year 2000 Twin Cam 88™ rear camshafts.

114-63 34T Cam drive sprocket kit; splined.

CAMSHAFTS FOR CONVERTING '99-'06 ENGINES TO 2007 STYLE CAM CHAIN DRIVES

Complete Kit is Shown For Information Only

Eliminate old style chain adjusters! Conversion camshafts fit all 1999-2006* twin cam engines. New '07 style chain adjusters operate with engine oil pressure to maintain proper cam chain tension. Andrews Products conversion camshafts are available for any 1999-2006 Twin Cam engine!

Stock HD camshafts can't be used for 2007 style roller chain conversions! Andrews "N" cams can not be installed with Screaming Eagle cam support plates: HD part numbers: 25284-08 or 25284-11 The following parts must be purchased from a local HD dealer or Midwest Motorcycle Supply to complete the conversion camshaft installation:

OEM #	Description	Midwest #
26037-06	Oil pump	98-507
25355-06	Cam support plate	
4741A	Plate mounting screws	
11461	Retaining ring (front cam)	
25683-06	Inner chain	98-282
39968-06	Chain tensioner	98-502
4740A	Tensioner mounting screws	
25675-06	Outer chain	98-251
39969-06	Chain tensioner	98-502
942	Outer chain mounting screws	
25673-06	Pinion sprocket (17 teeth)	98-281
25244-99A	Outer cover gasket	77-720
25728-06	Rear cam sprocket 34 teeth ('02-'06)*	98-250

*ALL '99-'01 engines MUST use Andrews rear cam sprocket number 216015 to permit engine alarm warning light to operate correctly. Two alignment spacers will also be needed. Front cam spacer (.100) is part #25729-06. Other spacers are available from HD® from .100 thick to .150 thick in .010 increments. Midwest # 98-710 thru 98-715. See previous page for Cam Part Numbers . . .

D. BIG TWIN STEEL BREATHER VALVE GEARS

MIDWEST PERFORMANCE BREATHER VALVE GEARS

1215 Steel material holds up better than the stock plastic gears, and are less likely to damage the case. Improves breathing capacity. Outperforms the stock plastic unit — a must for any performance engine.

1958/1969

1970 & LATER

A. ULTIMA® CONNECTING RODS SOLD AS SET

These connecting rod sets have been designed with the H-beam shape long used in many types of racing. These rods are made from 4140H steel making them stronger than most aftermarket rods and by design 10% - 15% lighter. If you're building a stock Big Twin or a performance engine, then reducing the rotating & reciprocating weight will increase horsepower and engine life.

- 98-571** 7.440" Rod set finished with crank pin, nuts and rod bearings with alloy cages and 0.792 pin bore. Fits Evolution® Big Twins 1984 & later.
- 98-572** 7.440" Rod set finished with crank pin, nuts and rod bearings with alloy cages and 0.791 pin bore. Fits Big Twins 1941 thru 1980. **NOTE:** On most OEM flywheel castings clearancing is required for rear rod to counter weight.
- 98-573** 7.440" Bare rod set —unfinished ends, 0.7918" dia. wrist pin bore & 1.6256" dia. crank pin bore.
- 98-574** 7.670" Bare rod set —unfinished ends 0.9273" dia. wrist pin bore & 2.1040" dia. crank pin bore.
- 98-575** 7.700" Bare rod set (see 98-574).
- 98-578** 8.000" Bare rod set (see 98-574).

B. MIDWEST'S ROD ASSEMBLIES FOR BIG TWIN & SPORTSTER®

Rod set includes new rods, 3 hole crank pin, cages, standard rod rollers, crank pin nuts and piston pin bushings honed for stock pins. Made in Japan. All parts meet or exceed OEM specifications.

BIG TWIN

GASKET MATERIALS

EST KITS

When you see this abbreviation in the description of a kit you can be assured that the best possible materials available are used for every gasket in that kit for that application. EST is short for, EXTREME SEALING TECHNOLOGY. These kits are more expensive than a standard kit for a reason; there is no compromise when we build these kits. These kits contain such materials as MLS head gaskets, Steel viton coated base gaskets, blue viton valve stem seals, AFM material, race style exhaust gaskets that won't fray into the port and the latest upgrades in new gasket technology and fit, such as the one piece Evolution rocker box base gasket made from our single layer .020" embossed viton coated steel. These are truly for the builder who demands that best and appreciates the long-term value for his or her dollar. EST kits are available in Complete Motor Kits and Top End Kits.

MLS™ (MULTI-LAYER STEEL HEAD GASKETS)

Ideal for both aluminum heads to cast iron blocks and aluminum heads to aluminum blocks. Two viton coated outer embossed spring steel layers with a steel inner layer that provides support to the gasket allowing multiple thickness. Withstands the shearing forces created by aluminum heads on cast iron blocks. Retains torque (once the gasket takes a torqueset, re-torquing is not required). Available thickness: .027", .030", .036", .040", .045", .051", .054", .050", .065", .074", .120"

AFM

Is the ideal gasket material for machined surfaces, especially when used between two uneven stamped surfaces that have been plated. AFM is a chemically blown, compounded nitrile synthetic rubber bonded to an aluminum core with temperature resistance of over 2500 F. AFM material has an 85% recovery while maintaining a strong torque retention. AFM does not require gasket sealers or silicone bead. Re-torque is NOT required. Available thickness: .018", .032", .045", .060"

CFM-20

A perforated steel core with an elastomer surface is ideal for head gaskets allowing heat to be drawn evenly across the gasket surface while providing maximum sealing characteristics when exposed to coolants and oils. Available thickness: .043", .051", .059"

SPRING STEEL

A stainless steel core with a .001" thick coating of viton rubber on both sides. Available thickness: .010", .014", .020"

ENGINE PARTS
"BIG BOOK"

INTRODUCTION

Welcome to Midwest Motorcycle Supply's Engine Reference Guide.

In an effort to make servicing your V-Twin® engine easier, the staff at Midwest Motorcycle Supply have put together what we believe to be the most comprehensive list of replacement parts for the heart of your motorcycle. We hope that this reference guide serves as more than just a book, we envision this guide as more of a tool that can be used for years to come.

We would also like to take this time to thank all supporters of Midwest® & Ultima® products. It is because of you that we have grown to be one of the world's leading providers of high quality aftermarket motorcycle parts & accessories. Thank You & Ride Safe!!!

A stylized, bold, italicized letter 'E' in white, set against a black square background.

Every attempt has been made to insure proper fitment of our parts for the applications listed in this guide. It is the end users responsibility to exercise good judgement in the part selection, installation & maintenance of their motor when installing parts referred to in this reference guide. Midwest MC Supply has no control over the judgement of others & assumes no responsibility or liability of any nature for the failure of others to use good judgement.

Midwest Motorcycle Supply, Est. in 1971, is one of the world's leading manufacturers and distributors for aftermarket parts and accessories for American made motorcycles. As a manufacturer we have the capability to produce many of the products you are currently purchasing from other distributors . . . at a fraction of the cost! See examples of our product line at **www.ultimaproducts.com** We are committed to keeping up to date on industry research and technical data, as well as legislation and sales demographics & statistics for the benefit of our Dealers.

Ultima Company LLC is not a representative of any other motorcycle engine manufacturer and the parts we sell are not necessarily recommended by any other motorcycle engine manufacturer.

All words used in this catalog denoting any motorcycle engine manufacturer, engine models or part numbers are intended for use as reference only.

Although our replacement engines and engine parts are not original factory equipment for some manufacturers, our intention is to provide an exceptional quality replacement part that will outperform the original equipment of many OEM manufacturers. Harley-Davidson® Parts: Harley® and Harley-Davidson® and other model names of Harley® motorcycles are used as a reference only.

Some H-D® part numbers are also used as reference only. We are not an authorized Harley® dealer and in no way do we have, or intend to imply any kind of business relationship with Harley-Davidson Motor Company®. Our intention is to provide products that can be used on a Harley-Davidson® motorcycle.

Names and words that are registered trademarks of Harley-Davidson® Inc. Milwaukee, WI, such as Evolution®, Harley-Davidson®, Harley®, H-D®, HD®, and Softail® are not intended to imply that they are Harley-Davidson® original equipment by their use in connection with Harley-Davidson® factory part numbers.

All other trademarks, registered trademarks and brand names used in this catalog are the property of their respective holders.

Ultima is not a representative of any other motor or motorcycle manufacturer. All words used in this “Midwest Reference Guide” are intended for use as reference only. Although our motor replacement parts are not original equipment for some motor manufacturers, our intention is to provide an exceptional quality replacement part that meets, exceeds & outperforms the original equipment of many manufacturers. Names & words used in this “Midwest Reference Guide” that are registered trademarks of S&S® Cycle, Merch Performance® & Rev Tech® are not intended to imply that they are S&S® Cycle, Merch Performance® or Rev Tech® original equipment.

WARNING

Serious injury, death and property damage can result from the improper use, control, alteration, or maintenance of motorcycles. The dealer and dealers customers must exercise good judgement in the use, control, alteration, part selection and installation, and maintenance of motorcycles. Ultima® has no control over the judgement of others and assumes no responsibility or liability of any nature for the failure of others to use good judgement.

ULTIMA® 6 SPEED TWIN CAM A TRANSMISSIONS

NEW!

Ultima's® 6-SPEED Transmissions are the ultimate upgrade for the early model Twin Cam A engines. These transmission cases are designed to be a stronger stock replacement case. They are packed with new features that meet or exceed standards expected of much higher priced transmissions. Transmissions include a 12 month/12,000 mile warranty.

7

Features include:

- Gears and shafts made from hardened 8620 steel giving you years of service with big inch engines
- Pro-cut lead-in ramps for positive shifting
- Hardened steel forks for durability and longevity
- Roller detent gives you smooth, positive shifting action
- Billet trap door
- Transmission case machined from permanent mold A356-T6 Aluminum
- Close ratio 2.94 low gear set
- Assembled by professionals and bench tested
- Improved spring material composition
- Cable operated clutch release
- Designed to use OEM style speedometer sensors
- Extended oil filler cast into case to allow clearance for longer starters

HYDRAULIC CLUTCH END COVER FOR ULTIMA® & HD 5 & 6 SPEED TRANSMISSIONS

Fits 87'-03' stock Big Twins with 5 or 6 speed transmissions. Also fits Ultima® 5 & 6 speed LSD transmissions. Suited for a 9/16" or 5/8" bore master cylinder.

96-237 Smooth finish hyd. trans end cover. **SOLD EACH**

ULTIMA® 6-SPEED TRANSMISSIONS- SHIFT MECHANISM

HEAVY DUTY SHIFT FORK

The same products used in our Ultima® transmissions, these are the strongest shift forks on the market today. These forks are made from a proprietary blend of aluminum bronze and are over three times as thick as stock shift forks. Bronze wears better than steel forks and by our design, these are a more rigid piece providing positive gear engagement. The material these forks are made from keeps ferrous material from being produced and floating around inside your transmission. This keeps your gears and bearings in a more friendly environment and helps stop speedometer sensors from clogging.

96-890 Shift fork. Replaces OEM 34195-79D. SOLD EACH

ULTIMA® 6-SPEED TRANSMISSIONS- GEAR TRAIN

ULTIMA® SIX SPEED BUILDERS KIT

The Ultima Six Speed Builders kit was designed to provide a simple, low cost, 6 speed overdrive solution for 1990/L Big twin owners. These kits work in most 1990-1999 models with little or no modification. A speedometer recalibration unit is required on some 1996-2000 and all 2001 later models. These kits will work in 5 spd type 2000/Later models with additional minor modifications. The trap door is thicker than stock so any brackets used that are trap door mounted may need modification. Complete instructions included or available online. All Touring FLT and FLH Models 93/L require an oil filler spacer #89-14. Ultima 6 Speed Gear sets can use the same #17-152 speedometer recalibrator unit as our transmissions.

*Instructions included and available online @ www.ultimaproducts.com.

Features:

- Roller Detent for smoother shifting
- Precision Ground 8620 Gears and shafts
- Chrome Plated Billet Trap Door
- Gear Ratios are:

- | | |
|-----------|-----------|
| 1. 2.94:1 | 4. 1.23:1 |
| 2. 2.21:1 | 5. 1:1 |
| 3. 1.57:1 | 6. .86:1 |

98-902

Ultima 6 Speed Builders Kit
1990 & later Big Twin 5-spd models.

A. SPEEDOMETER SENSORS

Used to send electronic pulses to the speedometer from 5 & 6 speed transmissions. A = protrusion depth

17-149	Speed sensor, OEM 74402-95B	A = 1.190"	SOLD EACH
17-150	Speed sensor, OEM 74420-94C	A = 0.810"	SOLD EACH
17-151	Speed sensor, OEM 74437-96	A = 0.810"	SOLD EACH

B. ULTIMA® SPEEDOMETER RECALIBRATION MODULE

A speedometer recalibration module is required when changing the gearing or tire size on a motorcycle that doesn't have a programmable speedometer. This module adjusts the output of the speedometer sensor so that the speedometer registers the correct MPH.

17-152	Speedometer recalibration module	SOLD EACH
---------------	----------------------------------	-----------

C. ULTIMA® PULLEY LOCK NUT

Fits 93 & later XL & Big Twins with belt final drive & custom applications. Helps eliminate loose pulley nuts by adding the locking plate to the nut. Bolts are included.

94-381	Ultima® pulley lock nut	SOLD EACH
---------------	-------------------------	-----------

D. EASY PULL CLUTCH KIT FOR BIG TWIN

Reduces the amount of effort needed to operate the clutch lever. Complete clutch disengagement is still achieved. Installs easily.

96-560	Fits Big Twin 1987 & later except FXR and Sportster® 1986 thru 1990.	SOLD AS KIT
---------------	--	-------------

E. SPEEDO BLOCK OFF PLATE FOR 5 SPEED

Fits Big Twin & Sportster®. Covers hole if not using speedometer pick-up sensor.

96-882	Block off plate with gasket & screw.	SOLD AS KIT
78-528	Gasket only.	SOLD EACH

F. ENGINE TO TRANS INTERFACE GASKET

Metal and rubber gasket used between the Twin Cam® engine and the transmission. OEM 35607-06.

78-601	For '07-'16 FLHT, FLHR, FLHX & FLTR. '06-'16 Dyna models.	SOLD EACH
---------------	---	-----------

G. TOP COVERS FOR BIG TWIN 5 SPEED TRANSMISSION

Bringing your Big Twin 5 speed the "factory custom" look at the right price.

96-563	For 1987 & later. Replaces OEM 34468-86A.	SOLD EACH
21-304	Vent fitting. Chrome. Replaces OEM 62375-57.	SOLD EACH

H. TRANSMISSION TOP COVERS FOR NEWER MODEL H-D

96-567	Trans top cover, OE#34541-00, fits 00'-up Softails® and 01'-up Touring models.	SOLD EACH
---------------	--	-----------

A. CLUTCH RELEASE TRANS END COVERS

- 96-554** Ribbed front. For Softail® & FLT, 1987 & later. Replaces OEM 37105-87A. **SOLD EACH**
- 96-883** Smooth front. For Big Twin 5 speed 1987 & later, except FXR 1987 thru 1994. Replaces OEM 37105-99.

CHROME
PLATED

B. HYDRAULIC CLUTCH END COVER FOR ULTIMA® & HD 5 & 6 SPEED TRANSMISSIONS

Fits 87'-03' stock Big Twins with 5 or 6 speed transmissions. Also fits Ultima® 5 & 6 speed LSD transmissions. Suited for a 9/16" or 5/8" bore master cylinder.

- 96-237** Smooth finish hyd. trans end cover. **SOLD EACH**

7

5 SPEED TRANSMISSION GEARS FOR BIG TWIN

2.94 1st Gears provide true close ratio shifting into 2nd. At peak rpm, these gears add 5 mph of usable 1st gear. (Two pieces.)

- 96-656** Midwest gears. **SOLD AS SET**

Since we get many question regarding transmission gear ratios, a table of values for EV-80 transmissions is shown below along with an explanation of how the actual numbers are determined. The internal ration (in any gear) is a combination of the speed gear ratio and the main drive gear ratio. The numbers below are the numbers of teeth on each mating pair of gears.

GEAR	MAIN DRIVE	SPEED GEAR	OVERALL RATIO	% RPM DROP	MPH PER 1000 RPM
1st (Stk.)	32/17	31/18	3.24	32	6.81
1st (Close)	32/17	25/16	2.94	25	7.50
2	32/17	27/23	2.21	27	9.99
3	32/17	23/27	1.60	23	13.79
4	32/17	19/29	1.23	19	17.94
5	32/17	(Direct Drive)	1.00	—	22.07

To calculate the internal gear ratio in 2nd gear for example, multiply 32/17 times 27/23; $(32/17 \times 27/23) = 2.21$.

To calculate MPH per 1000 engine RPM: (assuming a 25" dia. rear wheel and a stock 3.37 final drive ratio); $(25 \times 3.14159) / 12 \times (1000 / (3.37 \times 60) \times (3.0 / 4.4)) = 22.07$ MPH per 1000 engine RPM (in 5th gear).

To calculate MPH per 1000 engine RPM in 3rd gear: Divide 22.07 by 1.60 $(22.07 / 1.60) = 13.8$ MPH per 1000 engine RPM (in 3rd gear).

The 5 speed gear box has actually been around for several years but the growing number of modifications for the EV 1340 engine has created a lot more interest in it. In addition to close ratio first gears, Andrews Products also makes replacement gears for 2nd, 3rd, 4th and 5th gear sets. As with the close first gears, all 5 speed gears are made from high nickel alloy and heat treated and shot-peened to give maximum durability and strength. Also, where applicable, lead-in ramps have been machined into some gears to improve shifting and reduce wear on drive dogs and drive slots.

TRANSMISSION PARTS FOR BIG TWIN 4 SPEED ALL YEARS & MODELS

ALL PARTS SOLD EACH EXCEPT AS NOTED.

7

A. ULTIMA PERFORMANCE CLUTCH KITS

Ultima now offers performance clutch kits for high output motors to direct power to the pavement. These clutch kits are made using high quality, high performance components. Clutch kit includes quality friction plates that utilize maximum surface area, high load springs, a precision machined anodized billet aluminum pressure plate designed to deliver high power at minimal weight, and an indestructible direct fit clutch hub. Kits come with three different spring rates to accommodate all styles of riding. **SOLD AS KIT**

96-730 High Performance Clutch kit. Fits 1998-06 Big Twin (except '06 Dyna's®).

58-769 Replacement Clutch kit for above clutch (**96-730**).

96-731 High Performance Clutch kit. Fits 1990-97 Big Twin.

58-819 Replacement Clutch kit for above clutch (**96-731**).

B. HEAVY DUTY CLUTCH SPRING PLATE

These heavy duty spring plates increase pressure by approximately 20% which is better suited for high compression engines and better clutch operation. Replaces OEM#37871-90.

96-247 Clutch spring plate, heavy duty. **SOLD EACH**

C. ADJUSTABLE CLUTCH HUB RETAINERS

The Retainer cures the “grabby clutch” found in many H-D® 74” & 80” V-Twins by keeping the clutch drum in place. Installation is easy by following all the steps of a regular clutch service. It’s not going to fix every clutch problem but if installed correctly, in a well maintained V-Twin, the H-D® clutch will work better than it ever has. Fits all 74” & 80” V-Twins 1936 thru 1984, belt or chain drive primary.

96-405 Clutch hub retainer for 3 or 5 stud hub. **SOLD AS KIT**

D. MILWAUKEE EIGHT CLUTCH KITS

The M8 clutch kits are precision made with high quality components. Standard and heavy duty kits available.

Fits: 2017 later Touring & 18 later Softail models. Sold as a kit.

96-109 Standard M8 clutch plate kit. OEM37000258

Kit includes: 9x Contact plates, 10x Fiber friction plates

96-111 Heavy Duty M8 clutch plate & spring kit. OEM 37000287

Kit includes: 10x Contact plates, 10x Fiber friction plates and 3x heavier duty clutch springs.

96-109

96-111

GTR CLUTCH PLATES

The GTR clutch plate sets have smooth engagement and stock fitment which increase the service life of the clutch. All kits have pre-measured stack heights with tempered steel friction plates proven to race standards at a great price point. Sold in kits.

G. HIGH PERFORMANCE COMPENSATOR KIT

This Premium High Performance Compensator Kit has been engineered with heavier springs and increased travel to support the high torque output associated with high compression & large displacement engines. Designed to outperform the Original Equipment compensator....Compensator features improved oil passages and a needle bearing thrust washer that improves the overall operation of the components.

- 94-100** Fits: 2006 and later Dyna / 2007-2013 Touring & Trike / 2007 and later Softail models.

SOLD AS KIT

- 94-101** Replacement Spring Pack

SOLD EA.

A. SOLID COMPENSATOR KIT 34T

These compensator sprockets reduce noise and improve engine starting along with starter life. Also aids in better throttle response and smoother shifting due to the reduction in weight. Easy to install, no other parts needed. Sold as kit, instructions included.

94-105 Solid compensator kit 34T, 2007-2016 Big Twin & 2006 up Dyna models.

94-106 M8 solid compensator kit 34T, 2017 & Later Big Twin

B. MILWAUKEE-EIGHT HIGH PERFORMANCE SPROCKET COMPENSATOR KIT

These M8 model sprocket compensator kits have been produced for high performance applications. Includes a heavy duty spring kit, CNC precision machined & polished parts that out-perform the OEM standard equipment.

94-107 Premium M8 sprocket compensator kit / Replaces OEM 40100076

C. PBI COUNTERSHAFT SPROCKETS

These high quality sprockets are machined on computer controlled lathes from solid high grade alloy steel. They are broached specially for maximum spline-to-shaft contact providing optimum load bearing and then are heat-treated for long life and extended wear resistance.

A. 5 SPEED CONVERSION TO CHAIN WITH OFFSET

Fits late 1994 & later but will also fit 1983 thru early 1993 if used with Midwest part No. **96-826** or OEM 33344-94 spacer, 12067A seal and 11165 O-ring. Use stock nut and lock plate Midwest part No. **94-381**.

.750 OFFSET — 530 CHAIN

- 94-1** With 21 tooth. SOLD EACH.
- 94-2** With 22 tooth.
- 94-3** With 23 tooth.
- 94-4** With 24 tooth.
- 94-5** With 25 tooth.

1.060 OFFSET — 530 CHAIN

- 94-6** With 23 tooth. SOLD EACH.
- 94-7** With 24 tooth.

B. BELT TO CHAIN CONVERSION KIT FOR WIDE TIRE

24 Tooth conversion kit allows for installation of up to 150 series tires. Can also be used for final drive ratio changes. The special offset sprocket and spacer moves the chain away from the tire. Kit fits Softail® models 1986 & later when using an FL rear chain sprocket. Fits FXR models 1985 & later when using an FXR rear chain sprocket.

94-284 Conversion kit. SOLD AS KIT

NOTE: Must use 1984 thru early 1994 transmission spacer OEM 33334-85 and seal OEM 12050 (our part No. **95-736**).

A. HYDRAULIC AUTOMATIC CHAIN TENSIONER

This automatic chain tensioner uses the oil in the primary as its own reservoir. It has its own pump and operates like a hydraulic lifter in the engine. Once you install it there is no need to adjust the primary chain again. It will hold up to engines over 100hp. It maintains a constant zero lash between acceleration and deceleration. No more chain slap inside expensive primary cases or excessive vibration.

5-234 Hydraulic chain tensioner SOLD EACH
for 1965 thru 2006.

B. M6 AUTOMATIC CHAIN TENSIONERS

BIG TWIN

The U.S.A. MADE M6 automatically adjusts the primary chain on Big Twin. Now you can have the proper chain tension during acceleration & deceleration with the big benefit of improved shifting. Other benefits include prolonged chain life & less vibration because of the constant control of the primary chain. Installation time needed is less than 1 hour.

5-158 Fits all Big Twin 1965-2000, including SOLD AS KIT
TC88® models.

5-153 Fits all Big Twin TC88® models 2001-2006. SOLD AS KIT

5-161 Fits Big Twin models 2007-later, SOLD AS KIT
& Dyna® 2006-later.

5-159 Replacement shoe only. Fits above kits. SOLD EACH

SPORTSTER®

The M6 chain tensioner, when installed in your primary case, automatically self-adjusts the tension on the primary chain to provide constant and even tension which improves your transition in gear shifting, reduces shifting noise, extends chain life and makes for a much smoother ride.

5-179 Chain tensioner for Sportster® with 4 speed, SOLD AS KIT
1977 thru 1990.

5-180 Chain tensioner for Sportster® with 5 speed,
1991 thru 2003.

ULTIMA® FINAL DRIVE CHAINS

Ultima® Chains are engineered to strict standards for use in high horsepower applications & offered in 120 link lengths or 25 foot rolls. 530 standard chain has an ultimate tensile strength of 7200 lbs. XBL, XLO & ENP chains have an ultimate tensile strength of 8900 lbs. Rollers, bushings & plates are designed for reduced wear & long lasting performance.

When removing or installing Ultima® Chains it is recommended that sprocket wear be checked at the same time & replace as necessary.

Ultima® Chains & components are not interchangeable with other chain manufacturers' products.

STANDARD = Durable carbon steel chain.

XBL = O-ring chain. Has oil impregnated bushings that provides the chain with lasting built-in protection. The need for periodic lubrication is reduced.

XLO = Ultima's top of the line O-ring chain that can sustain heavy workloads. Sealed lubrication to help reduce contamination.

ENP = Durable nickel plated O-ring chain. SOLD EACH

ULTIMA® 2" LATE MODEL PRIMARY BELT DRIVE

The Ultima® 2" Late Model belt drive has been designed to effortlessly transfer the torque & power of even the most brutal high horse power engines. We have taken our time tested & proven technology of clutch drive systems & applied it to this late model belt drive. Designed to fit 06-present Dynas & 07-present Softails® (except Breakout Model), this 2" belt drive will improve the look & performance of your motorcycle without emptying your pocketbook. Distinguishing features include a premium polished 6061-T6 billet aluminum backing plate, high performance Ultima® clutch plates, Ultima® 2" belt & stainless clutch basket inserts to eliminate clutch plate wear on the outer basket. 53T motor pulley & 72T transmission pulley. Not designed for use with mid-controls. Will work with floor-boards although some spacing may be required.

58-960 2" Late Model Belt Drive Billet Polished. 06'-Present Dyna, 07'-Present Softail®

58-990 2" Late Model Belt Drive Billet **Black**. 06'-Present Dyna, 07'-Present Softail®

ULTIMA® 2" EVO & TWIN CAM® SOFTAIL® PRIMARY BELT DRIVE

Midwest's commitment to engineering excellence and competitive pricing are very apparent in Ultima's 2" Old School belt drive assembly, where form and function meet. With High Performance Alto clutch plates and a 2" Goodyear belt, this high quality belt drive assembly will surely enhance the look and performance of any American motorcycle. Designed to withstand all the pavement pounding power you can throw at it, and with a more centered weight distribution this belt drive is a textbook example of getting the most "bang for your buck". **For Evo & Twin Cam® Softail® and custom applications.**

ULTIMA® EVO & TWIN CAM® SOFTAIL® 3.35" PRIMARY BELT DRIVES

ULTIMA DRAG RACE STYLE
PATENT# D,555,069

58-946

ULTIMA STREET STYLE

58-947

7

Ultima's 3.35" belt drive assembly revives the Old School drag race style primary drive at an affordable price. The Drag Race style unit with features like the out board bearing support, extra plate clutch assembly and Goodyear 85mm wide (3.35") belts was designed to handle all the power you can throw at it. If you need to keep some extra cash try out the street version which has all the same features without the added cost of the out board bearing support. The Street units feature the same machining as the Drag Race Style so they can be upgraded with outboard supports anytime. For Evo & Twin Cam® Softail® and custom applications.

*Instructions included and available online @ www.ultimaproducts.com.

2" DYNA® BELT DRIVE

Ultima Dyna® Beltdrive Kits fit both Evo and TwinCam 1990-2006 Dynas with no modifications needed. Looks have been revised with a smoother outline. The aluminum backing plate is billet 6061-T6. This will give your bike the unique look of an open beltdrive. The option for an outboard support is also available. Please check out the list of outboard supports that are offered for these models. *Instructions included and available online @ www.ultimaproducts.com.

ULTIMA® EVO & TWIN CAM® DYNA® & SOFTAIL® PRIMARY OUTBOARD BEARING SUPPORTS

OUTBOARD SUPPORTS FOR DYNA® & SOFTAIL® BELT DRIVES

Fits Dyna® Beltdrives and the revised Softail® Beltdrives using the 58-935 & 58-940 motor plates. Will not fit the older Ultima Softail® Beltdrives due to a difference in center to center distance.

All Outboard supports are CNC machined from billet aluminum and polished. Outboard option offers rigid support for pulleys as well as extra protection from the exposed moving belt. This is an obvious choice for those who prefer monstrous motors like the Ultima El Bruto series!

- 58-906 Outboard Plate only
- 58-907 Outboard Kit- (Kit is needed for Street Style upgrade and includes pulley covers, spacers, bolts, bearings, and bearing covers.)
- 58-908 Outboard Plate only
- 58-909 Outboard Kit- (Kit is needed for Street Style upgrade and includes pulley covers, spacers, bolts, bearings, and bearing covers.)

7

ULTIMA® 3.35" BELT DRIVE COVERS/GUARDS

Designed to compliment the look of our industry proven 3.35" Ultima Belt Drives, our Ultima pulley covers and belt guards can be used individually or can be combined to create "the look" you are seeking. All covers and guards come in a polished finish.

- A. 58-871 3" Quarter Grill pulley cover, Polished
- B. 58-936 3" Quarter Grill pulley cover, Black
- C. 58-873 3" Trim cut, belt guard
- D. 58-876 3" Smooth belt guard

ULTIMA® 2" BELT DRIVE COVERS/GUARDS

Designed to compliment the look of our 2" Old School Ultima Belt Drive, our 2" Ultima pulley covers and belt guards can be used individually or can be combined to create "the look" you are seeking. All covers and guards come in a polished finish with all the hardware necessary and instructions for installation.

- A. **58-878** 2" Quarter grill pulley cover, polished
- B. **58-937** 2" Quarter grill pulley cover, black
- C. **58-880** 2" Smooth belt guard
- D. **58-881** 2" Trim cut belt guard

7

BELT DRIVE UPGRADE JACK SHAFT ASSEMBLY FOR ULTIMA® & BDL® 3" OPEN PRIMARY FOR '89-'93 BIG TWIN

Jack shaft assembly for all Ultima® & BDL® belt drives using a 9 tooth gear. The spring on the pinion gear forces the gears to engage, stopping gear grind. For '89-'93 Big Twin.

58-634 2 Piece Jackshaft, 9 tooth pinion gear, jackshaft bolt, coupler & assorted spacers for proper fit.

REPLACEMENT FRONT PULLEY & INSERT FOR BDL 3" ELECTRIC START

58-538 1-3/4" Insert and special nut with screws. For 3" std pulleys.

GASKET MATERIALS

EST KITS

When you see this abbreviation in the description of a kit you can be assured that the best possible materials available are used for every gasket in that kit for that application. EST is short for, EXTREME SEALING TECHNOLOGY. These kits are more expensive than a standard kit for a reason; there is no compromise when we build these kits. These kits contain such materials as MLS head gaskets, Steel viton coated base gaskets, blue viton valve stem seals, AFM material, race style exhaust gaskets that won't fray into the port and the latest upgrades in new gasket technology and fit, such as the one piece Evolution rocker box base gasket made from our single layer .020" embossed viton coated steel. These are truly for the builder who demands that best and appreciates the long-term value for his or her dollar. EST kits are available in Complete Motor Kits and Top End Kits.

MLS™ (MULTI-LAYER STEEL HEAD GASKETS)

Ideal for both aluminum heads to cast iron blocks and aluminum heads to aluminum blocks. Two viton coated outer embossed spring steel layers with a steel inner layer that provides support to the gasket allowing multiple thickness. Withstands the shearing forces created by aluminum heads on cast iron blocks. Retains torque (once the gasket takes a torqueset, re-torquing is not required). Available thickness: .027", .030", .036", .040", .045", .051", .054", .050", .065", .074", .120"

AFM

Is the ideal gasket material for machined surfaces, especially when used between two uneven stamped surfaces that have been plated. AFM is a chemically blown, compounded nitrile synthetic rubber bonded to an aluminum core with temperature resistance of over 2500 F. AFM material has an 85% recovery while maintaining a strong torque retention. AFM does not require gasket sealers or silicone bead. Re-torque is NOT required. Available thickness: .018", .032", .045", .060"

CFM-20

A perforated steel core with an elastomer surface is ideal for head gaskets allowing heat to be drawn evenly across the gasket surface while providing maximum sealing characteristics when exposed to coolants and oils. Available thickness: .043", .051", .059"

SPRING STEEL

A stainless steel core with a .001" thick coating of viton rubber on both sides. Available thickness: .010", .014", .020"

ULTIMA® GAS TANKS

A. FAT BOB® STYLE GAS TANKS

These quality constructed tanks are designed to accept the standard or custom gas caps and use the standard late-model H-D® gas petcock. To give your late-model Harley® that authentic Fat Bob® look, these tanks are made to accept the stock dashes and also both FL & FX speedo equipment. 3.5 Gallon steel Fat Bob® gas tanks replace OEM 61216-69; 5 gallon gas tanks replace OEM 61230-69. Fits stock H-D® Fat Bob® frame & can be adapted to many other frames.

20-59 3.5 Gallon tank, standard cap.

SOLD AS PAIR

20-60 5 Gallon tank, standard cap.

20-62 3.5 Gallon tank, screw-in cap.

20-63 5 Gallon tank, screw-in cap.

20-62

B. FLAT SIDE FAT BOB® STYLE GAS TANKS

A complete line of flat side tanks fits models 1985 & later, in sizes & styles to satisfy everybody. Sleek custom 4.2 gallon stretched or 6.0 gallon for the long haul, and sizes in between. Made by the most experienced tank manufacturer in the industry. A small amount of bondo work is needed on stretched tanks to blend in weld lines. **NOTE:** Screw caps & aircraft caps must be ordered separately.

REGULAR TANKS

SOLD AS PAIR

20-65 5.0 Gallon tank for screw cap.

B

20-65

8

C

C. 2.2 ALIEN GAS TANK

These quality steel gas tanks comes undrilled at the mounting tabs. Early cam style gas cap & 3/8" or 1/4" NPT petcocks can be used.

Total length 18", total height 9", tunnel width 2.5".

20-40 2.2 Gal, single fill, Alien tank.

SOLD EACH

20-41 2.2 Gal, dual fill, Alien tank.

SOLD EACH

20-40

20-41

GAS TANK SPECIFICATIONS

All tanks have a special carburetor vent used on H-D® motorcycles. All tanks, except flush cap models, use our standard gas cap, part No. 21-6, or a standard H-D® gas cap.

X = 1/4" Female opening.

0 = 3/8" Female opening.

IMPORTANT GAS TANK INFORMATION

Carefully check your new gas tank for flaws. **DO NOT SAND OR GRIND SEAMS OR JOINTS.** Check petcock openings to make sure petcock can be installed easily. Clean inside of tank and always install a suitable gas tank sealer. **ALWAYS RUBBER MOUNT GAS TANK FRONT & REAR.** MIDWEST MOTORCYCLE SUPPLY DIST. CORP. is not liable for paint work or labor claims of any kind. If special paint jobs are put on tank, we recommend pressure testing prior to painting. We guarantee all tanks that we sell for a period of sixty days. Our guarantee is limited to the replacement of the tank only, and does not cover paint work or labor of any kind.

A. SOFTAIL® GAS TANKS FOR TWIN CAM®

5.1 Gallon capacity one piece custom tanks with dash mount. Left bung accepts OEM gauge.

2000 & LATER CARBURETED MODELS

20-110 For 2000 & later carbureted models. SOLD EACH

20-112 Same as above part No. **20-110** except with 2" stretch.

CHOPPER TANKS

Has a tunnel width of 2.5" and has 1/8-27 NPT holes for rear crossover. Weld-on mounts included.

B. SINGLE CAP 1 PIECE GAS TANK

4.5" STRETCH, 22-3/8" TUNNEL, 23" LENGTH, 4.7 GALLON

20-125 Screw-in cap. Gas cap not included.

C. SINGLE CAP STRETCH 1 PIECE GAS TANK

If you're building a 1984 thru 1999 Softail® style frame that has more stretch than a standard frame — this tank is for you. Holds approximately 3.8 gallons. The included chrome plated trick gas cap adds to the looks of this tank.

20-100 4" Stretch one piece gas tank. SOLD EACH

21-366 Replacement gas cap. SOLD EACH

D. STRETCHED & FLAT BOTTOM XL GAS TANKS

XL Gas tanks for 2004 - '06.

20-137 OEM type flat bottom tank w/center screw in cap. 3.3 gallon. SOLD EACH

20-139 2" stretch tank w/center screw in cap. 4 gallon.

E. RUBBER MOUNTED "BIG CAPACITY" GAS TANKS FOR SPORTSTER®

Classic style with increased gas volume make these tanks a winner! 3.4 Gallon capacity. Rubber tank mounts help prevent vibration stress. Tank has rolled edges and includes bolt-in aircraft quality gas cap, as well as mounting hardware. More miles between gas stops with good looks too! (Paint not included.)

20-98 For 1982 thru 1993 Sportster®.

20-99 For 1994 & later Sportster®.

F. SOFTAIL® GAS TANK FOR 2000 & LATER

20-111 Softail® Gas tank for 2000 & later carbureted models with two locking flush mount caps (included).

A. REGULAR TUNNEL SPORTSTER®STYLE GAS TANK

Pressure tested under water. Utilizes stock H-D® gas cap & petcock. Tank has Tillotson tube vent if needed.

2.3 Gallon tank. Tunnel 3-1/2" high x 2" wide. Tank 17" long x 9-1/2" wide.

20-20 1954 thru 1978 SOLD EACH

3.1 Gallon tank. Tunnel 3 1/2" high x 2" wide. Tank 17" long x 10-3/4" wide.

20-53 1954 thru 1978. SOLD EACH

20-61 1979 thru 1981.

20-66 1982 thru 1993.

B. LOW TUNNEL STEEL SPORTSTER®STYLE GAS TANK

Great looking tank has mid & rear petcock openings and Tillotson tube vent if needed. Finest quality, no ripples or die marks. Fully tabbed. Use stock H-D® gas cap.

20-51 3.5 Gallon tank. Tunnel 1" high x 2-3/4" wide. Tank 21" long x 10-1/2" wide. SOLD EACH

C. FAT BOB® STYLE GAS TANKS FOR SPORTSTER®

3.8 Gallon tanks include improved rubber mounts front and back. Screw style caps must be ordered separately.

20-93 3.8 Gallon with smooth top. Fits 1982 thru 1993. SOLD EACH

20-94 3.8 Gallon with FL style dash and base plate. Fits 1982 thru 1993. Dash accepts the larger FL speedometer and has no ignition switch hole, so re-wiring is not necessary.

D. STRETCHED SMOOTH TOP TANK

4.2 Gallon tanks fit 1984 thru 1999 Softail®. Necessary mounting hardware included. No welded tips. Some finishing will be needed due to seam in middle. Also some stock and custom seats may not match up to tanks due to 3" stretch.

20-101 Tank with single right side aircraft style cap. SOLD EACH

E. XL '07-'14 OEM STYLE EFI GAS TANK

3 Gallons, 1 Gas cap center opening.

20-141 Tank with center gas cap opening. SOLD EACH

F. 6 GALLON LATE MODEL TANK

Fits '08-'17 FLHT/FLTR

20-102 6 Gallon tank with hardware & center cap. SOLD EACH

A. MOUNTING KIT FOR FAT BOB® TANKS

Kit includes all necessary hardware to mount 1984 & earlier tanks.

21-136 SOLD AS KIT

B. MOUNTS FOR FAT BOB® TANKS

Replacement Fat Bob® tank mounts; can also be used on custom frames where mounts did not exist.

5-64 Front lower bracket. SOLD EACH

C. MOUNT FOR FLAT SIDE GAS TANKS

Includes all necessary hardware to mount 3.5 or 5 gallon flat side gas tank.

5-181 Mounting kit. SOLD AS KIT

D. GAS TANK MOUNTING GROMMETS FOR SOFTAIL®

Molded rubber grommets for mounting flat side gas tanks on Softail® models 1984 & later.

5-165 Grommet. Replaces OEM 11447. SOLD AS PKG OF 6

E. RUBBER MOUNTS

Rubber mount and stud, with steel side plates, for battery box and oil tank. Can be used for many custom applications.

5-80 1/4 - 20 Threaded studs. OEM 62563-65. SOLD EACH

5-133 5/16 - 18 Female one side with 5/16 - 18 male opposite side. OEM 50235-63.

5-133

F. SWITCH & COIL RELOCATION KITS FOR SPORTSTER® 1995 & LATER

5-245 Ignition switch & coil relocation kit. SOLD EACH

5-246 Coil relocation bracket.

5-246

G. ONE-PIECE MOUNT FOR FAT BOB® STYLE GAS TANK

This one-piece bracket for mounting our Fat Bob® tanks or OEM tanks will work on either custom frames or OEM frames where the brackets have been torched off. Once you have the tanks positioned right where you want them, this bracket can be welded on for even stronger support.

5-135 One-piece Fat Bob® style tank mounting bracket kit. SOLD AS KIT

H. EARLY FRAME FLAT SIDE TANK MOUNT KIT

Kit makes it possible to install late model flat side gas tanks with rubber isolators on Big Twin 1958 thru 1984 Big Twin frames. Includes necessary brackets, hardware and instructions. **NOTE:** Welding is required.

5-194 Flat side tanks to early frame kit. SOLD AS KIT

I. GAS TANK MOUNTING HARDWARE

5-160 Chrome gas tank mounting flatside hardware kit. Fits 91'-99' Softails® w/split tanks. SOLD AS KIT

J. HEAVY DUTY RUBBER MOUNTS

Heavy duty rubber mounts for oil tanks, battery trays and other applications. The rubber body conceals an internal wound spring that's welded to the end plates.

5-132 1/4 - 20 Threaded stud on both sides. SOLD EACH
Replaces OEM 62563-65.

5-134 5/16 - 18 Female on one side, 5/16 - 18 male on opposite side. Replaces OEM 50235-63.

A. GAS TANK MOUNTING KITS

Chrome plated custom acorn nuts, washers and stud.

5-237 Kit to mount gas tank on Softail® 2000 & later. **SOLD AS KIT**

5-238 Kit to mount gas tank on Softail® 1984 thru 1999.

Chrome plated custom acorn nuts, washers, studs, spacers and grommets.

5-239 Kit to mount gas tank on Sportster® 1996 & later. **SOLD AS KIT**

B. LOCKABLE FLUSH MOUNT GAS CAPS

GAS CAP SET

Replacement flush mount cap set as used on our gas tanks.

21-365 Locking gas cap set (right & left) with keys. **SOLD AS SET**

SINGLE VENTED CAP

Replacement flush mount cap as used on our gas tanks.

21-366 Locking vented gas cap with keys. **SOLD EACH**

C. STOCK STYLE GAS CAPS

For American type filler neck. Use on late 1936 thru 1972 H-D® models.

21-6 Vented gas cap, OEM 61103-36. **SOLD EACH**

21-118 Non-vented gas cap, OEM 61103-65.

D. LATE STYLE GAS CAPS

For screw-in style tanks. Chrome finished plastic body.

21-171 Left (non-vented). OEM 61103-83. **SOLD EACH**

21-172 Right (vented). OEM 61102-83A.

E. STOCK STYLE GAS CAPS

For American type filler neck. Use on late 1973 thru 1982 H-D® models.

21-38 Vented gas cap, OEM 61102-73. **SOLD EACH**

21-107 Non-vented gas cap, OEM 61103-73A.

F. SLIM-LINE CHROME BILLET GAS CAPS

Knurled edges for easy removal. Slim-line design keeps a nice, flowing line on the top of your tanks.

21-322 Slim-point style, vented & non-vented. **SOLD AS PAIR**

21-323 Slim-point style, vented. **SOLD EACH**

21-324 Slim-smooth style, vented & non-vented. **SOLD AS PAIR**

21-329 Slim-smooth style, vented. **SOLD EACH**

G. AIRCRAFT GAS CAPS

Flush mounted aircraft caps with flip-up cap & lock are designed to work with all aircraft cap style tanks and can be used on custom set-ups if you want to modify your present tanks.

21-274 Bolt-in caps, vented and non-vented. **SOLD AS PAIR**

21-275 Bolt-in cap, non-vented. **SOLD EACH**

21-276 Bolt-in cap, vented. **SOLD EACH**

78-100 Replacement gasket. **SOLD EACH**

21-303 Replacement screws; 12 per package. **SOLD AS PKG.**

A. CHROME PLATED STEEL LATE STYLE GAS CAPS

Chrome plated steel matched with the new low pressure relief vent. Will work on late (1985 thru 1991) gas tanks.

- 21-249** Left (non-vented). OEM 61103-83. SOLD EACH
21-250 Right (vented). OEM 61102-83A. Also fits single cap models except FLT, FLTC, FLHT & FLHTC.

A. HIGH FLOW CUSTOM PETCOCKS

Chrome plated custom petcocks fit 1975 & later. 3/8" spigot outlet; 13/16" nut.

21-370 Round body, outlet facing right. **SOLD EACH**

21-371 Round body, outlet facing down.

21-372 Round body, outlet facing rear.

21-137 Hex body, side down outlet.

21-138 Hex body, front outlet.

21-158 Hex body, rear outlet.

B. OEM STYLE PETCOCKS

These H-D® new style petcocks are engineered without O-rings to insure against gas leakage while providing maximum flow. Has filter screen and a reserve. Fits H-D® 1975 & later and custom gas tanks with external 13/16" NPT. OEM 62163-75.

21-106 With straight outlet. **SOLD EACH**

21-134 With 90° outlet.

21-261 Replacement filter, short. Replaces OEM 62162-75.

Same features as petcocks 21-106 & 21-134, except fits H-D® tanks thru 1974 and custom gas tanks with internal 3/8" NPT connection. OEM 62125-55B.

21-160 With straight outlet. **SOLD EACH**

21-141 With 90° outlet.

21-262 Replacement filter, 1-3/4" long. Replaces OEM 62096-69. Chrome reproduction of 1975 thru 1992 OEM gas valve. Complete with chrome 13/16" nut and nylon mesh filter screen.

21-251 Straight down outlet petcock. OEM 62129-75T. **SOLD EACH**

21-252 Left side outlet petcock.

21-253 Right side outlet petcock.

21-261 Replacement filter, short. Replaces OEM 62162-75.

IMPORTANT PETCOCK INFORMATION

Petcock openings in our tanks are either 3/8" or 1/4" NATIONAL PIPE THREAD, the same thread used in iron water pipe. The actual size of the hole in the tank is approximately 3/4" for the 3/8" NPT and 1/2" for the 1/4" NPT. Pipe thread is used because the thread is designed to seal against leakage as the petcock is screwed into the tank. It is not possible to screw the petcock all the way in flush with the gas tank.

C. PETCOCK FOR SPORTSTER®

With reserve shut off, built in gas line spigot and filter screen. OEM 62125-55.

21-23 For 3/8" petcock opening in any style gas tank. **SOLD EACH**

21-262 Replacement filter, 1-3/4" long. Replaces OEM 62096-69.

D. PETCOCK VACUUM VALVE BY-PASS KIT

Ever been going down the road and your bike sputters and quits, leaving you in the middle of nowhere? It happens when your diaphragm on your petcock ruptures. Now you can forget about it! Install the bypass kit — no more diaphragm. Comes with instructions and all necessary parts.

21-10 Fits all H-D® models equipped with late diaphragm petcock. **SOLD EACH**

A. ALUMINUM FUEL FILTERS

This is a premium quality hi-strength unit. Its alloy case is impervious to vibration, heat & shock, and its compact size makes it simple to install on practically any bike. The replaceable bronze filter element eliminates the tiny particles of dirt, rust and grit from the fuel that cause clogging & excessive wear. **SOLD EACH**

- 21-195** Red fuel filter, 1/4".
- 21-196** Blue fuel filter, 1/4".
- 21-197** Black fuel filter, 1/4".
- 21-198** Chrome fuel filter, 5/16".
- 21-199** Red fuel filter, 5/16".
- 21-201** Black fuel filter, 5/16".

B. VINYL GAS LINE

Open mesh nylon braiding has been incorporated within walls of clear vinyl, producing a pliable tubing which will not shrink or harden. Excellent for both fuel and oil lines, this rugged tubing will withstand high temperatures and pressures up to 750 psi. Highly resistant to gas, oil, and custom blended fuels.

- 79-10** 1/4" I.D. Vinyl gas line. **25 FT. ROLL**
- 79-11** 5/16" I.D. Vinyl gas line.

C. REINFORCED BLACK RUBBER FUEL & OIL LINE

- 79-12** 1/4" I.D., sold by the 25' roll. **SOLD EACH**
- 79-13** 5/16" I.D., sold by the 25' roll.
- 79-14** 3/8" I.D., sold by the 25' roll.

D. CHROME BILLET FUEL FILTERS

Chrome billet peak flow fuel filters with 304 S.S. filter element.

- 21-203** Chrome billet fuel filter for 3/8" fuel line. **SOLD EACH**
- 21-204** Chrome billet fuel filter for 5/16" fuel line.

E. VIEW-THRU FUEL FILTER

Aircraft type with life long washable filter. 1-1/4" Diameter x 2" long. Pyrex glass body.

- 21-177** View-thru filter for 1/4" fuel line. **SOLD EACH**
- 21-178** View-thru filter for 5/16" fuel line. **SOLD EACH**
- 21-615** View-thru filter for 3/8" fuel line. **SOLD EACH**
- 21-68** Replacement filter kit for above fuel filters. **SOLD AS KIT**

F. VIEW-THRU FUEL FILTER KIT

This fuel filter is fully serviceable & has a removable filter screen which makes cleaning easy. The multi fitting kit makes installation trouble free. Kit has 3 different size fittings included which can be used as required, 1/4", 5/16" & 3/8" fuel line fittings.

- 21-616** Short chrome filter with multi black hose fitting kit. **SOLD AS KIT**

G. FUEL LINE CLAMP

This is a screw type clamp.

- 21-1** For use with all sizes of our fuel and oil line. Fits 7/32" thru 5/8". **SOLD EACH**

H. FUEL/OIL LINE SEPARATOR

Chrome plated die cast separator for routing gas lines, oil lines and 3/8" or 5/16" I.D. stainless steel braided lines.

- 21-265** Separator. **SOLD EACH**

A. THUNDERMAX FOR 02-07 TOURING® MODELS

ThunderMax is an industry award winning, performance ECM designed specifically for EFI equipped Harley Davidson® motorcycles. This highly advanced, stand-alone tuning system utilizes proprietary AutoTune technology with wide-band oxygen sensors to deliver unmatched performance and rideability. ThunderMax comes 100% assembled, ready to install with no wire-cutting or splicing required. Simply replace the factory ECM and oxygen sensors, load a map, and enjoy your new ride! Mfg.# 309-460.

53-442 Thundermax performance ECM, 02'-07' Touring

B

B. DYNATEK FUEL INJECTION CONTROLLER

The Dyna Fuel Injection Controller is a plug in module that offers 3 user selectable base fuel curves that are designed to improve engine operation and can be modified to suit a wide variety of modifications. These adjustments are made via 3 potentiometers that adjust the fuel curve in the proper ranges for the application. Fuel mixture can be enriched or leaned as required. The Dyna FI Controller uses the factory connectors for easy installation and there is no PC required for tuning or adjusting the fuel curves. There are no modifications to the stock ECU and removing the Dyna FI controller returns the vehicle to the factory configuration.

53-685 1997-1998 Harley-Davidson Touring models with Evo engine.

C

C. DAYTONA TWIN TEC TWIN TUNER FUEL INJECTION CONTROLLER

Features

- Allows easy fuel trim adjustments to increase horsepower and throttle response.
- Makes adjustments to match the requirements of performance camshafts, free flowing exhaust, low restriction air filters, etc.
- Easy plug-in installation and setup.

NOT LEGAL FOR SALE OR USE in the State of California

53-238 Twin Tuner fuel injection controller, for 2001-2007 Twin Cam® 88 with Delphi system.

D

D. DAYTONA TWIN TEC TWIN TUNER 2 FUEL INJECTION CONTROLLER

- Has all the features of the original Twin Tuner and includes ignition timing control capability.
- Can use your Dynojet Power Commander maps.

NOT LEGAL FOR SALE OR USE in the State of California

53-270 Twin Tuner 2 fuel injection & ignition controller, for 2001-2011 Twin Cam® 88 with 36 pin Delphi system.

53-271 Twin Tuner 2 fuel injection & ignition controller, for 2008-2012 Twin Cam® touring models with 73 pin Delphi system.

A. TCFI 4 FUEL INJECTION CONTROLLER

Features:

- Simultaneously auto-tune fuel curves for front and rear cylinders under actual riding conditions with new WEGO IIID dual channel wide-band oxygen sensor interface
- Fully programmable plug-in replacement for 36 pin Delphi® controller. Not compatible with 2008-2012 touring models with electronic throttle control, or 2011-2012 Softail® and 2012 Dyna® models with CAN data bus.
- Robust alpha-N fuel control eliminates problems with long duration/high overlap camshafts
- Powerful Windows software for custom programming and data analysis
- Full support for J1850 data bus used for communications with turn signal security module (TSM/TSSM) and instrument cluster on 2004-2012 models.
- Supports for new 6th gear indicator on 2007-2012 models.
- Supports all sensors including theft/security module.

NOT LEGAL FOR SALE OR USE in the State of California

- 53-426** Fits 2001-2011 Twin Cam® using 36 pin Delphi System with J1850 data bus. Not compatible with 2008-2012 touring models or 2011-2012 Softails®.

B. TCFI 6 FUEL INJECTION CONTROLLER

Features:

- Fully programmable plug-in replacement for the 73 pin controller with J1850 data bus used on 2008-2013 touring models with electronic throttle controller.
- Offers real-time and continuous auto-tuning with monitoring, control and override
- Built in extended data logging. Data FLASH memory stores full 60 minutes of operating data at 10 samples/second.
- Two programmable user inputs for functions such as two stage RPM limiter, nitrous retard, and shift kill.
- Two programmable user outputs for functions such as shift light, nitrous activation, and electric shifter.
- Easy to install. Just replace stock ECM and O2 sensors and follow the detailed instructions.

NOT LEGAL FOR SALE OR USE in the State of California

- 53-470** TCFI 6 Fuel Injection Kit for 2008-2013 touring models with J1850 data bus.

C. WEGO 3 DUAL DISPLAY WIDE BAND AIR/FUEL RATIO SYSTEM

- Input for optional customre supplied flex fuel sensor. A switch under the sensor 2 LED allows selection of normal AFR display or 0-100% ethanol display.

NOT LEGAL FOR SALE OR USE in the State of California

- 53-471** WEGO 3 System with AFR display
53-472 WEGO 3 System with Lambda display

Features:

- Displays Lambda or correct AFR values for any hydrocarbon fuel with a known stoichiometric ratio.
- Versatile tuning aid for all carbureted and fuel injected motors. Displays AFR and logs over 2 hours of data. Including two channels of AFR, engine RPM, and a spare 0-5V analog input for sensors such as throttle position or manifold pressure.

A. STAINLESS STEEL BRAIDED CROSSOVER FUEL LINES

Midwest offers these custom crossover fuel lines. **Midwest crossover fuel line meets D.O.T. specification FMVSS-106 — approved for street use — 50 state legal.** High performance #5 stainless braided hose gives you the custom look you want with the performance feel you demand. Lines incorporate an inner liner and chrome plated fittings. Top quality hose and fittings are attractively packaged to make these parts fly off the shelf. And a budget price tops off the complete program!

- 71-176** 1993 & Later Dyna Glide®. OEM 63690-00A. **SOLD AS KIT**
- 71-178** 2000 & Later Softail® FXSTD. OEM 63694-00.
- 71-179** 1986 Thru 1999 Softail®. OEM 63696-00A.
- 71-180** 1997 & Later touring models. OEM 63698-02.

B. FUEL INJECTION LINES

An upgrade over stock kit. Flex lines are clear or black PVC coated stainless steel braided with chrome steel hard line and fittings. All components are resistant to chemicals found in gasoline.

- 71-100** Fuel line, EFI, Clear, 02-06 Bagger, 01-16 Softail®, 04-16 Dyna®
- 71-101** Fuel line, EFI, Black, 02-06 Bagger, 01-16 Softail®, 04-16 Dyna®
- 71-102** Fuel line, EFI, Clear, 08-15 Bagger
- 71-103** Fuel line, EFI, Black, 08-15 Bagger
- 71-104** Fuel line, EFI, Clear, 07-16 Sportster®
- 71-105** Fuel line, EFI, Black, 07-16 Sportster®

C. ULTIMA® EVO EFI THROTTLE BODY SPACER

- 78-114** EFI Throttle Body Spacer, .130"

ULTIMA® FLANGE MOUNT MANIFOLDS

ROUND 1.800 PORT MANIFOLDS

- 69-141** Fits Ultima® 100/107/113 CI engines for use w/S&S® G, (247 length), & Ultima® R1 carbs.
- 69-142** Fits Ultima® 120 & 127 CI engines for use w/S&S® G, (259 length), & Ultima® R1 carbs.
- 69-144** Fits Ultima® 120 & 127 CI engines for use w/S&S® D Carb. (259 length)

EVOLUTION & TWIN CAM® MANIFOLDS

- 69-96** For 80" Evolution engines 84'-99'. With voes vacuum port only. S&S® E & Ultima® R2 carbs.
- 69-125** For 80" 84'-99' Evolution & 99'-later Twin Cam® engines. With voes & map sensor vacuum port. S&S® E & Ultima® R2 carbs.

SPORTSTER® MANIFOLDS

- 69-94** For 86'-03' Sportster®. With voes vacuum port. S&S® E & Ultima® R2 carbs.

SHOVELHEAD MANIFOLDS

- 69-241** Fits stock height Shovelhead & Ultima® 96" Shovelhead motors. Works with O-ring or band style seals. S&S® E & Ultima® R2 carbs.
- 69-242** Fits Shovelhead motors. +.200" length cylinders. Works with O-ring or band style seals. S&S® E & Ultima® R2 carbs.

ULTIMA® PERFORMANCE CARBURETOR

Ultima®'s performance carburetors are directly interchangeable with S&S® Super G and Super E Carburetors. Ultima® carburetors will accept S&S® jets and S&S® bolt pattern air filter assemblies & manifolds.

**RELOCATED ACCELERATOR
PUMP NOZZLE**

**THUNDERJET
BOLT ON!**

PATENT#D638,857

Patented design improvements - a relocated accelerator pump nozzle for increased throttle response and **THUNDER JETS** are a bolt on! Simply remove the plugs and screw in the Thunder Jet. No expensive machining required! Installation & tuning instructions available online at www.ultimaproducts.com.

NOTE: Not intended for street use.
Competition use only.

CARBURETOR ONLY, POLISHED FINISH.

- 42-91** Ultima® R1, S&S® Super G® Replacement
- 42-90** Ultima® R2, S&S® Super E® Replacement

Available separately. Flange style intake manifolds for Ultima® motors 1.800" id port runner.

- 69-141** Ultima® 100/107/113 C.I.
- 69-142** Ultima® 120/127 C.I.
- 95-133** 1.800" dia. intake to head O-ring seals (2 required)

A. ULTIMA® THROTTLE CABLE BRACKET

Ultima® throttle cable brackets are offered in two popular applications for use with Ultima® & S&S® carburetors. Mounting screw included.

42-190	Bracket, short 1936-1989	SOLD EACH
42-191	Bracket, tall 1990-later	SOLD EACH

B. ULTIMA® CARBURETOR ENRICHENER

The Ultima® Carb Enrichener is a direct replacement for the stock enrichener assembly. This stand-alone enrichener is typically used when mounting air cleaners other than the stock Ultima® air cleaner. Stepped design allows for partial enrichening when not as much fuel is needed to warm up/start your engine. **Meant for use with Ultima® R1 & R2 carburetors only.** Will not work on S&S® carburetors.

42-89	Ultima® Carburetor Enrichener	SOLD EACH
--------------	-------------------------------	-----------

C. ULTIMA® INSULATOR BLOCKS

The Ultima® insulator blocks can be used with Ultima® R1, R2 & S&S® Super E® & Super G® carburetors.

78-112	Ultima® Insulator block, Ultima® R1 & S&S® Super G®, .255" thick.	SOLD EACH
78-113	Ultima® Insulator block, Ultima® R2 & S&S® Super E®, .255" thick.	SOLD EACH

D. ULTIMA® CARB GASKET

The Ultima® carburetor gaskets can be used with Ultima® R1, R2 & S&S® Super E® & Super G® carburetors. Installs between carburetor & air cleaner assembly.

78-600	Ultima® Carb Gasket, Ultima® R1, R2, S&S® Super E® & S&S® Super G®	SOLD EACH
---------------	--	-----------

E. ULTIMA® CARB SPACER

The Ultima® carburetor spacer can be used with Ultima® R1, R2 & S&S® Super E® & Super G® carburetors. Installs between carburetor & air cleaner assembly, when additional spacing is required. .255" thick billet aluminum.

42-99	Ultima® Carb Spacer, Ultima® R1, R2, S&S® Super E® & S&S® Super G®	SOLD EACH
--------------	--	-----------

F. THUNDERJETS

The ThunderJet is a jetable, externally mounted third fuel circuit that improves the performance of 2 circuit carbs such as the Ultima®, S&S®, Keihin and Bendix. Thunderjet kits come with complete installation & tuning instructions and extra jets. Fits butterfly-type, Ultima®, CV, Keihin and Bendix carbs, and all models of S&S® carburetors. Some machining to the carb bowl and body is required.

For Ultima® R-1		
39-424	Red Thunderjet.	SOLD AS KIT
39-425	Blue Thunderjet.

INTAKE SEAL

- 42-302 42mm Intake Rubber Seal
- 42-303 45mm Intake Rubber Seal
- 42-305 48mm Intake Rubber Seal

NOTE: Intake seal is same seal as used w/o spacer.

8

ULTIMA® MANIFOLD MEASURING INFORMATION

To take the guess work out of intake manifold selection, Ultima® has devised a way to measure an intake manifold that doesn't require added specialty tools, and best of all, its easy. To determine which intake manifold you need, set the manifold on a flat surface on either of the intake ports, then measure from the flat surface up to the shortest point on the other intake port as shown in the following figure. Multiply this measurement by 100 to get the intake manifold number. For instance, if the intake manifold is set on the flat surface, and the measurement to the shortest point on the opposite port is 2.47, then the intake manifold number you will need is a number 247. Measurement to part# cross reference chart can be found on the following page. It is that easy!

PLEASE NOTE:

This system was devised for intake manifold with port O.D.'s of 1.88". Please check the diameter of the intake ports on the manifold you are measuring. If the manifold has a stock O.D. of 1.81", subtract .030" from the measurement taken to get the number for the Ultima® manifold. For instance, if a manifold with a port O.D. of 1.81" is measured using the Ultima system, and the measurement comes to 2.59", then the Ultima® manifold needed will be 2.56", or a number 256.

ORIGINAL MIKUNI HSR SERIES CARBURETOR KITS

HSR Carbs use stock H-D® throttle cables. The latest 42/45/48mm smoothbore carbs install quickly using the original stock throttle cables. The HSR flatslide carb delivers excellent throttle response and improved rider control. The smoothbore allows the engine to reach its full power potential, so you accelerate and pass with confidence. You'll get good gas mileage and many years of dependable, carefree performance. These kits cover more models with fewer part numbers. Kits include instructions and hardware for each application.

A

**TOTAL
KIT**

A. TOTAL KITS

These Kits are complete with everything needed for a total installation. Kits include an HSR 42mm or 45mm carburetor, new performance manifold, rubber flange, high flow K&N filter, chrome cover, breather kit, and mounting hardware. Stock throttle cables from 1990 & later models can be used. **NOTE:** 1984 thru 1989 Evolution® models will need new cables from a similar 1990 thru 1995 model.

HSR42 KITS

- 42-153** Fits 1340cc Big Twin Evolution® models 1984 thru 1999. Includes breather kit for 1993 & later models. **SOLD AS KIT**
NOTE: 1984 thru 1989 models require cables from 1990 thru 1995 models.
- 42-252** Fits Twin Cam® 88/95 1999 & later. Includes new breather kit for Twin Cams®. **NOTE:** Use your stock throttle cables. **SOLD AS KIT**

B

**EASY
KIT**

B. EASY KITS

These kits are designed to work with your original H-D® intake manifold, choke cable, air cleaner and throttle cables. You can run other high performance air filters designed for the CV type carb by using the special adapter included in the kit. **SOLD AS KIT**

- 42-152** Fits Big Twin 1340cc Evolution® models 1990 thru 1999 with stock CV type manifold. Includes 42mm carb, airbox adapter, and chrome cover.
- 42-156** Fits Big Twin 1990 thru 1999 and Twin Cam® 1999 & later. Includes 42mm carb, airbox adapter and instructions. Evolution® uses Screamin' Eagle® air cleaner, Twin Cam® uses the stock oval cover.

8

C

HSR42/45

C. INDIVIDUAL HSR42/45 CARBURETORS

For the performance engine builder needing the carburetor only for specific custom applications. Available in standard aluminum finish or the polished version. (Note: Choke cable is included, except TM42-6 which will use stock choke cable from CV type carb).

- 42-422** HSR 42mm Carburetor, standard finish **SOLD EACH**
42-423 HSR 42mm Carburetor, polished finish
42-424 HSR 45mm Carburetor, standard finish
42-425 HSR 45mm Carburetor, polished finish
42-527 HSR 48mm Carburetor, standard finish
42-528 HSR 48mm Carburetor, polished finish

D. CRANKCASE HEAD-BREATHER KITS

For the installation of HSR Carburetor Kits using the Mikuni K&N high flow filter on Big Twins and Twin Cams®.

- 42-447** To mount HSR42/45 carb and filter to Evo Big Twins, includes the new chrome banjos, vent bolts and brackets. **SOLD AS KIT**
- 42-448** To mount HSR42/45 carb and filter to Twin Cam® engine, includes the new chrome banjos, vent bolts and brackets. **SOLD AS KIT**

D

A. CARB REBUILD KITS FOR HSR 42/45/48

All the necessary parts and gaskets to freshen up an HSR carb. Includes needle valve assembly, O-rings, gaskets and screws.

- 42-445** Rebuild kit for HSR42/45 carb w/4.2 needle valve & exploded view instructions. SOLD AS KIT
42-446 Rebuild kit for HSR48 carb w/4.5 needle valve & exploded view instructions. SOLD AS KIT

B. O-RINGS FOR HI-FLO CARB BACKING PLATE ADAPTERS

REPLACEMENT O-RINGS FOR PLATE ADAPTERS

For Part#69-122

- 69-001** Carb-side o-ring.

C. ORIGINAL MIKUNI OPTIONAL & REPLACEMENT PARTS

- 42-426** Short idle screw adjuster (optional). Uses standard spring.
42-427 Long idle cable adjuster (standard). Spring not included.
42-428 Choke cable, enricher.
42-429 Air box adapter, adapter only for CV carb.
42-431 O-Ring seal for airbox adapter.
42-432 Airbox adapter kit, includes air box adapter, o-ring seal & hardware
42-433 Chrome airbox adapter kit, chrome version of **42-432**
42-434 Rubber flange adapter, early 42mm black w/stainless steel clamp.
42-435 Rubber flange adapter, early 45mm black w/stainless steel clamp.
42-436 Rubber flange adapter, 42mm black w/stainless steel clamp.
42-437 Rubber flange adapter, 45mm black w/stainless steel clamp.
42-438 Rubber flange adapter, 48mm black w/stainless steel clamp.
42-439 Intake manifold for HSR42/45 mm, Evo style w/o hole.

D. MIKUNI ACCESSORIES

ALL PARTS SOLD EACH

- 42-440** Intake manifold for HSR42/45 mm, Twim Cam style w/ MAPS hole.
42-441 Air filter, K&N 2.5", standard in kits, washable.
42-442 Air filter, K&N 3.0", high performance, washable.
42-449 Chrome carb top w/o Mikuni logo.

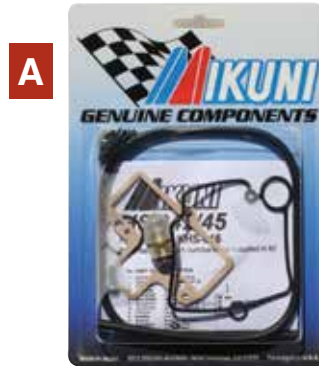

E. REBUILD KITS FOR ZENITH (BENDIX) CARB

- 39-525** Complete kit for pre-1976 FL, FX & XL. OEM 27132-71. Imported. SOLD AS KIT

F. BENDIX CARBURETOR PARTS

ALL PARTS SOLD EACH

- 39-23** Throttle stop screw spring for 38mm (OEM 27613-71)
21-207 1/8 NPT X 1/4 Male spigot for 38mm (OEM 63578-52)
78-111 Carburetor bowl gasket for 38mm (OEM 27646-71)
95-143 Rubber O-ring for main jet for 38mm (OEM 27326-71)

A. NO-HASSLE JET KITS FOR CV CARBS

No kidding — your Granny could tune your stock Keihin CV carb with this kit. No drilling of the slide. Just wind-in the new tapered needle and choose from the slow and main jets provided. You won't think it's the same carb. Includes complete instructions to fine-tune for air cleaner, exhaust, or cam change.

- 39-450** Kit for 1989 thru 1999 Big Twin SOLD AS KIT
except Twin Cam 88™.
- 39-446** Kit for 1988 thru 1999 XL 1200 except 1997 thru 1999 1200S.
- 39-447** Kit for 1988 thru 1999 XL 883.
- 39-448** Kit for 1994 thru 1998 Buell S1, S2/T, S3/T, M2, and 1997 thru 1999 XL1200S.
- 39-449** Kit for 1999 & 2000 Big Twin and Twin Cam 88™, with CV carb.

97-273 Pilot jet removal/installation tool for above No-Hassle jet kits. SOLD EACH

B. ALLEN SCREWS FOR S&S® CARBURETORS

Chrome plated. Gardner Wescott.

- 41-948** For S&S® Super "B" — 7 pieces. SOLD AS KIT
- 41-950** For S&S® Super "E" & "G" Shorty — 48 pieces.
- 41-951** Air cleaner cover screws with phillips head.
Fits all S&S® models — 3 pieces.
- 41-952** Air cleaner cover screws with allen head.
Fits all S&S® models — 3 pieces.

39-539 HD CV slow jet assortment. 9 sizes (5 of each).

39-540 HD CV main & slow jet assortment in plastic case. 14 main/9 slow sizes (2 of each).

A. THUNDERJET

The ThunderJet is a jetable, externally mounted third fuel circuit that improves the performance of 2 circuit carbs such as the Ultima®, S&S®, Keihin and Bendix. In a performance application, the tuner generally encounters problems jetting the carb to give good, crisp mid-range response and still have strong top-end power. The answer? The ThunderJet, a high speed circuit, delivering needed fuel to the engine at higher rpms (4500 & up).

Engine pulses control ThunderJet's fuel delivery so that the correct amount of fuel goes to the engine under all types of conditions.

Thunderjet kits come with complete installation & tuning instructions and extra jets. Fits butterfly-type, Ultima®, CV, Keihin and Bendix carbs, and all models of S&S® carburetors. Some machining to the carb bowl and body is required. This is the cheapest horsepower your dollar can buy!

For Ultima® R-1 and S & S "G" carburetors.

- 39-424** Red Thunderjet. SOLD AS KIT
39-425 Blue Thunderjet.
39-426 Black Thunderjet.

For Ultima® R-2, Bendix, and S & S "B" and "E" carburetors.

- 39-409** Red Thunderjet. SOLD AS KIT
39-410 Blue Thunderjet.
39-411 Black Thunderjet.
39-418 Satin Alum. Thunderjet.

For Keihin carburetors.

- 39-421** Black Thunderjet. SOLD AS KIT
39-422 Polished Alum. Thunderjet.

B. KEIHIN ALLEN SCREW KITS

Replaces all float bowl screws. Wrench included.

- 41-419** Keihin carb on Big Twin 1976 thru 1989 and XL 1976 thru 1987. Gardner Wescott. SOLD AS KIT
41-946 Keihin CV carb on Big Twin 1990 & later and XL 1988 & later. Gardner Wescott.

66-84

G**COLONY**

A. AIRCRAFT QUALITY T-BOLT BAND CLAMPS

For 74", 80" and Sportster®, these band clamps employ heat treated 1/4"-28 plated steel T-bolts with plated steel locknuts for excellent strength, weatherability and ease of assembly. A crimped-in-place, flanged, floating bridge remains centered over the hose in the opening between clamp ends during tightening. A smooth inner band prevents cutting or bulging and allows greater torquing capability than conventional worm gear clamps. The band also assures an equalized 360° clamping force around the hose for tight connections.

O-ring type clamps for 1955 thru early 1978.

- 66-45** Clamps only. SOLD AS PAIR
95-760 O-ring seal. OEM 27060-55. SOLD AS PKG

Rubber band type clamps for late 1978 thru 1984.

- 66-99** Clamps only. SOLD AS PAIR
95-321 Rubber band seal. OEM 27062-78. SOLD EACH

66-99

B. MANIFOLD FLANGE MOUNTING HARDWARE & SEALS FOR EVOLUTION®

- 69-90** Front mounting flange. OEM 27009-86B. SOLD EACH
69-91 Rear mounting flange. OEM 27010-86B. SOLD EACH
69-900 Mounting Flange Kit for Evo® & Sporster® SOLD AS KIT
69-901 Mounting Flange Kit for Ultima® and S&S® SOLD AS KIT

Manifold mounting seal ring kit for Evolution® Big Twin & Sportster® with metal manifolds, 1989 & later.

- 95-403** Manifold seal kit. Replaces OEM 26995-86A SOLD AS KIT
 (includes 2), and OEM 27002-89 (includes 1).
78-210 Intake manifold seals. OEM 26995-86A. SOLD AS PKG. OF 10.

If you have ever removed the manifold on 1986 & later Sportster® or 1990 & later Big Twin you will instantly understand why you need this kit. The use of 12-point heads allows much easier access to the bolt in this confined area. Our bolt kit will work on all years Evolution®'s but is especially helpful on the years mentioned above. Any time you change or work on carbs, use this kit to replace the stock allen bolts.

- 41-945** Chrome plated, 12-point head flange bolts, four per kit. Replaces OEM 3201W. SOLD AS KIT

Knurled allen screws and washers mount intake manifold to cylinder head

- 41-148** Chrome manifold hardware for Big Twin & XL 1995 & later. Colony. SOLD AS KIT

C. CRANKCASE VENT FILTERS

Quiets breather system and filters impurities from entering the lower end of the motor. Helpful on models 1975 & later without stock air cleaner. 2-1/2" Dia. x 1-1/2" high with steel baseplate and 3/8" O.D. hose fitting.

- 12-212** Vent filter with rubber top. K&N. SOLD EACH
12-213 Vent filter with chrome top & mounting stud. K&N.

THE WORLD'S BEST AIR FILTER

D

A. CRANKCASE BREATHER ASSEMBLIES

Chrome plated die cast zinc base with 5/16" inlet. The included hose clamp holds the filter with attached lightweight chrome top in place. Easily installed.

- 12-241** Complete crankcase breather assembly. SOLD EACH
- 12-266** Replacement filter only for part No. **12-241** above. With chrome die cast top.
- 12-242** Economy crankcase breather with black rubber top. Mount bracket **NOT** included. SOLD EACH

B. THRU-THE-HEAD CRANKCASE BREATHERS

This kit is used when installing custom air cleaners that don't have provisions for thru-the-head crankcase venting. Can be routed to back side of new filter or used with crankcase vent filters.

- 12-281** Fits Big Twin 1993 thru 1999. Replaces OEM 29308-93 & 29310-93. SOLD AS KIT
- 12-282** Fits Sportster® 1991 & later. Replaces OEM 29281-91.

C. HAYDEN KRANK VENT PLUS

More than simply venting your crankcase fumes, the Krank Vent Plus, when installed on your engine breather hose, controls the air under the pistons by maintaining the proper amount of vacuum in the crankcase at any RPM. This prevents the engine from working against itself and prevents blown or weeping gaskets. You'll gain an added benefit of 2 to 7% increase in usable rear wheel horsepower. A better seal is achieved due to an increased pressure differential across the compression rings. The engine sounds deeper and is more powerful with a quicker throttle response. The unit also snaps open for easy cleaning.

- 21-307** Krank Vent Plus. SOLD EACH

D. AIR MIXTURE SCREW PACKING KIT

Fits all Harley, Keihin & CV style carburetors. Contains poly-acrylic o-ring, packing washer & stainless steel spring. **MADE IN USA.**

- 39-310** Air mixture packing kit. SOLD AS KIT

E. MANIFOLD INSULATING SPACER

This spacer fits between intake manifold and carb keeping unwanted heat, which can cause vapor lock, away from the carb. Also helps performance by keeping gas cooler for better atomization. The spacer is 7/16" thick. Includes a gasket for both sides. Large center hole is 1-11/16" I.D. Mounting holes are 2-3/4" center to center.

- 78-151** Fits Bendix and Keihin flange mount carburetors. OEM 29250-78A. SOLD EACH
- 78-403** Gasket only. OEM 27077-78. SOLD AS PKG. OF 10

A. K&N CUSTOM AIR FILTERS FOR H-D®

These K&N custom air cleaners were designed to fit H-D® motorcycles equipped with various carburetors. The K&N air cleaners are not street legal nor recommended by the Harley-Davidson® Motor Co., Inc. The K&N custom air cleaners can increase horsepower with proper carburetor calibration. **PROUDLY MADE IN THE U.S.A.**

TO ORDER: Locate the MIDWEST part number to the left of the K&N number, after finding the desired style & application. **YOU MUST ORDER BY THE MIDWEST PART NUMBER.**

APPLICATION	5" DIA. OPEN ROUND		6" DIA. CHROME BONNET

B. K&N STOCK REPLACEMENT AIR FILTER ELEMENTS

FOR ALL STREET LEGAL MOTORCYCLES:

K&N Replacement Air Filters are designed to fit right in the standard OEM airbox. No modifications are required by the owner, no jet changes or adjustment to the carburetors is anticipated or suggested. Customer modification of the standard airbox — removing the cover, drilling holes in side or top — will have a drastic effect on smooth carburetion. Modifications will cause the system to run lean and reduce horsepower. **KEEP IT STOCK** and the new K&N Replacement Element will be good for the life of the engine. Service every 50,000 miles. **YOU MUST ORDER BY THE MIDWEST PART NUMBER ONLY!**

CUSTOM ROUND OIL TANKS

These custom steel oil tanks can be used on Softail® or rigid applications. They are 6-1/2" diameter and 11-3/4" long. Battery box is built in on all tanks except the universal applications. Available in center fill or side fill, chrome or raw metal. Tanks for wide Softails® have shorter "wings" for swing arm clearance. Use stock Softail® style rear mount. Front mount, filler cap and fittings are included (except Twin Cam® and universal applications).

3.5 QUART OIL TANKS FOR 1984 THRU 1999 SOFTAIL® OR RIGID FRAMES

6-1/2" Diameter, 11-3/4" long.

FLAT	DESCRIPTION
26-204	Side fill, chrome plated.
26-205	Side fill, raw metal.
26-206	Center fill, chrome plated.
26-207	Center fill, raw metal.

3.5 QUART OIL TANKS FOR TWIN CAM® SOFTAIL®

6-1/2" Diameter, 11-3/4" long. **NOTE:** Twin Cam® tanks require removal of coil bracket and relocation of coil. Also requires custom oil lines.

- 26-210 Side fill, chrome plated.
- 26-211 Side fill, raw metal.

3.5 QUART OIL TANKS FOR WIDE SOFTAIL® FRAMES

6-1/2" Diameter, 11-3/4" long.

FLAT	DESCRIPTION
26-200	Side fill, chrome plated.
26-201	Side fill, raw metal.
26-202	Center fill, chrome plated.
26-203	Center fill, raw metal.

4 QUART OIL TANKS FOR CUSTOM UNIVERSAL USE

5-1/2" Diameter, 11-3/4" long. NO BATTERY TRAY.

- 26-208 Side fill, chrome plated.
- 26-209 Side fill, raw metal.

UNIVERSAL OIL TANK ACCESSORIES

- 5-286 Drain plug, magnetic.
- 5-287 Oil tank front rubber mount 5/16-18 stud & 5/16-24 stud.
- 5-288 Front oil tank mount.
- 5-289 Front oil tank mount.
- 5-290 Oil tank mounting kit.
- 5-308 Front oil tank mount for Ultima® frames & custom mounting applications.

A. ULTIMA® OIL TANKS FOR SOFTAIL®

This late style, smooth top (no weld seam), 4 spigot oil tank fits all Softail® models 1984 thru 1999. Replaces stock FXST oil tank. Order mounting bracket separately. Replaces OEM 62498-89A & 62498-91.

- 26-112** Chrome oil tank, side fill. SOLD EACH
- 26-114** Bare metal oil tank, side fill.
- 26-127** Chrome oil tank with extended sides, side fill.
- 26-220** Chrome oil tank, center fill.
- 26-221** Bare metal oil tank, center fill.

B. OIL TANK FOR SPORTSTER®

Chrome plated oil tanks for Sportster® models.

D. ORIGINAL H-D® STYLE OIL TANK

These tanks are original OEM reproductions except for 2 important modifications. The first & probably most important was to find a grade of steel much stronger than the original for all brackets. The two places where the holes are mounted have a pressed-in support washer for added strength to prevent splitting, thus eliminating fatigue. The second was to chrome plate these tanks except for part No. **26-109** which is unchromed for painting. Each tank comes with a filler cap & necessary mounting hardware. **SOLD EACH**

26-107 Fits 1936 thru 1957 rigid frame Big Twin. Side fill.

26-108 Fits 1936 thru 1964 rigid frame Big Twin. Center fill.

26-109 Same as above part No. **26-108** except bare metal (not chrome) for painting.

21-188 Filler cap with dip stick only. For center fill tank. OEM 62625-36.

26-109

Fits: FLHR '12-'16 / FLHRC '12-'13 / FLHTC 2012 / FLHTCU '12-'16 / FLHTCUL '15-'16 / FLHTK '14-'16 & 2012) / FLHTKL '15-'16 / FLHTKSE '14-'16 / FLHX '12-'16 / FLHXS '14-'16 / FLTRU '12-'13 & 2016 / FLTRX '15-'16 & '12-'13 / FLTRXS '15-'16 / Trike FLHTCUTG '12-'16 & FLRT '15-'16 Models.

- 21-64** Oil Dipstick with chrome cap. SOLD EACH

A. OIL DIPSTICK WITH TEMP GAUGE

Black oil dipstick w/white face.
Non liquid filled. 50-350°F.

21-546 For 2017 - 2018 FL models.

B. DIGITAL FACE HD® DIPSTICK

Verify oil level and temperature fast! The digital face reads your bike's vital signs with ease and on the go. 1 Step install with no wiring. Power is a CR2032 battery. For F° or C°.

21-308 Black Oil Dipstick with digital face.
For 2007 - 2016 Touring models.

C. COMBINATION OIL TANK CAP & DIPSTICK

Here are two functional decorative items for H-D® oil tanks. These combination filler cap & dipsticks will fit stock H-D® tanks 1936 thru 1964 and all accessory tanks with 1-1/4 - 20 thread.

21-72 Colony. Hex size & shallow crown are similar to a Knucklehead Knuckle Nut. Packaged complete with O-ring. **SOLD AS KIT**

21-188 Duplicate of OEM 62625-36 with dipstick. Chrome. **SOLD EACH**

D. OIL TEMPERATURE DIP STICKS

These highly accurate gauges with black face / white numerals quickly respond to oil temperatures up to 350°F and give a continually accurate reading of the motor oil temperature, enabling the rider to tell at a glance if the oil is overheating, and by how much. Made to fit into oil tank in place of present cap. **SOLD EACH**

21-90 Fits 1965-1991 OEM and custom side fill tanks. Except Dyna®, XL & Softail®. Dipstick length is 5-1/8". OEM 62635-79T & 62666-87T.

21-91 Fits 1982-2003 XL and 1984-1999 Softail®. Dipstick length is 2-5/8". Replaces OEM 62667-87T & 62668-87T.

21-92 Fits Softail® 2000-2012. Replaces OEM 62845-00A.

E. OIL TEMPERATURE DIP STICKS

Temperature gauge surrounded by very good chrome; quality Japanese manufacture. Fits into oil tank in place of stock cap.

21-305 Fits Big Twin 1970 thru 1984 with square type oil tank, FXR 1984 thru 1994, FLT 1987 thru 1992, Sportster® 1970 thru 1978, and many custom oil tanks. Probe length is 4". Replaces OEM 62635-79T. **SOLD EACH**

21-306 Fits Softails® 1984 thru 1999 and Sportster® 1982 & later. Probe length is 2-5/8". Replaces OEM 62668-87T.

21-361 Fits Softail® 2000 & later. Replaces OEM 62896-00.

F. OLD STYLE OIL FILTER ASSEMBLY

Fits Big Twins 1940 thru 1964. Will also work on any H-D® V-Twins.

25-116 Paper style oil filter element. **SOLD EACH**

G. MAGNETIC DRAIN PLUG

Magnetic drain plugs have been proven to add to the life of your engine and transmission by removing metal particles from the oil. Cheap insurance! Cad plated.

41-163 Replaces OEM 734. 1/8 - 27 NPT hex head. **SOLD EACH**
Used for various aftermarket oil tank drain plugs and 1987 thru 1989 Big Twin inner primary.

A

A. "CLOSE CLEARANCE" OIL PUMP FITTING

For use in close clearance applications where standard 90° elbows won't work. 5/16" Allen on top lets you get good tight fit. Male thread is 1/8" NPT, female 1/8" NPT.

- 21-440** Fitting 1/8 NPT for close clearance 90°.
- 21-123** Vent line fitting 1/8 NPT, OEM 63578-52-straight.
- 21-181** Oil tank fitting 1/8 NPT, for use with 3/8" oil & fuel lines - straight. SOLD EACH

B. CUSTOM STAINLESS STEEL BRAIDED OIL LINES

Midwest offers these custom oil lines. Midwest oil line meets D.O.T. specification FMVSS-106 — approved for street use — 50 state legal. High performance #6 stainless braided hose gives you the custom look you want with the performance feel you demand. Lines incorporate an inner liner and chrome plated fittings. Top quality hose and fittings are attractively packaged to make these parts fly off the shelf. And a budget price tops off the complete program!

CHROME PLATED

B. STAINLESS STEEL BRAIDED HOSE

This stainless steel braided hose is of the same premium quality hose used by many top racing teams. Quality hose is demanded because of its unique combination of professional appearance, extreme flexibility and unexcelled reliability under the most stringent racing conditions.

- 71-139** 7/32" I.D. x 7/16" O.D. #4 gas line. SOLD PER FT
- 71-140** 11/32" I.D. x 17/32" O.D. #6 gas or oil line.

C. STAINLESS STEEL BRAIDED HOSE

Economical alternative stainless steel braided hose.

GAS LINE — 1/4" I.D. X 1/2" O.D.

- 71-141** 6' Roll. SOLD AS ROLL
- 71-142** 10' Roll.
- 71-143** 20' Roll.

GAS/OIL LINE — 3/8" I.D. X 5/8" O.D.

- 71-144** 6' Roll. SOLD AS ROLL
- 71-145** 10' Roll.
- 71-146** 20' Roll.

D. OIL DRAIN VALVE

Oil drain valve designed to eliminate spillage when changing oil. Installed in oil tank in place of drain plug with 5/8 - 18 threads, a rubber hose is pushed over the spigot to route waste oil to a container, avoiding the usual mess. Retighten spigot, pull off hose, refill with oil and you're ready to go. No clean-up or fishing for the drain plug in the bottom of the drain pan. Made of machined aluminum.

- 21-239** Oil drain valve, 5/8 - 18. SOLD EACH

E. OIL LINE FITTINGS

Duplicate of original oil pump fittings on 74" 1936 thru 1964. Can be used with many custom oil tanks (with 1/8" N.P.T. female threads) to convert to male nipples so stainless braided lines can be used.

- 21-111** Fits Pan & Knuckle 1936 thru 1964. SOLD AS SET

F. HOSE ENDS FOR STAINLESS STEEL BRAIDED HOSE

Chrome plated custom hose ends. Can be used on all types of gas and oil lines including stainless steel braided hose.

GROOVED PART NO.	HEX PART NO.	TO FIT I.D. HOSE SIZE	SOLD AS PACKAGE OF SIX
21-315	21-263	1/4"	
21-316	21-264	3/8" & 5/16"	

G. FUEL/OIL LINE SEPARATOR

Chrome plated die cast separator for routing gas lines, oil lines and 3/8" or 5/16" I.D. stainless steel braided lines.

- 21-265** Separator. SOLD EACH

8

8

A. HOSE ENDS & NIPPLES FOR STAINLESS STEEL BRAIDED HOSE

This is an economical, functional & durable hose end system for use with our part No. 71-140 stainless steel braided hose. Easily assembled, these ends & nipples have many applications where safe, reliable, professional appearing plumbing is needed for street & show.

- 21-147 Straight end. 9/16 - 18 Female thread. **SOLD EACH**
 21-148 90° Elbow. 9/16 - 18 Female thread
 21-149 180° Elbow. 9/16 - 18 Female thread.

B. SPECIAL ADAPTER FITTINGS FOR STAINLESS STEEL BRAIDED HOSE ENDS

- Nipple — pipe thread.
 21-150 1/4" NPT — to 9/16 - 18 fittings. **SOLD EACH**
 Elbow tube - pipe thread.
 21-152 1/4" NPT — to 9/16 - 18 fittings. **SOLD EACH**
 Elbow 45° tube - pipe thread.
 21-154 1/4" NPT — to 9/16 - 18 fittings. **SOLD EACH**

C. HOSE ENDS FOR STAINLESS STEEL BRAIDED HOSE

Hose ends dress up a stainless steel braided hose installation and cover a greater length of hose than standard clamps, providing greater support. If the hose end is used with an uncovered rubber hose, the support provided tends to reduce the amount of vibration wear usually found at the edges of the worm gear clamp, resulting in a longer lasting connection. The interior grooving of the hose end prevents the hose from "hanging up" on the clamp and assures proper placement of the worm gear type clamp in the hose end. Available in red or chrome. **SOLD EACH**

RED CHROME TO FIT ABOVE

PART NO.	PART NO.	HOSE PART NO.
21-145	21-173	71-139 Gas line.
21-146	21-174	71-140 Gas/oil line.

D. RENEGADE -BLACK- STAINLESS STEEL OIL LINE FITTINGS FOR H-D®

Utilizing their exclusive Twilight Black finish, Renegade offers that traditional black hose appearance coupled with the technology of their Powerflex hose for superior performance.

ADAPTER FITTINGS

- 21-540 #6 Male flare to 1/4" male NPT 45°.

E. OIL FILTER MOUNTING BRACKETS

- 25-85 For FL & FX swingarm, 1965 thru 1985. **SOLD EACH**

A. MICROGLASS OIL FILTERS

These microglass spin-on oil filters are a breakthrough in technology. The new synthetic media stops particles dead in their tracks! Fits all 99'-present Twin Cam® and EVO 1340 models as an upgrade for any motorcycle that requires OEM# 69796-77A, 63805-80A, 63812-90 & 63813-90

- 25-68 Microglass, spin-on oil filter. Chrome, w/nut. SOLD EACH
- 25-69 Microglass, spin-on oil filter. Chrome, plain. SOLD EACH

B. FRAM EXTRA GUARD OIL FILTERS

Cellulose and Synthetic glass media provides 3X MORE engine protection than the average of leading economy oil filters.

- 25-128 Fits all 1994-2010 XL models. Black. SOLD EACH
- 25-129 Fits all 1994-2010 XL models. Chrome. SOLD EACH

C. OIL FILTERS FOR INDIAN MOTORCYCLES

- 25-175 Oil filter, Indian® '99-'12 chrome SOLD EACH
- 25-176 Oil filter, Indian® '14-'16 chrome SOLD EACH
- 25-177 Oil filter, Indian® '14-'16 black SOLD EACH

D. OIL FILTERS FOR VICTORY MOTORCYCLES

- 25-178 Oil filter, Victory®, chrome SOLD EACH
- 25-179 Oil filter, Victory®, black SOLD EACH

E. OIL FILTER ELEMENT FOR SUZUKI & ARCTIC CAT MODELS

- 25-160 Oil filter element, Emgo# 10-79100. SOLD EACH

F. STOCK REPLACEMENT DISPOSABLE OIL FILTER

Fast & easy replacement. Even easier than a spin-on filter. Simply remove old filter, drop in the new filter, replace the cap and the job is done. no messy canisters to wash or parts to assemble.

These oil filters contain their own built-in relief valve system.

- 25-86 Fits all 74" & 80" models 1965 & later, except FLT & FXR. Also fits XL models 1954-1978. SOLD EACH

NOTE: The use of canister cap dip sticks used on 1970 & earlier FLH and XL models is not possible with this filter. We recommend removing the dip stick and checking the oil level visually with the filter removed.

B. ULTIMA® REPLACEMENT OIL FILTER ELEMENTS BIG TWIN, K MODEL & SPORTSTER®

NOTE: Filter OEM 63840-48 was installed as original equipment by the H-D® factory on all models listed from 1948 thru 1953. It was offered in retrofit kit form for the earlier applications listed. **SOLD EACH**

25-77 Paper type K Model/Sportster® 1952 thru 1979. Big Twin 1953 thru 1983.

C. ULTIMA® REUSABLE BILLET LIFETIME OIL FILTERS

Reusable billet lifetime oil filters. **THE LAST OIL FILTER YOU WILL EVER BUY FOR YOUR BIKE!!!** High Performance Stainless Steel Micron Oil Filter with Billet Housing.

The cleanable unit will filter smaller particles than paper filters. This filter also pre-cleans the oil by grabbing metal particles with 3 high powerful magnets, and then it filters the oil by utilizing a fine stainless steel woven mesh element to catch particles as small as 25 microns.

Using this filter increases engine horsepower by 2% to 3% by allowing oil to flow more freely which reduces oil levels in the engines sump thereby reducing oil/flywheel obstruction. The filter also has a pressure by-pass valve to prevent high oil pressure conditions caused by extremely cold weather and really dirty oil.

This Filter lasts a life time, and cools the motor oil as it works by the outside air flowing passed the finned filter. Fitment is as follows;

ALL HD BIG TWIN EVO's

ALL TWIN CAM's 1999 TO PRESENT

ALL SPORTSTER MODELS LATE 84' AND LATER

25-80 Reusable, lifetime oil filter, black. **SOLD EACH**

25-81 Reusable, lifetime oil filter, chrome. **SOLD EACH**

A. STAINLESS STEEL OIL PRESSURE GAUGES

These oil pressure gauges are precision made to ISO standards. Each gauge is glycerin filled and tested for accurate readings. Outer case is made from stainless steel and internal parts are quality brass.

- 57-20 Black oil pressure gauge 60 PSI / 4Bar SOLD EACH
- 57-21 White oil pressure gauge 60 PSI / 4Bar

B. OIL PRESSURE GAUGES

Oil pressure gauges, "engine turned" faces, available in 60PSI & 100PSI. Liquid filled.

- 57-11 100PSI oil pressure gauge. SOLD EACH

C. CHROME OIL PRESSURE GAUGE BRACKET

Oil pressure gauge bracket fits Big Twin Evolution® 1984 & later.

- 21-321 Chrome plated mount. SOLD EACH

D. OIL PRESSURE GAUGES & FITTINGS

High quality liquid filled oil pressure gauges with 1/8" NPT male fitting on back. Can be used on any motorcycle when proper fittings are used. See below for fittings offered.

- 57-87 60 PSI oil pressure gauge. SOLD EACH
- 57-102 100 PSI oil pressure gauge.

Oil gauge fitting to fit H-D® 74" & 80" motors 1970 & later except motors with crossover pipes. Additional are fittings required. Kit comes with motor base fitting, O-ring and 45° fitting with 1/8 pipe female end.

- 21-180 Complete kit. SOLD AS KIT
- 21-182 Base only. SOLD EACH
- 21-183 45° Fitting only. SOLD EACH

Straight 1/8 pipe. Male x female adapter. Chrome plated brass.

- 21-184 SOLD EACH

1/8 Pipe, 90° street elbow. Male x female. Chrome plated brass.

- 21-185 SOLD EACH

1/8 Pipe, 90° female elbow. Brass.

- 21-186 SOLD EACH

Pipe 1/8" x 1-1/2" long, 1/8 pipe threads on both ends.

- 21-190 Chrome pipe. SOLD EACH

Pipe 1/8" x 3" long, 1/8 pipe threads on both ends.

- 21-191 Chrome pipe. SOLD EACH

NOTE: For Sportster® oil gauge mounting use part No. 21-185 and 21-186 fittings and part No. 21-190 or 21-191 pipe depending on length needed to extend gauge.

A. OIL GAUGE MOUNTING KIT FOR EVOLUTION® BIG TWIN

This kit brings the oil gauge into view by mounting a line to the rocker box. Complete with chrome plated adapters. Use with gauge part No. **57-87** or **57-102**.

21-211 Fits all Big Twin 1984 & later.

SOLD AS KIT

B. OIL GAUGE ADAPTER PLUG

Replace the oil screen plug with this adapter and you now have an alternate location to mount an oil pressure gauge. Especially useful on alternator case shovelheads.

21-108 Oil gauge fitting

SOLD EACH

C. OIL GAUGE & SWITCH FITTINGS FOR EVO®

One fitting lets you mount an oil gauge with the proper viewing angle in place of the stock electric switch. The other fitting is the same except you can run the gauge and retain the electric switch. (This way you can monitor oil pressure and still keep the warning light.) Use our part No. **57-87** 60 PSI or **57-102** 100 PSI oil gauges found on page 8/47.

21-237 Fitting for oil gauge only.

SOLD EACH

21-238 Fitting for oil gauge when used with the electric switch.

ULTIMA® SINGLE FIRE PROGRAMMABLE IGNITION KIT

9

PROGRAMMABLE FEATURES (PC)

- Ignition module can be used Single Fire or Dual Fire by switch and appropriate coil (Dual Fire Coil available separately)
- 8 Point fully definable wide open throttle curve.
- 8 Point fully definable part throttle curve.
- Rev limit programmable in 50 rpm steps.
- Programmable dead cranking revs 0 - 10.
- Programmable rear cylinder offset, total of +/- 10°.
- Programmable rev limiter.
- Separate programmable break-in rev limiter.

DATA RECORDING FEATURES

- Total engine hours.
- Time at wide open throttle.
- Number of engine starts (two minutes running time counts as one start).
- Longest time operating at wide open throttle.
- Maximum rpm.
- Seconds near rev limit.
- Statistical analysis of time at rpm.

Ultima® products offers the finest USA made electronic ignition system, packaged with the finest coil, at a very competitive price. These systems feature an industry standard electronic module with programmed curves suitable for all engines up to our monster 140 C.I. Other features: Intelligent overvoltage / overcurrent protection. Adjustable retard timing. Short circuit protection. Ignition kit includes single fire coil that puts out over 45,000 volts with fast rise times and high energy.

NOTE: Programmable features and data recovery features require programming software available as download*.

*Instructions included and available online @ www.ultimaproducts.com.

53-660 Complete Ultima® programmable ignition kit **SOLD AS KIT**

53-644 Ultima® programmable ignition module only. **SOLD EACH**

53-644K* Ultima® programmable ignition module only.

Pre programmed for kick start bikes. "0 dead revs".

SOLD EACH

53-642 Programming Kit (USB port) for DFA & 2000i Apps for above ignitions. Programming link for ignition module sold separately.

SOLD EACH

53-662 Programming link for ignition module.

SOLD EACH

ULTIMA® SINGLE/DUAL FIRE EXTERNAL PROGRAMMABLE IGNITION KIT

53-626

COMPLETE IGNITION KIT
(sold as pictured)

53-625

IGNITION MODULE.
(sold as pictured)

The Ultima® Complete External Ignition Kit is 50 states street legal (ARB E.O. No. D-641-1) for use with the following carbureted Harley-Davidson® motorcycles with a nose cone capable of accepting an ignition pick up assembly:

- All 1970-1999 Evolution 1340cc Big Twin
- 1971-2003 Sportster

Verify that you are using the supplied timing rotor or utilize the stock H-D® P/N 32402-83.

The Ultima® external ignition offers adjustable advance, adjustable RPM limit settings in 100 RPM increments, and switch selectable single or dual fire modes. Single fire mode improves starting, reduces the occurrence of backfiring at low RPM, and improves power at high RPM. A red status LED flashes when the engine reaches top dead center (TDC) and allows easy static timing. The status LED also provides diagnostic information. A green VOES LED illuminates when the VOES (vacuum switch) input is active.

INCLUDED PARTS

All 53-625 kits include an Ultima® external ignition module, camshaft position sensor, adapter harness, mounting stand offs with screws, and a parts bag with 4 pin male/female connector/pins/sockets along with Packard Weather Pack connectors for single fire coil and tachometer hookup. All 53-626 kits have the same components as 53-625 plus an Ultima® Single Fire Coil and Ultima® universal plug wires.

*Instructions included and available online @ www.ultimaproducts.com.

- 53-626** Complete Ultima® external programmable ignition kit **SOLD AS KIT**
53-625 Ultima® programmable ignition module, pickup & rotor only.

ULTIMA® ELECTRONIC IGNITION KITS

53-1

53-2

ELECTRONIC IGNITION KITS

No programming needed. These kits Fit Big Twin 1970 thru 1999 Evolution® and Sportster® 1971 thru 1995. Kits include: module, coil, wires & advance

53-1 Single fire ignition kit : fires each cylinder individually — no power waste.

53-2 Dual fire ignition kit: same as stock, fires both plugs simultaneously.

***Note:** Blue wire = power, White wire = trigger.

9

53-49

53-50

ULTIMA® ELECTRONIC IGNITIONS

Fits Big Twin 1970 thru 1999 Evolution® and Sportster® 1971 thru 1995, when using mechanical advance unit part No. **53-245** or **53-244**. Instructions available at www.ultimaproducts.com

53-49* Dual fire ignition: same as stock, fires both plugs simultaneously. Use our part No. **53-452** coil or equivalent.

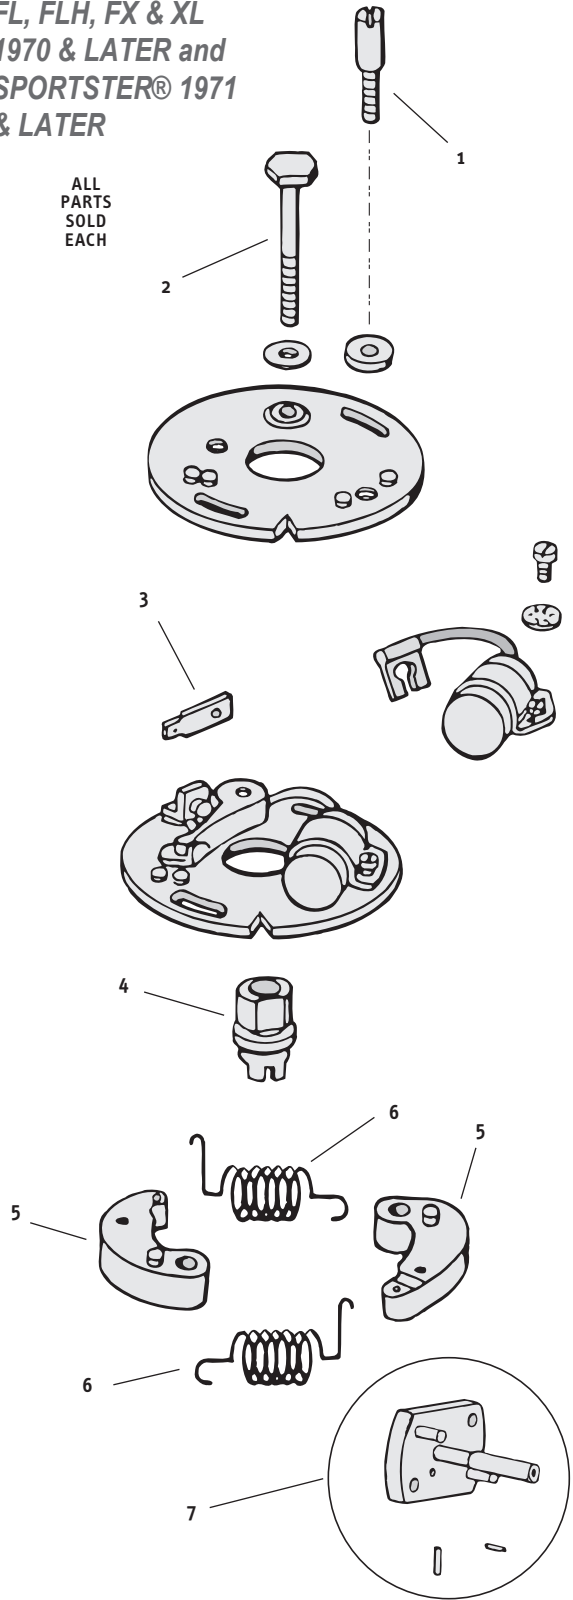

***Note:** Blue wire = power, White wire = trigger.

53-50 Single fire ignition: fires each cylinder individually — no power waste.

53-401

A. DYNA S ELECTRONIC IGNITIONS

These ignitions improve overall performance and provide perfect ignition timing once and for all. You only have to set it once, when it is installed. Dyna ignitions have been used by top drag and road racers to set new records and win numerous championships over the past decade. The Dyna S is a complete self-contained electronic ignition system built with the latest engineering design. This unit is completely housed behind the ignition cover and uses a magnetic rotor with the original spark advancer, so the factory advance curve is maintained. The Dyna S, available in single or dual fire versions, is factory warranted for three years.

Fits Big Twin 1970 and later and Sportster® 1971 & later with mechanical advance unit.

NOTE: Please purchase part No. **53-404** tach adapter to retain tachometer when using single fire ignition system.

53-389 Dual fire ignition system.

SOLD EACH

53-390 Single fire ignition system

53-404 Tach adapter.

B. DYNA 2000 DIGITAL IGNITION SYSTEM

The Dyna 2000 digital ignition system for H-D®, which has become the standard for performance and versatility in the H-D® aftermarket, has been enhanced to include even more features. there are two modules available, the DD2000-HD1E, which operates in single fire or dual fire modes and the DD2000-HD2E, which operates in dual fire only. these modules include expanded advance curve functionality with the option to use vacuum advance compensation via a VOES switch. The modules also include a special Retard Mode for use with turbocharged and nitrous bikes. **NOTE:** Programmable features and data recovery features require programming kit sold below

The Dyna 2000 allows selection between four different advance curves. The modules offer a quick curve which simulates a mechanical advancer for hot rod motors. There are also four independent rev limiter settings from 6000 to 7500 rpm. The new retard mode allows selection of ignition retard of 5, 7, or 10 degrees upon activation of retard input.

Dyna 2000 ignition modules use the stock factory pick-up and simply plug into the existing factory wiring harness on 1991 & later bikes. An extension harness is available for installing the Dyna 2000 on 1990 & earlier bikes. The modules should be used with coils in the range of 2.5 to 3 ohms primary resistance and should run with carbon core type suppression spark plug wires. The Dynatek DD2000 digital systems can be used with your stock coil, but Dynatek recommends Dyna® ignition coils with matching ignition wires for better results and maximum performance.

53-399 Ignition system, single / dual fire, 7 pin.

SOLD EACH

53-419 Ignition system, single / dual fire, 8 pin.

53-400 Ignition system, dual fire, 7 pin.

53-420 Ignition system, dual fire, 8 pin.

53-401 Extension harness.

These Dyna® Programming kits must be used to access programmable features and data recovery on the above ignition systems. SOLD EACH

53-659 Programming kit for above part No. **53-419, 53-520.**

A. DYNA 2KiP IGNITION FOR H-D®

The dual featured D2KiP has all the selectable features of its predecessor, the D2Ki. Other features: Intelligent overvoltage / overcurrent protection. Adjustable retard timing. Short circuit protection. **NOTE:** Programmable features and data recovery features require programming kit sold below.

PROGRAMMABLE FEATURES (PC)

- 8 Point fully definable wide open throttle curve.
- 8 Point fully definable part throttle curve.
- Rev limit programmable in 50 rpm steps.
- Programmable dead cranking revs 0 - 10.
- Programmable rear cylinder offset, total of +/- 10°.
- Programmable rev limiter.
- Separate programmable break-in rev limiter.

DATA RECORDING FEATURES

- Total engine hours.
- Time at wide open throttle.
- Number of engine starts (two minutes running time counts as one start).
- Longest time operating at wide open throttle.
- Maximum rpm.
- Seconds near rev limit.
- Statistical analysis of time at rpm.

53-520 1970 Thru 1998 carbureted models, module only. **SOLD EACH**

53-521 1970 Thru 1998 carbureted models, single plug, single fire kit of module and pair of part No. **53-394** coils. **SOLD AS KIT**

53-522 1970 Thru 1998 carbureted models, dual plug, single fire kit of module and pair of part No. **53-392** coils. **SOLD AS KIT**

53-598 1970 Thru 1998 carbureted models, single plug, single fire kit of module and part No. **53-591** (miniature) coil. **SOLD AS KIT**

53-642 USB Programming Kit DFA & 2000i Apps for above ignitions.

B. DYNA PROGRAMMABLE DIGITAL IGNITION SYSTEM FOR TWIN CAM 88™

These Dyna ignitions are Single Fire, fully programmed performance ignitions with 16 programmable advance curves and 8 Rev. Limiter settings. All functions feature full digital accuracy and full J1850 compatibility with all stock devices. Coil compatibility from stock to performance (less than 1 ohm resistance). Coil current constantly monitored to provide constant full spark energy. Utilizes all stock sensors, stock OE connectors and the stock OE mounting. Reverse battery and spike protection are also built in and these ignitions feature a 1 year warranty.

53-597 For 1999-2003 Twin Cam 88™ carb models. **SOLD EACH**

53-690 Fits 2004-2006 Twin Cam® carb models.

53-691 Fits 2004-2005 XL carb models.

A. DAYTONA TWIN TEC IGNITION FOR 2003-2006 H-D CARBURETED MOTORS

Features

- Wide timing advance adjustment range
- Digitally set RPM limit
- Full support for J1850 data bus
- Built-in data logging
- Compatible with H-D scan tool

NOT LEGAL FOR SALE OR USE in the State of California

53-235 Plug-in ignition for 03'-06' carbureted Twin Cam® and Sportster® with 12 pin ignition module. **SOLD EACH**

B. DAYTONA TWIN TEC IGNITION FOR 1999-LATER CARBURETED TWIN CAMS®

Features

- Two 12 pin connector
- Five rotary switches to set operating modes, timing, advance and RPM limit
- Communicates basic diagnostic information by blinking codes on the check engine LED

NOT LEGAL FOR SALE OR USE in the State of California

53-234 Plug-in ignition for 99'-03' carbureted Twin Cam®. **SOLD EACH**

53-233 Twin Cam® ignition kit, includes TC88 ignition (**53-234**), Twin Cam® coil and universal wire set **SOLD AS KIT**

C. DAYTONA TWIN TEC VT-I ELECTRONIC IGNITION SYSTEM

Features:

- Ultra reliable dual fire electronic ignition system For all Harley Davidson® V-twin engines except early magneto type and 1999 & later Twin-Cam®.
- Includes special trigger rotor for use with traditional mechanical advance mechanism (supplied by customer)
- Precise digitally set RPM limiter (200 RPM steps from 5,200 to 7,000 RPM)
- Operates down to below 6 volts for reliable starting under all conditions, including kick start.

NOT LEGAL FOR SALE OR USE in the State of California

53-239 VT-i Electronic Ignition System for Harley-Davidson® V-Twin engines. Not legal for use or sale on pollution controlled vehicles. **SOLD EACH**

D. DAYTONA TWIN TEC INTERNAL IGNITIONS

Features

- Two advance curve families with adjustable advance slope accommodate stock to highly modified engines.
- Digitally set RPM limit
- Selectable single or dual fire mode

NOT LEGAL FOR SALE OR USE in the State of California

53-226 Twin Tec Internal Ignition Model 1005. For 84'-99' Evo, 71'-97' Sportster® and 70'-84' Shovelhead. **SOLD EACH**

53-227 Twin Tec Internal Ignition Model 1005S. For 98'-03' Sportster® except 1200S - includes harness for single fire conversion. **SOLD EACH**

53-231 Internal Ignition Kit, includes 1005 ignition, single fire coil and universal wire set. **SOLD AS KIT**

53-232 Internal Ignition Kit, includes 1005S ignition, single fire coil and universal wire set. **Fits XL's. SOLD AS KIT**

A. DAYTONA TWIN TEC EXTERNAL IGNITIONS

Features

- Two advance curve families with adjustable advance slope accommodate stock to highly modified engines.
- Digitally set RPM limit
- Selectable single or dual fire model

- 53-228** Twin Tec External Ignition Model 1006. For 90'-94' Evo and 90'-93' Sportster® with 7 pin Cannon plug. **SOLD EACH**
- 53-229** Twin Tec External Ignition Model 1007. For 95'-98' Evo and 94'-97' Sportster® with 8 pin Deutsch plug. **SOLD EACH**
- 53-259** External Ignition Kit, includes 1006 ignition, single fire coil and universal wire set. **SOLD AS KIT**
- 53-260** External Ignition Kit, includes 1007 ignition, single fire coil and universal wire set. **SOLD AS KIT**

B. DYNA "S" ELECTRONIC IGNITION & COILS KITS

The Dyna "S" Ignition & Coil is now available as a kit. Kit features the Dyna "S" electronic ignition for dual or single fire ignitions and a Dyna coil. This is the same ignition used by top drag racers and road racers to win numerous victories and set records over the past decade. The Dyna "S" is completely housed behind the ignition cover and uses a magnetic rotor with the spark advancer, so the factory advance curve is maintained. Dyna coils produce high voltage (30,000 plus) with fast rise times and high energy.

- 53-500** Dyna "S" Ignition & Coil kit Fits all models 1970 & later with dual fire ignitions. Stock type 5 ohm coil. **SOLD AS KIT**
- 53-501** Dyna "S" Ignition & Coil kit. Fits all models 1970 & later with single fire ignitions. Single tower 5 ohm coil (pair).

C. INDUCTIVE IGNITION SYSTEM

The Dual Fire Inductive Ignition System is a single module, single coil **DUAL FIRE** system. The Single Fire Inductive Ignition System is a dual module, dual coil system. Both of these systems can be used with any high quality coil with 2-3 ohms primary resistance.

- 53-244** Midwest automatic advance unit for use on pointless ignition. Includes shaft and plate with pins, weights and springs. **SOLD EACH**
- 53-24** Ignition Plate w/ Points & Condensor, '71-'95 Big Twin & XL.
- 53-25** Ignition Advance Assembly, '71-'95 Big Twin & XL.

YEAR	MODEL	DESCRIPTION
1971/1979	Big Twin	Converts from point-triggered to electronic ignition.
1970/1979	Sportster®	
1980/1991	Big Twin	Replaces stock electronic ignition and eliminates external module and rev limiter. Requires the installation of mechanical advance assembly (not included).

A. TWIN SCAN II

53-236 Twin Scan II for 01'-07' fuel injected models with Delphi System, including V-Rod and 03'-06' carbureted models with 12 pin ignition module. **SOLD EACH**

Features

- Compatible with 01'-07' HD fuel injected models with Delphi System (including V-Rod) and 03'-06' carbureted models with 12 pin ignition module.
- Uses laptop PC for display, includes Windows software
- Real time display of engine data on instrument panel type display.
- Built-in data logging.

B

B. TWIN SCAN III

53-427 Twin Scan III for 2011-2012 Softails® and 2012 Dyna® models with CAN bus. Includes USB cable and software. **SOLD EACH**

Features

- Compatible with 2011-2012 Softails® and 2012 Dyna® with CAN data bus.
- Uses laptop PC for display.
- Real time display of engine data on instrument panel type display.
- Built-in data logging.

C

C. POWER VISION 4 BY DYNOJET **NEW!**

Power Vision 4 from Dynojet Research Inc. combined with your phone puts you in control and unlocks your bike's hidden potential. Gain access to hundreds of different tunes for various aftermarket components and easily flash any of them to your bike's ECU via bluetooth. Need to tune another bike, no problem, licensing additional vehicles can be performed right from their app. Unbelievably quick and easy to use.

Phone not included.

53-475 Power Vision 4 (PV4-15-01) for Harley Davidson® Softail, Dyna, Touring, Sportster & Street 2001-2017.

53-473 Power Vision 4 (PV4-15-02) for Harley Davidson® Softail, Dyna, Touring, Sportster & Street 2011-2020.

53-474 Power Vision 4 (PV4-15-03) for Harley Davidson® Softail, Dyna, Touring, Sportster & Street 2021-2023.

- 53-528** Electronic ignition rotor. Fits Big Twin & XL models, except fuel injection equipped, 1983 & later. OEM 32402-83. **SOLD EACH**
- 53-529** Ignition rotor screw. OEM 2611B/C. **SOLD EACH**
- 91-352** Timer plate screw (OEM 32601-78) **SOLD EACH**

B. EARLY H-D® IGNITION POINTS SET

- 53-135** Fits : EL 36-47 / FL41-47 / VL 30-35 / W 36-47 HD models.

C. IGNITION POINTS FOR H-D®

- 53-16** For all Big Twins 1930 thru 1947. OEM 32658-30. **SOLD AS SINGLE SET**
- 53-13** For all Big Twins 1948 thru 1969, Sportster® & K Model 1954 thru 1970 and all 45" 1948 & later. OEM 30605-48A.
- 53-12** For all Big Twins & Sportster® 1970 & later. OEM 32661-70.
- 53-20** For XLCH with magneto 1958 thru 1969. OEM 29533-55A.

D. H-P BLUE STREAK IGNITION POINTS & CONDENSER KIT

High performance point set & condenser kit Includes part No. 53-387 & 53-388 below. These high performance, heavy duty components which are famous in the auto racing industry are now available for Harley-Davidson® motorcycles.

- 53-418** Blister packed points and condenser kit. **SOLD AS KIT**
- 53-387** Point set. Fits Big Twin 1970 thru early 1978 and Sportster® 1971 thru early 1978. Replaces OEM 32661-70. **SOLD AS SET**
- 53-388** Condenser. Fits Big Twin 1930 thru early 1978 and Sportster® (except with magneto) 1954 thru early 1978. Replaces OEM 32726-30A and 30802-47. **SOLD EACH**

E. COMPLETE ADVANCE UNIT BIG TWIN AND SPORTSTER® 1971 & LATER

Complete advance unit including points, condenser, wire & clips.

- 53-242** For FL, FLH, FX, 1970 & later and Sportster® 1971 & later. May be used on late 1978 & later H-D® twins with electronic ignition for conversion to points. **SOLD AS KIT**
- 53-244** For use on pointless ignition. Includes shaft and plate with pins, weights & springs.
- 53-248** Advance unit only.

F. ADVANCE UNIT WITH BEARING

New design for auto advance unit incorporates roller bearing at pivot points for smooth and positive advance everytime, all the time. Also includes 3 sets of different tension springs for variable advance rate. Fits Big Twin 1970 & later and Sportster® 1971 & later, when point type ignitions are used.

- 53-384** Advance unit; complete kit. **SOLD AS KIT**
- 53-385** Weights with bearing. Can only be used on part 53-384 above. **SOLD AS PAIR**
- 53-245** Advance unit for use on pointless ignition. Includes shaft and plate with needle bearing weights and three sets of springs. **SOLD AS KIT**

C

D. DAYTONA TWIN TEC TWIN TUNER FUEL INJECTION CONTROLLER

Features

- Allows easy fuel trim adjustments to increase horsepower and throttle response.
- Makes adjustments to match the requirements of performance camshafts, free flowing exhaust, low restriction air filters, etc.
- Easy plug-in installation and setup.

NOT LEGAL FOR SALE OR USE in the State of California

53-238 Twin Tuner fuel injection controller, for 2001-2007 Twin Cam® 88 with Delphi system.

D

9

E

53-471

E. WEGO 3 DUAL DISPLAY WIDE BAND AIR/FUEL RATIO SYSTEM

Features

- Displays Lambda or correct AFR values for any hydrocarbon fuel with a known stoichiometric ratio.
- Versatile tuning aid for all carbureted and fuel injected motors. Displays AFR and logs over 2 hours of data. Including two channels of AFR, engine RPM, and a spare 0-5V analog input for sensors such as throttle position or manifold pressure.
- Input for optional customre supplied flex fuel sensor. A switch under the sensor 2 LED allows selection of normal AFR display or 0-100% ethanol display.

NOT LEGAL FOR SALE OR USE in the State of California

53-471 WEGO 3 System with AFR display

A. DAYTONA TWIN TEC TWIN TUNER 2 FUEL INJECTION CONTROLLER

- Has all the features of the original Twin Tuner and includes ignition timing control capability.
- Can use your Dynojet Power Commander maps.

NOT LEGAL FOR SALE OR USE in the State of California

53-270 Twin Tuner 2 fuel injection & ignition controller, for 2001-2011 Twin Cam® 88 with 36 pin Delphi system.

53-271 Twin Tuner 2 fuel injection & ignition controller, for 2008-2012 Twin Cam® touring models with 73 pin Delphi system.

B. TCFI 4 FUEL INJECTION CONTROLLER

Features

- Simultaneously auto-tune fuel curves for front and rear cylinders under actual riding conditions with new WEGO IIID dual channel wide-band oxygen sensor interface
- Fully programmable plug-in replacement for 36 pin Delphi® controller. Not compatible with 2008-2012 touring models with electronic throttle control, or 2011-2012 Softail® and 2012 Dyna® models with CAN data bus.
- Robust alpha-N fuel control eliminates problems with long duration/high overlap camshafts
- Powerful Windows software for custom programming and data analysis
- Full support for J1850 data bus used for communications with turn signal security module (TSM/TSSM) and instrument cluster on 2004-2012 models.
- Supports for new 6th gear indicator on 2007-2012 models.
- Supports all sensors including theft/security module.

NOT LEGAL FOR SALE OR USE in the State of California

53-426 Fits 2001-2011 Twin Cam® using 36 pin Delphi System with J1850 data bus. (Except 2011 Softail/Dyna with CanBus 36 pin ECM and 6 pin Diag Connectors).

C. TCFI 6 FUEL INJECTION CONTROLLER

Features

- Fully programmable plug-in replacement for the 73 pin controller with J1850 data bus used on 2008-2013 touring models with electronic throttle controller.
- Offers real-time and continuous auto-tuning with monitoring, control and override
- Built in extended data logging that helps you diagnose real world problems. Data FLASH memory stores full 60 minutes of operating data at 10 samples/second.
- Two programmable user inputs for functions such as two stage RPM limiter, nitrous retard, and shift kill.
- Two programmable user outputs for functions such as shift light, nitrous activation, and electric shifter.
- Easy to install. Just replace stock ECM and O2 sensors and follow the detailed instructions.

NOT LEGAL FOR SALE OR USE in the State of California

53-470 TCFI 6 Fuel Injection Kit for 2008-2013 touring models with J1850 data bus.

A

A. USB INTERFACE FOR ALL DAYTONA TWIN TEC ENGINE CONTROLS

Features

- Includes all required adapters for Daytona Twin Tec systems 53-226, 53-229, 53-234, 53-235.
- Compatible with all Daytona Twin Tec software and Windows 98/ME/XP. Software drivers included on CD ROM.

53-237 USB interface.

SOLD EACH

B. CONDENSERS FOR H-D®

All Midwest condensers meet or exceed original equipment manufacturer's specifications.

53-15 For all Big Twins 1930 thru 1948. OEM 32726-30.

53-14 For all Big Twins 1949 & later, Sportster®, K Model, with battery ignition, all years. OEM 32726-30A.

53-21 For Sportster® 1958 thru 1969, with magneto ignition. OEM 29534-55A.

**19**

AGM BATTERIES

FEATURES:

- Patented post design reduces resistance
- Flush mount, threaded terminals
- Nonspillable, sealed AGM Valve
- Rugged construction
- Higher AH capacity than OEM
- Manufactured by an ISO 9001:2000 registered factory
- Patented Cast-On-Stip (COS) manufacturing

ULTIMA[®] COILS

DUAL FIRE STOCK STYLE REPLACEMENT COILS

SOLD EACH

- 53-315** Black coil. Fits Big Twin 1965-1979. OEM 31609-65A.
- 53-430** Chrome coil. Fits Big Twin 1965-1979. OEM 31609-65A.
- 53-316** Black coil. Fits Big Twin 1980-1984 Electronic ignition. OEM 31609-80.
- 53-431** Chrome coil. Fits Big Twin 1980-1984 Electronic ignition. OEM 31609-80.
- 53-317** Black coil. Fits Big Twin late 1983-later. OEM 31614-83.
- 53-432** Chrome coil. Fits Big Twin late 1983-later. OEM 31614-83.

HIGH PERFORMANCE STOCK REPLACEMENT COILS

30,000 volt coil adds 20% peak spark voltage.
Mounts in stock location.

SOLD EACH

- 53-29** Fits Big Twin 1965-1979. OEM 31609-65A.
- 53-438** Same as #53-29, except in a compact square configuration.
- 53-230** Fits Big Twin 1980-1984 Electronic ignition. OEM 31609-80.
- 53-439** Same as #53-230, except in a compact square configuration.
- 53-297** Fits Big Twin late 1983-later. OEM 31614-83.
- 53-440** Same as #53-297, except in a compact square configuration.
- 53-434** Black Single fire high performance 12V coil. 40,000V, 3 OHM primary resistance. Mounts to stock bracket and fits under most coil covers.
- 53-441** Chrome Single fire high performance 12V coil. 40,000V, 3 OHM primary resistance. Mounts to stock bracket and fits under most coil covers.
- 53-433** Fits Twin Cam® (carburetor only) models 1999-up. OEM 31655-99 OE style, .6 OHM. Greater than 50mj and 40,000V for high performance.
- 53-435** Fits Twin Cam® EFI models 2001-2006. OEM 31743-01.
- 53-436** Fits Twin Cam® models 2007-2013. OEM 31696-07A.
- 53-437** Fits Sportster® models 2007-2013. OEM 31656-07.

-
- 53-480** Coil, EFI 95-98, OE 31639-95

A. DYNA® IGNITION COILS

These high tech, top quality coils are designed for maximum performance. They produce spark voltages in excess of 30,000 volts and spark energies second to none. Dyna® coils are made to replace stock coils. Choose from three configurations and three variations of resistance for different applications. Dyna® coils work with point ignitions, aftermarket electronic ignitions and factory electronic ignitions.

FOR DUAL FIRE IGNITION

Dual plug heads — race or street.

53-393 Dual tower, 1.5 ohm, Brown. Mfg. # DC2-1. **SOLD AS PAIR**

Single plug heads — street.

53-397 Dual tower, 5.0 ohm, Black. Mfg. # DC8-1. **SOLD AS PAIR**

53-396 Stock style, 5.0 ohm, Black. Mfg. # DC7-1. **SOLD EACH**

Single plug heads — race.

53-392 Dual tower, 3.0 ohm, Green. Mfg. # DC1-1. **SOLD AS PAIR**

53-395 Stock style, 3.0 ohm, Green. Mfg. # DC6-1. **SOLD EACH**

FOR SINGLE FIRE IGNITION

Dual plug heads — race

53-392 Dual tower, 3.0 ohm, Green. Mfg. # DC1-1. **SOLD AS PAIR**

53-395 Stock style, 3.0 ohm, Green. **SOLD EACH**

(Two coils required). Mfg. # DC6-1.

Dual plug heads — street.

53-397 Dual tower, 5.0 ohm, Black. Mfg. # DC8-1. **SOLD AS PAIR**

53-396 Stock style, 5.0 ohm, Black. **SOLD EACH**

(Two coils required.) Mfg. # DC7-1.

Single plug heads — race.

53-394 Single tower, 3.0 ohm, Green. Mfg. # DC3-1. **SOLD AS PAIR**

Single plug heads — street.

53-398 Single tower, 5.0 ohm, Black. Mfg. # DC10-1. **SOLD AS PAIR**

FOR ELECTRONIC DYNA® 2000 IGNITION SYSTEM

Dual fire with single plug heads.

53-392 Dual tower, 3.0 ohm, Green. Mfg. # DC1-1. **SOLD AS PAIR**

53-395 Stock style, 3.0 ohm, Green. Mfg. # DC6-1. **SOLD EACH**

Dual fire with dual plug heads.

53-393 Dual tower, 1.5 ohm, Brown. Mfg. # DC2-1.

SOLD AS PAIR

Single fire with single plug heads.

53-394 Single tower, 3.0 ohm, Green. Mfg. # DC3-1.

SOLD AS PAIR

Single fire with dual plug heads.

53-392 Dual tower, 3.0 ohm, Green. **SOLD AS PAIR**

53-395 Stock style, 3.0 ohm, Green. (Two coils required). Mfg. # DC6-1. **SOLD EACH**

B. 12 VOLT COIL

53-40 12V Coil for Big Twin 1948 & later and Sportster® 1971 & later. Replaces OEM 31609-65A. Imported. **SOLD EACH**

C. UNIVERSAL MOUNT COIL

Universal mount coil. 12V 2.45OHMS, Dual fire. 1/4" mounting holes, 4" center to center.

53-44 Universal mount, dual fire coil. **SOLD EACH**

9

D. DAYTONA TWIN TEC MINI IGNITION COIL FOR EVO SINGLE FIRE APPLICATIONS

Features

- Miniature coil intended for custom motorcycles where space is at a premium and single fire is required for maximum performance
- 3 ohm primary is compatible with Twin Tec Models 1005-1007 and most aftermarket single fire ignitions including Compufire, Crane HI-4, and Dyna® 2000. Not compatible with older Dyna® S series
- Kit includes universal spark plug wreset with choice of 90 and 135 degree spark plug boots and all required electrical terminals
- Overall dimensions: 2.4" x 2.3" x 1.6" (not including terminals and tower).

53-312 Daytona Twin Tec 3 OHM Mini Coil it. Includes two coils, universal wire sets and parts bag with terminals.

A. DYNA® TWIN FIRE COILS

COIL FOR DUAL PLUG HEADS

This coil will enhance the benefits of, and is the perfect compliment to the Dyna Digital Ignition System (part No. 53-399) for which it was designed. The Twin Fire coil has all of the features people have come to expect from a Dyna® coil; high voltage (greater than 30,000 volts) with fast rise times, and high energy.

The Dyna Twin Fire coil can be used with any electronic advance ignition system that incorporates dwell control, but can not be used with the DS6-2 Dyna® S or similar ignitions.

53-417 Coil with four output towers. For use on all dual spark plug head applications. **SOLD EACH**

TWIN FIRE II PERFORMANCE COIL

This coil is designed to give optimum performance when used with the Dyna® 2000 series of ignitions. Over 40,000 volts per/output. Accepts 7 to 8.5mm wires. **CAUTION:** Do not use this coil with the Dyna®-S ignition, breaker points, or similar non dwell-controlled ignitions. The coil may overheat and become damaged. Ignitions designed for the Twin Cam® motor are not compatible with this coil.

53-591 Twin Fire II performance coil. Fits all H-D® equipped with Dyna® 2000 & 2000i series of ignitions. **SOLD EACH**

B. DYNA® MINIATURE COILS

Advanced magnetic core technology delivers high output in one of the smallest packages available. Great for customs where coils need to be hidden. These coils are designed for use with the Dyna® 2000 and 3000 series ignitions, factory installed electronics, or other aftermarket ignitions that employ dwell control. Primary resistance: 3 ohms, secondary resistance: 11.5 ohms. Overall dimensions 4.2" x 2.3" x 1.6", mounting centers 2.9" minimum to 3.5" maximum, approximate weight 9.8 oz. **NOTE:** These coils should NOT be used with the Dyna® "S," Dyna® III or earlier generation ignitions.

53-647 Quantity of two coils with two outputs, 3.0 ohms, 11.5 ohms. **SOLD AS KIT**

53-648 Quantity of one coil with two outputs, 3.0 ohms, 11.5 ohms.

Mini Coils for Metric Cruisers

One of the smallest packages that deliver high output with advanced magnetic core technology. Designed for use with Dyna 2000 & 3000 series ignitions, factory installed electronics or with aftermarket ignitions that employ dwell control. Great for customs where coils need to be hidden

53-710 Quantity of two coils with two outputs, 3.0 ohms, 11.5 ohms. **SOLD AS KIT**

53-711 Quantity of two coils with one output, 3.0 ohms, 11.5 ohms. **SOLD AS KIT**

C. 1960'S STYLE COIL COVER

89-307 Fits all Big Twin 4 speed 1965 thru 1986 and Softail® 1984 thru 1999. **SOLD EACH**

D. DIE CAST DOMED IGNITION COVER

Beautifully chromed die cast aluminum covers give that classic chromed look. Use on 1999 & later Twin Cam 88™. Includes five button head chrome allen screws & wrench. No gasket provided.

89-497 Five hole cover. Replaces OEM 32679-99. **SOLD EACH**

B

B. ULTIMA® 40 OHM SPARK PLUG WIRES

THE ULTIMATE IN SPARK PLUG WIRE TECHNOLOGY,
 8MM PLUS

- ▲ 40 ohms of resistance per foot, which gives the highest spark energy transfer and the highest EMI/RFI suppression. Kevlar® core center with a nickel copper alloy conductor wire, which is wound 124 times per inch. This type of center conductor is a slightly smaller diameter allowing for an increased amount of premium EPDM insulation material. The use of Kevlar® produces a core that has four times the strength of other aramid fiber cores resulting in a very high tensile strength from a small diameter. the insulated core is braided with high strength fiberglass strand for improved resistance to terminal pull off.
- ▲ The jacket is a high quality silicone product resisting temperatures up to 600°F. Highest quality silicone spark plug boots and coil boots. Posi-snap lock stainless steel spring clip terminals. Dyno-tested, resulting in 2 - 8 hp increase of factor OEM wires. Every wire factory tested for quality and reliability. Wire sets come complete and ready for installation. **SOLD AS SET**

- 18-481** For Twin Cam 88® Softail® & Dyna® models.
- 18-483** For Softail® 1984 thru 1999, FX & FL 1965 thru 1984, and Sportster® 1971 thru 1976.
- 18-484** For Sportster® 1985 thru 2003 (except XLS) and FLT 1985 thru 1998.
- 18-485** For FXR models & custom applications with the coil located between the cylinders.

A. ULTIMA® HIGH PERFORMANCE SPARK PLUG WIRES

- ▲ High performance 8mm wire-wound supression core producing 300 ohms of resistance per foot.
- ▲ Up to 15 times more efficient than factory OEM wires to promote faster and more complete fuel burn in the cylinder head.
- ▲ Resists temperatures up to 600°F.
- ▲ Competition Sleevling (used by most Winston Cup teams), covers the entire length of wire, boot to boot, is silicone over fiberglass braid, provides 8000 volts of additional insulation to the wire and eliminates spark plug misfire and spark jump.
- ▲ Dyno tested, resulting in 2 - 6 hp increase over factory OEM wires.
- ▲ Highest quality silicone spark plug boots and coil boots.
- ▲ Posi-snap lock stainless steel spring clip terminals.
- ▲ Suppresses radio frequency interference that electronic ignition systems demand.
- ▲ Double insulated at spark plug and coil ends.
- ▲ Available in 8 custom colors: Red, Blue, Gray, Purple, Orange, Yellow, White and Black.
- ▲ Available for H-D® and most aftermarket V-Twin applications (i.e. Fat Bastard®, Big Dog™, Bourget™, etc.)
- ▲ Wire sets come complete and ready for installation.

A. NEUTRA™ FUEL STABILIZER

Neutra™ Fuel Stabilizer is a highly concentrated, multi-functional, ashless fuel stabilizer formulated for use in all grades of gasoline.

- Optimizes performance and fuel economy up to 5%.
- Lowers the freeze point of any water that may be present in the fuel.
- Reduces emissions, exhaust smoke and particulates.
- Keeps injectors free from varnish, deposits and gum that cause inefficient operation.
- Protects against rust and corrosion. Stabilizes fuel during storage.
- Strong wear protection for injectors, fuel pumps, compressor ring, upper cylinder, valve seats and guides.

103-5 3oz bottle

SOLD EACH

B. EXTREME PERFORMANCE V-TWIN PRIMARY LUBE

Extreme Performance V-Twin Primary Lube is designed for use in the primary chain case of all Harley-Davidson Big Twin Models and in the wet and primary/transmission common sumps found in Harley Davidson Sportster models with wet clutches sharing the same sump as the transmission gears.

- Efficient clutch performance and optimum torque transfer.
- Prevents clutch chatter.
- Maximum transmission and primary drive chain reliability.
- Quickly penetrates into the chain rollers to loosen stiff links.
- Enhanced protection against rust and corrosion - even in the presence of moisture.
- Keeps components cleaner, reduces sludge and varnish buildup.
- Excellent oxidative and thermal stability.

103-113 SAE 30, 1qt bottle

SOLD EACH

C. EXTREME PERFORMANCE FULL SYNTHETIC 75W-140

Extreme Performance Full Synthetic is designed for use in Harley-Davidson V-Twin transmissions and high performance differentials.

- Improves transmission shifting and gear efficiency.
- Optimizes performance.
- Enhanced protection against rust and corrosion.
- Reduces operating temperatures.
- Minimizes cold welding.
- Exceptional extreme pressure properties to protect against wear.
- Enhanced thermal and oxidative stability and durability.
- Longer oil, seal and equipment life.

103-119 1qt bottle

SOLD EACH

D. EXTREME V-TWIN SYNTHETIC PLUS 20W-50

Extreme V-Twin Synthetic Plus is highly advanced, premium quality, multi-grade para-synthetic, high zinc containing, 4-stroke engine oil formulated specifically for V-Twin engines. It can also be used in most motorcycles designed with a common engine/transmission lubrication system.

- Meets Harley-Davidson V-Twin specifications and JASO (T903 MA-2).
- Significantly reduces wear.
- Excellent high temperature, high shear performance.
- Reduced oil ageing for increased drain intervals.
- Resists thinning at high temperatures.
- Substantially reduced oil consumption.
- Compatibility with all types of seals.
- Protects against rust and corrosion.

103-118 1qt bottle

SOLD EACH

A. PJ1 FAST BLACK™

PJ1 Gloss Black 500° Engine & Case Paint. High gloss finish. Restores case & engine components. Prevents rust & corrosion. Resists chipping/rubbing off.

A. VHT ENGINE ASSEMBLY LUBE

VHT Engine Assembly Lube drastically reduces friction on all moving metal parts with precision tolerances, including wrist pins, cams, lifters, gears, bearing and timing chains. VHT Engine Assembly Lube can prevent permanent damage caused by seizing and galling, because it will cling tenaciously to all metal surfaces and provide essential lubricity before the engine's oiling system can establish a permanent oil film.

103-175 7 oz. Aerosol. **SOLD EACH**

B. WHEEL BEARING GREASE

Lithium complex high temperature grease. Meets the requirements for disc and drum brakes. Good temperature stability. Protects against rust and oxidation. May also be used in general purpose applications.

103-300 1 lb. Container grease. **SOLD EACH**

C. LIQUID HORSEPOWER OCTANE BOOSTER

- Boosts octane 5-10 points
- Combustion catalyst improves fuel mileage and performance
- Cleans fuel system
- Upper cylinder lubricant
- Stabilizes fuel

103-250 Liquid Horsepower, 1 oz bottle, treats 5 gallons. **SOLD EACH**

103-252 Liquid Horsepower, 6 oz bottle, treats 30 gallons. **SOLD EA.**

D. D.O.T. 5 BRAKE FLUID

Silicone based DOT 5 brake fluid is specified for use in H-D® brake systems. Ultima® DOT 5 brake fluid is designed for severe service applications and will not boil at temperatures up to 500°F. Will not absorb moisture. Premium quality at at budget price!

103-197 Ultima® DOT 5 brake fluid, 12 ounces. **SOLD EACH**
BEST PRICE BREAK — CASE OF 12 EACH

E. CHAMPION SYNTHETIC D.O.T. 4 BRAKE FLUID

Provides the ultimate in high temperature protection, moisture resistance, and lubricity for ABS, hydraulic drum, disc braking systems, and hydraulic clutches requiring DOT 4 & 3 brake fluid.

103-704 Champoin synthetic brake fluid, 12 ounces. **SOLD EACH**

F. EZE BLEEDER

Save time and money using the EZE Bleeder. Bleed air from the brake system by starting at the low points. Inject brake fluid into the caliper in its natural direction up to the the master cylinder. Instructions included.

97-208 EZE Bleeder. **SOLD EACH**

G. ROCKET FUEL

Increases motor octane. Increases research octane. Increases anti-knock rating. Requires **NO** mixture adjustment. Reduces engine varnish and sludge. Aids valve and seat lubrication. Helps protect pistons and heads. Releases full torque and power.

Warning: Not for Jap bikes. Formulated for use in Harley® engines only. **NOTE:** For best price order quantity of two tins.

103-191 One-ounce pocket-size squeeze packet; treats 2.5 to 5 gallons of gas. Sold as 55 individual packets in point-of-purchase display tin. **SOLD AS BOX**

H. ULTIMA® COOL CRUSIN' OIL TREATMENT

Check out Ultima®'s Cool Crusin' oil treatment. Recommended for all hi-performance V-twins and Harley-Davidson® motorcycles.

- Cools engine oil and gear lube
- Cool cylinder head temperature
- Dramatically improves engine oiling.
- Doubles life of all lubricated parts.
- Reduces trans noise/clunk

103-1 Ultima® Cool Crusin' oil treatment, 16oz. **SOLD EACH**

12

A**103-110****103-112****B****12****ULTIMA® OIL by Champion®****A. ULTIMA® PREMIUM BLEND STRAIGHT WEIGHT ENGINE OILS**

Ultima® Engine Oils have been specifically engineered to provide protection for all 4 Stroke Engines even in the most extreme temperature environments. Ultima® Oils carry one of the best Anti wear packages available for maximum performance and longer engine life. All of our Premium Blend motor oils are produced using “severe hydro-cracked” low volatility base oils. This process produces base oils that are as clear as water, provide high natural resistance to oxidation and thermal breakdown; resist sludge formation and combat corrosive acids from fuel combustion better than less expensive hydro-treated base oils. Straight weight Motor Oils are recommended for use in Engines where higher ambient temperatures are experienced and in older cast iron cylinder engines requiring high thermal stability. **Exceeds all known motorcycle manufacturers warranty requirements including API SF,SG,SH,SL and JASO MA and does not void new vehicle warranty. Check manufacturer’s recommendation for viscosity and change interval.**

BENEFITS INCLUDE

- High Zinc additive resists wear and provides exceptional load carrying characteristics
- Resist high temperature oxidation and deposit formation
- Strong detergents keep engine cleaner

103-110 50W Ultima® Oil by Champion® **SOLD EACH/CASE BOX IS 12PC****103-111** 60W Ultima® Oil by Champion®**103-112** 70W Ultima® Oil by Champion®**B. ULTIMA® PREMIUM BLEND MULTI VISCOSITY 20W50 SYNTHETIC BLEND**

Ultima® 20W50 Premium Blend Oil is a Synthetic Blend specifically engineered to provide outstanding service as a **4 Stroke Engine Oil, Primary and Transmission Oil**. This premium synthetic blend motor oils is produced using “severe hydro-cracked” low volatility base oils mixed with pure synthetic base oils producing a higher resistance to oxidation and thermal breakdown than conventional base oil technology is capable of. Our advanced multi-grade should be used in all Air Cooled engines where high temperature or high stress applications might occur. It will maximize power transfer performance, provide critical protection against ring wear and piston scuffing and offers excellent reserve alkalinity to absorb acids that degrade clutch material and performance.. **Exceeds all known motorcycle manufacturers warranty requirements including API SF,SG,SH,SL and JASO MA and does not void new vehicle warranty. Check manufacturer’s recommendation for viscosity and change interval This Oil is recommended by Ultima® for protection during break in periods on all Ultima® Brand Engines.**

BENEFITS INCLUDE

- High Zinc additive resist wear and provides maximum load carrying characteristics
- Higher resistance to oil oxidation and deposit formation than conventional oils
- Strong detergents keep engine cleaner , even at elevated temperatures
- Formulated to resist extreme sheer stress imposed by transmission gears when used as transmission oil and includes proper friction modifiers to provide wet clutch protection and clutch control.

103-114 Ultima® Oil 20W50 Synthetic Blend**SOLD EACH/CASE BOX IS 12PC**

ULTIMA® OIL

ULTIMA® RACING 20W50 FULL SYNTHETIC

Ultima® Racing 20W50 motor oil is a full synthetic olefin-ester based oil specifically engineered to provide protection during extreme service conditions where conventional oils fail. This extreme performance multi-grade motor oil should be used in all 4 Stroke engines where maximum service life and top performance are required and expected. This oil will maximize power transfer performance, provide critical protection against ring wear and piston scuffing and improve the wear characteristics in any engine, even under extreme conditions. This oil is not recommended as a "break-in oil" for any Air Cooled V-Twin and should not be mixed with petroleum based oils. When switching to Ultima® Full Synthetic Oil, change oil and filter for a complete fluid change. **Exceeds all known motorcycle manufacturer's warranty requirements including API SF,SG,SH,SL and JASO MA and does not void new vehicle warranty. Check manufacturer's recommendation for viscosity and change interval. This Oil is recommended by Ultima® for protection AFTER break in periods on all Ultima® Brand Engines.**

BENEFITS INCLUDE

- Reduces friction on all contact surfaces
- Lower engine operating temperature
- Maximize horsepower
- Improves fuel economy
- Maximize engine life

103-115 Ultima® Oil 20W50 Full Synthetic

SOLD EACH/CASE BOX IS 12PC

THE PERFECT COMBINATION OF 2 ULTIMA® PRODUCTS!

GREAT PAIR!!

ULTIMA® OIL

A. ULTIMA® RACING 80W140 GEAR OIL

Ultima® Full Synthetic Transmission Oil is designed for use in all manual transmissions where the clutch uses a separate lubricant. This is a highly effective and efficient lubricant designed for extended use and maximum performance. We strongly recommend this oil use after Transmission break in for Maximum component performance and life.

BENEFITS INCLUDE

- Ultimate gear and bearing protection during high temperature operation.
- Excellent chemical stability to prevent oil oxidation and corrosion.
- Unsurpassed shear & load stability preventing metal-to-metal contact while shifting at high speeds & temperatures.
- Quieter operation and smoother shifting
- Helps extend component life & improve power transfer

This Heavy Duty Gear lubricant specially engineered for extended use in manual transmissions where API GL-4, GL-5, MT-1 and MIL-L-2105D are specified. Additional specific applications are Mack G0-J Plus, SAE J 2360, Navistar TMS 6816, Dana Spicer SHAES256, Eaton PS-163, Arvin Meritor TP-9539. **Check manufacturer's recommendation for viscosity and change interval. This Oil is recommended by Ultima® for protection in all Ultima® Brand Transmissions . Not for use in wet clutch applications.**

103-117 Ultima® 80W140 Full Synthetic Gear Lube
SOLD EACH/CASE BOX IS 12PC

B. ULTIMA® PREMIUM 80W90 GEAR OIL

Ultima® 80W90 Gear Oil is our mineral based general purpose gear oil for use in all on and off road gear box applications. We recommend this oil in all Ultima® transmissions for break-in and continued GL-3 service where mineral based lubricants are recommended or preferred.

BENEFITS INCLUDE

- Great oxidation control under high thermal conditions
- Protection against excessive contact wear, pressure and corrosion
- Anti-foaming properties
- Universal compatibility with all mineral based and synthetic fluids

Recommended for use in all major transmission, final drive and gearboxes requiring API GL-3 service classification or US Steel 224, AGMA 9005 EP or Cincinnati Machine approvals. **Check manufacturer recommendations for viscosity and change interval. This Oil is recommended by Ultima® for protection in all Ultima® Brand Transmissions during break-in.**

103-116 Ultima® 80W90 Gear Lube
SOLD EACH/CASE BOX IS 12PC

A. RECHARGER FILTER CARE SERVICE KIT

A six step maintenance system designed to recharge any K&N Filtercharger® air filter. Completely restores air flow efficiency so your Filtercharger® performs like new!

103-201 Service kit. Includes 6.5 oz. air filter spray oil, 12 oz. filter cleaner and service decal. **SOLD AS KIT**

103-12 K&N air filter oil, only. **SOLD EACH**

ORDER CASE QUANTITY (12) FOR BEST PRICE!

B. BRUSHES

97-318 Stainless steel wire brush with wood handle. **SOLD EACH**

97-319 Brass wire brush with wood handle.

C. BIN BOXES

To make the most of your parts storage shelf space, use space-saving **U.S.A. MADE** parts bins. 200 Lb. Test corrugated fiber board, treated for oil resistance — Mack Oil Shield™, yet some of the lowest priced bins in the world.

97-14 Width 2", length 12", height 4". **SOLD EACH**

97-15 Width 4", length 12", height 4".

97-16 Width 8", length 12", height 4".

D. PRIMARY OIL FILL FUNNEL **NEW!**

Add oil to your primary cover with no mess or spills. Snaps into the bottom of the derby cover hole. The flat cone shape makes it easy to fill a tight area. Reusable, easy to clean after use.

SOLD EACH

21-620 Primary oil fill funnel for '06-later Dyna® and '07-later Softail®, Touring and Trike models, OEM# 63797-10.

21-623 Primary oil fill funnel for '18-later FLSB and '19-later Softail models, OEM# 62700239.

E. OIL CATCHER DRAIN FUNNEL **NEW!**

Avoid spilling oil onto your engine when removing the oil filter. The Oil Catcher funnel slips below the filter, and provides access to spin the filter off its mount. Reusable, easy to clean after use.

Includes 1 plastic funnel & 1 rubber hose. **SOLD EACH**

21-621 Oil catcher drain funnel for '04-later XL, '08-'13 XR, '99-later Dyna® and Touring and '09-later Trike models. OEM# 63794-10.

21-622 Oil catcher drain funnel for M8 models. OEM#62700199.

ENGINE TOOLS

A. MAIN-SHAFT BEARING RACE PULLER / INSTALLER SET

97-401 Main shaft bearing race puller & installer set.

A

B. OUTER CAM BEARING PULLER

It is designed to remove the bearing straight from the camshaft without slipping or binding. Pat. Pending

97-423 For H-D® 1999 – 2006 models.. SOLD AS KIT

B

C. INNER CAM BEARING PULLER

Easily removes inner cam bearing without damaging the crankcase. It also can keep rollers from falling into the crankcase during removal. Pat. Pending

97-424 For H-D 57-90 Sportster, 57-85 XL and 87-90 Buell
SOLD AS KIT

D. ALTERNATOR ROTOR REMOVER

It will protect threads on sprocket shaft from damage while pulling rotor free from its magnetic hold.

97-425 For Harley-Davidson® 1997 to present FLHT Ultra or any Big Twin with a 45 AMP high output charging system. SOLD AS KIT

C

E. BALANCER INNER BEARING INSTALL/REMOVE

Used to install or remove the inner balancer bearing mounted in the left engine case. It can all be done on a work bench without using an arbor press. Fits all Beta Twin Cam models® 2000 to present. Pat. Pending

97-429 Balancer inner bearing install / removal tool. SOLD AS KIT

D

F. PISTON RING COMPRESSOR SET

Self locking ratchet to compress rings by minute graduation. Pliers can be used vertically or horizontally.

Band Sizes:

2-7/8" to 3-1/8" (73mm to 79mm)

3-1/8" to 3-3/8" (79mm to 86mm)

3-3/8" to 3-5/8" (86mm to 92mm)

3-5/8" to 3-7/8" (92mm to 98mm)

3-7/8" to 4-1/8" (98mm to 105mm)

4-1/8" to 4-3/8" (105mm to 111mm)

97-115 Piston Ring compressor set.

E

F

ENGINE TOOLS

A. MAIN BEARING END PLAY TOOL

Sets proper end play by selection of proper spacer. Use when refitting bearings or bearing sets on late models when spacers are not included. Fits H-D Big Twin 1955 & up.

97-160 Main Bearing end play tool.

B. FLYWHEEL HOLDING TOOL

Prevents flywheels from turning at the time of disassembly and assembly of engines. It also can be used to check clearance on stroker flywheels. Fits H-D FXD 2006-up, FXST 2007-up, FLST 2007-up, FLT 2007-up V-Twin.

97-175 Flywheel holding tool.

C. 9-PIECE STUD REMOVAL & INSTALLATION TOOL SET

Tool set provides the following sizes for stud installation:

7/16"-14, 7/16"-20, 7/32" Allen Wrench (852A)

3/8"-16, 3/8"-24, 3/16" Allen Wrench (852B)

5/16"-18, 5/16"-24, 5/32" Allen Wrench (852C)

1/4"-20, 1/4"-24, 1/4"-28, 1/8" Allen Wrench (852D)

97-125 9-Piece Stud removal & installation tool set.

D. ADJUSTABLE PISTON RING INSTALLER

Easy and safe piston ring installation without over-expanding the rings. Fits most common piston diameter. From 3/64" to 1/4" thick.

97-176 Adjustable piston ring installer tool.

E. PINION GEAR LOCKING TOOL

Locks pinion gear when tightening the pinion gear nut. Just align underneath gear and screw into case. Fits H-D Big Twin between 1954-1999 single cam only. (includes aftermarket and S&S motors).

97-177 Pinion gear locking tool.

F. OIL FILTER WRENCH WITH CUTOUT

97-60 Oil filter wrench with cutout clearance for crank position sensors.

SOLD EACH

G. TWIN CAM@ CHAIN TOOL

77-909 Cam chain tensioner shoe installation & removal tool

TRANSMISSION TOOLS

G. TRANSMISSION DOOR REMOVER TOOL

Use to remove the complete door with gears and shafts from the transmission. Just prepare the trans for disassembly, bolt this tool to the outside of door, and place the two supplied press pins into the two screw holes of trans case. Thread in two of the screws, securing the door to case, and the door is pulled from case. Can be used with transmission in frame.

97-426 Fits all 2006 Dyna and 2007 FLHT & FXST. SOLD AS KIT

H. TRAP DOOR BEARING INSTALL/REMOVAL TOOL FOR TWIN CAM®

It can accurately install a lubed ball bearing into the transmission trap door, also removes bearing. It fits Twin Cam® Harley-Davidson® 6-speed Cruise, 2006 Dyna's and all 2007-up Twin Cam® models.

97-428 Trap door bearing install/removal tool. SOLD AS KIT

G

H

TRANSMISSION TOOLS

A. 6 SPEED BEARING INSTALLER TOOL

Use for 6-Speed main drive case bearing installer, holds bearing square to its bore, eliminates marring of the bearing bore. It fits H.D FXD '06-up & Big Twin '07-up 6 Speed models.

97-430 6 Speed bearing installer tool SOLD AS KIT

B. 5 SPEED MAIN DRIVE GEAR TOOL

97-414 5 Speed main drive gear tool.

C. MAIN SHAFT SPROCKET NUT SOCKET

97-420 Main shaft sprocket nut socket.

D. MAIN DRIVE GEAR SEAL INSTALLER TOOL

97-421 Main drive gear installer tool.

E. STEERING HEAD BEARING RACE INSTALLATION TOOL

97-409 Steering head bearing race installation tool.

F. WHEEL BEARING REMOVAL & INSTALLATION KIT

Wheel bearing removal and install tool is a must for every shop. Removes and installs 3/4 25mm & 1" sealed bearing for 2000-later wheels.

97-290 Wheel bearing removal & install kit.

SOLD AS KIT

G. FORK CAP SOCKET

97-400 Fork cap socket.

H. 39mm & 41mm FORK SPRING COMPRESSOR KIT

97-402 Fork spring compressor kit.

I. SWINGARM PIVOT BEARING PULLER

97-407 Swing arm pivot bearing puller tool.

J. MAIN DRIVE GEAR WRENCH TOOL

Removes the larger 2-1/4" hex nut from the end of the main drive gear which secures the rear drive transmission pulley. Fits H-D Dyna 2006 models and all Twin Cam 2007-up models.

97-178 Main Drive Gear wrench tool.

PRIMARY/CLUTCH TOOLS

A. CLUTCH SPRING TOOLS

Diaphragm clutch spring compression tools. Makes it easy to remove and re-install retainer ring.

97-126 Fits Big Twin 1990 & later and Sportster® 1991 & later.

97-127 Fits Sportster® 1984 thru 1990. **SOLD EACH**

B. CLUTCH REMOVAL TOOLS

Allows removal of clutch pressure plate, springs and spring retainer as one unit. Unique, self-centering design, polished & chrome plated.

97-31 Clutch removal tool; fits Big Twin 1941 thru 1984. **SOLD EACH**

Used to lock outer shell to inner hub for removal and installation.

97-32 Clutch lock plate; fits Big Twin 1941 thru 1984. **SOLD EACH**

C. CLUTCH ALIGNMENT TOOL

97-432 Clutch Alignment Tool. **SOLD EACH**

D. CLUTCH HUB PULLER

Eliminates the need to remove kickstart cover when removing clutch hub.

97-3 Fits all Big Twins 1941 thru 1983, including hubs with 10 long studs. **SOLD EACH**

E. CLUTCH HUB PULLER

Use to remove clutch hub without removing clutch release rod. Puller works on wet and dry clutches. 4 bolts included for dry clutch removal.

Pat. Pending

97-422 For all H-D® Big Twin 1936-90. **SOLD AS KIT**

CHAIN TOOLS

A

A. CHAIN BREAKER & RIVETING TOOL KIT

97-21

This Kit is supplied with adequate components to break chains from #35 to #630. It can be used on cam chains and drive chains.

Contents:

- Handle
- Lever
- Spring
- Two press plates
- Large anvil and small anvil
- H.S.S. Rivet tip for riveting hollow nose master links
- Body, alignment bolt and push bolt
- H.S.S. 2.2mm breaking tip for most cam chains
- H.S.S. 2.9mm breaking tip for chains #25 - #35 only
- H.S.S. 3.8mm breaking tip for chains #428 - #630
- Upper and lower guide for 2.2mm breaking tip

B

B. CHAIN BREAKER

97-23

This Chain Breaker is equipped with two hardened pins in 4.0mm. It covers the gamut from 420 to 620 chains. The handle can be folded away for easy storage.

C

C. MASTER LINK PLIERS

97-24

Many chains use a "master link" that allows the chain to be replaced by hand, over time, wear, dirt and corrosion can make it difficult to separate by hand.

Master Link Pliers can solve the problem and make removal and replacement of these master links quick and effortless. Insert the jaws into the master link and squeeze the handles until link is separated.

Note: Inquire chain manufacturer for recommendations on reuse or replacement of masterlink. Squeeze side plates of link between fingers throughout the removal process to prevent damage to "power link" master links on chains.

D

D. FORK SEAL & CAP INSTALLERS SET

Ideal tool to install fork seals, dust seals and caps into the bore without damaging the seal lip surface. Set contains: 41mm slider, 39mm slider, 35mm slider, 39mm pom cap

SOLD AS SET

97-147 Fork seal & cap set

FRONT END / SUSPENSION / WHEEL / TIRE

A. STEERING HEAD CUP/RACE PRESS

The Headcup Press easily and accurately presses steering head races, and select other applications, eliminating damaged or misaligned races/cups; dented and chipped frames. Our unique design permits quick release after races are seated. Multiple bushings provide a precise fit and alignment for most brands and, like all other Park Tools, has a limited lifetime warranty.

97-360 Head cup/race press SOLD EACH

B. STEERING HEAD CUP REMOVER

The Park Tool head cup remover makes steering head bearing race/cup removal simple. The tool is pulled through the steering tube until the flared ends snap in behind the race/cup. A hammer strike on the tool head removes the race/cup. Now there is no reason to damage another race. Spring blades fit most brands with 35-55 mm races. Made in USA.

97-361 Steering head cup remover SOLD EACH

C. SHOCK SPANNER

97-2 Works on all H-D® V-Twins 1958 & later, & XL 1958 thru 1974. OEM 94700-65. SOLD EACH

D. PORTABLE MOTORCYCLE TIRE BEAD BREAKER

This is a great tool for the home work shop or the touring enthusiast. It will break the bead on any motorcycle wheel that is open in the middle. It can not be used on solid wheels. The tool breaks down for easy storage in saddlebags or bed roll.

USA. MADE. Includes instructions.

97-207 Motorcycle tire bead breaker. SOLD EACH

E. TIRE IRONS

High tension steel.

97-11 Straight tire iron, 9.5" x 1".

97-7 Straight tire iron, 15.75" x 1". SOLD EACH

97-6 Curved tire iron, 15" x 1".

F. PARK TOOL ALUMINUM VISE INSERT

Provides a safe way to hold small suspension shafts & fittings securely without damage — perfect for suspension overhauls! Magnetic strips attach to vise jaws for easy, trouble free use.

97-301 Heavy duty aluminum jaws have 3 machined openings to hold shafts from 7mm to 15mm. SOLD AS SET

G. STAINLESS STEEL SAFETY WIRE

Wire comes in a handy 1 pound dispensing canister. Meets ASTM A580 chemistry. SOLD AS ROLL

18-790 22 gage safety wire, .025" dia.; aprox 595 ft. per roll.

18-791 20 gage safety wire, .032" dia.; aprox 362 ft. per roll.

18-792 18 gage safety wire, .041" dia.; aprox 221 ft per roll.

H-D® / MIDWEST PART NUMBER CROSS REFERENCE

The following is a list of Harley-Davidson® part numbers with the corresponding MIDWEST part numbers. The use of H-D® part numbers is for reference only and are not intended to imply that any parts that we sell are H-D® original equipment. It is our desire to supply our customers with parts equal to or better than original equipment.

Parts Catalog

Replacement Parts for V-Twins

Located in small town Strathroy, Ontario, Factory Products has been serving the motorcycle industry for over 25 years, initially starting out as a Canadian distributor for Midwest.

Factory Products continues to serve both domestic and international needs for bikers across the globe.

Providing a platform to order everything from Ultima engine components, to wheels and rotors, Factory Products has you covered - online or a phone call away.

Business Hours:

Monday - Friday
9am - 5pm

Check out our website:
